Select Bank Account Group Code 1

Select Bank Account Group Code

The Bank Account Group lookup is used to search for and select a bank account group code(s).

Select a bank account group code(s):

- The bank account group codes are listed in ascending order.
- To search for a specific bank account group code, begin typing the bank account group code in the **Search** field. The list is automatically filtered to display the bank account group codes that contain the numbers that you have typed.
- When you locate the bank account group code(s) to be included, select the corresponding check boxes and click **Select**.
- Click **Cancel** to close the lookup without selecting a bank account group code.
