[ED40 Contract and Position record details.](#)

The ED40 record is used to report an employee's new employment and position records. This record reports contract and position information on each employee before the start of employment and before the submittal of regular payroll contributions for the first time.

Multiple ED40 records should be submitted for an employee with multiple jobs. If the various jobs fall within the same position code, then only one record should be submitted per position code. In that scenario, the ED40 records should include the employee's primary position information.

The **Emp Nbr**, **Staff ID/SSN**, **Name**, **DOB**, and **Gender** fields are displayed and cannot be changed.

[ED90 Termination record details.](#)

The ED90 record is used to report an employee who no longer has a contract or work agreement with the local education agency (LEA). The tab is necessary to process refunds and other

retirements.

The ED90 record is submitted to TRS in the same month that the final transaction for the employee is reported on the Regular Payroll Report. For employees in TRS-eligible positions, the final transaction may be the final salary and deposits, or previously reported salary and deposit adjustments. For employees in TRS-ineligible positions, the final transaction may be the final salary or a previously reported salary adjustment.

The ED90 record and the final transaction reported through the Regular Payroll Report must be submitted before TRS can process a refund, death claim, or retirement for a member. If the final transaction month was incorrectly reported on the ED90, you must submit a new ED90 to replace the originally reported month.

The **Emp Nbr**, **Staff ID/SSN**, **Name**, **DOB**, and **Gender** fields are displayed and cannot be changed.
