❑ Review the data, indicate the reimbursement and matching fund amounts (if any), and save or submit the request.

   Over Expend Notes:

If changes are made to a reimbursement request (amounts are moved between object classes), the amount must be less than the over expenditure limit. Use the following calculation to find the over expenditure limit for an object class:

Over Expenditure limit = (Total Budget * (1 + Overexpend %)) less (Reimbursement + Pending Reimbursement)

Example: The **Total Award** for an object class is 5000, the **Over Expend %** is set to 10%, the **Reimbursement** amount is 400 and the **Pending Reimbursement** is 0.

The calculation is: **5100** = (5000 * (1 + 10%)) – (400 +0)

In this example, the **Reimbursement Request** cannot exceed 5100.

If any of the transaction's object class **Reimbursement Requests** are greater than the **Over Expenditure** limit, a budget revision is needed.

Reimbursement Request	Type the amount of the reimbursement request. This field can only be edited if the transaction **Type** is *Periodic* and the **Status** is *Saved*. Otherwise, the field is disabled. A reimbursement is used to create a transaction to reimburse a member LEA's vendor using an amount that is equal to or less than the amount available in a grant's eligible remaining amount not to exceed the over expenditure percentage amount, if applicable.
Matching Funds	Type the total amount of matching funds. This field can only be edited if the transaction **Type** is *Periodic* and the **Status** is *Saved* or when adding a new request. Otherwise, the field is disabled. This field can be used when a grantee is required to "match" the grant in some way from other sources and it has to be reported back to the granting agency. This is a way for the fiscal agent to collect that information for reporting. This field is for <u>information purposes only</u> and does not affect grant calculations or totals.
