

sort_data

Table of Contents

You can sort data to make it easier to review or find records in the reports. Not all reports allow this option.

From the report window, click **Sort/Filter** to open the Sort/Filter window. By default, the **Sort Criteria** section is expanded. If not, click **Sort Criteria**.

(Left grid) Columns Available for Sorting	Select the columns by which you want to sort, the columns are highlighted blue. Click ► to move the selected columns to the right side of under Sort Columns . Continue moving columns to the right grid as needed.
(Right grid) Sort Columns	You can rearrange the columns to indicate the order in which you want the sort applied. Click a column name, and drag it up or down to a new location. In the right grid, for each column, click to indicate if you want that data sorted in ascending (e.g., A-Z, 0-9) or descending (e.g., Z-A, 9-0) order. To remove a column from the sort, select the column, and then click to move it back to the left grid.

Click **OK** to apply the selected sort criteria to the report.

Click **Cancel** to close the window without re-sorting.
