Select Simulation 1

Select Simulation

The Simulations lookup is used to select simulation(s).

Select a simulation:

- The simulation(s) are listed in ascending order.
- To search for a specific simulation, begin typing the simulation name or description in the **Search** field. The list is automatically filtered to display the simulations that contain the numbers or characters you have typed.
- When you locate the simulation you want to retrieve, select the corresponding check box and click **OK**. The lookup closes, and the field/parameter is populated with the selected simulation(s).
- Click **Cancel** to close the lookup without selecting a simulation.
