TxEIS field	Element ID	Data Element	Description	PEIMS Submission
Percent Day Employed	E0760	PERCENT-DAY-EMPLOYED	<p>Indicates the percentage of a standard district work day for which the employee is hired to work. For an employee on contract, the percentage can be determined directly from the contract: full-time = 100, half-time = 050, and so on. For a non-contract employee, the percentage can be determined as follows.</p> <p>Example: The standard work day for the district is 7 hours. An employee is hired to work for 4 hours per day. This data element is coded as 057 for the employee because $4/7 = .571$, which is rounded down.</p> <p>Employees such as cafeteria workers and bus drivers who work only a few hours each day should not be reported as 100 in this field. Consider the number of hours worked in relation to the standard district work day, not the job.</p>	Summer
