Table of Contents

Perform a Requisition Inquiry

[Purchasing](#) > [Inquiry](#) > [Requisition Status Inquiry](#)

This Requisition Status Inquiry page is used to view the status of each item included on a specific requisition or purchase order without a contract. The Requisition Status Inquiry page can be accessed from two menus:

- For the current year, click Requisition Status Inquiry from the Inquiry menu.
- For next year, click Requisition Status Inquiry from the Next Year menu.

The page consists of the following three grids:

- The top grid displays requisitions or purchase orders.
- The middle grid displays items included on the requisition.
- The bottom grid displays a list of the approvers in the sequence of their approval.

Note: If **Global Access** is selected, the user can perform inquiries on the status of all requisition accounts.

Retrieve a record.	The From and To Date fields default to your current fiscal year.	
	TIP: Use the following fields to narrow your inquiry search. For example, you can perform a search on a specific requisition Status to only display a list of requisitions with the selected status. By narrowing your search parameters, you can avoid retrieving large amounts of data in a single instance.	
	Req Nbr	Type the requisition number to be retrieved.
	PO Nbr	Type the purchase order number to be retrieved. Leading zeros are not required. However, if the purchase order number is alphanumeric, the field is not zero-filled.
	Contr Type	Click  to select a contract type.
	From Date	Type the beginning search date in the MMDDYYYY format.
	To Date	Type the ending search date in the MMDDYYYY format. Note: The Date Requested is the date considered when using the From Date and To Date parameters.
	Status	Click  to select a status to be included in the search.
	Vendor Number	Type the vendor number.
	Vendor Name	Type the vendor name.
	Requestor Name	Type the requestor name.
Bid Category	Type the bid category code.	
Click Retrieve . Requisitions and purchase orders that you have submitted but that have not been received are displayed in the three grids.		

In the top grid, click  to inquire about the selected requisition. The requisition information from the [Create/Modify Requisition](#) page is displayed.

Field	Description
Status	The current status of the requisition is displayed. If the status is Pending to be approved , the requisition is not yet a purchase order. If the status is Approved , the PO Nbr field is populated with the assigned purchase order number.

Note: Unless permission is granted, Purchasing will not allow users to go over budget. If a user attempts to submit a requisition for more than the available amount, a message is displayed informing them of the issue and the requisition is not submitted. You can save the requisition until a budget amendment is done to increase the account or a different account is used.
