# Table of Contents

This tab is used to delete simulation tables. The Delete Simulations tab is not a required step in the simulation process.

You must be logged on to a next year pay frequency to access this utility.

Prior to using this utility, create an export using the [Position Management > Utilities > Export PMIS Tables](#) page.

The screenshot shows the 'Delete Simulations' interface. At the top, there is a 'Save' button. Below it are several tabs: SIMULATION OPTIONS, FIRST PAY DATE CODES, FUND/FISCAL YEAR EXCLUSIONS, LOCAL ANNUAL, HOURLY/DAILY, EXTRA DUTY, MIDPOINT, DEDUCTIONS, UPDATE SALARY TABLES, and DELETE SIMULATIONS. The main area is divided into two columns. The left column contains a table of simulation options with checkboxes and arrow buttons for selection. The right column contains a table of selected simulations with an 'Execute' button.
