Select HUB Status

The HUB Status lookup is used to select one or more HUB statuses.

Select a HUB status:

- The HUB status codes are listed in ascending order.
- To search for a specific HUB status code, begin typing the code in the **Search** field. The list is automatically filtered to display the HUB status codes that contain the numbers or characters that you have typed.
- When you locate the bid number(s) to be included, select the corresponding check box and click **OK**. The lookup closes, and the field/parameter is populated with the selected HUB status code(s).
- Click **Cancel** to close the lookup without selecting a HUB status code.
