Responsibility - HRS3000 1

Responsibility - HRS3000

Human Resources > Maintenance > Staff Demo > Responsibility

This tab is used to maintain job responsibility information for certain employees, which is used for PEIMS/State Reporting. Although, responsibility records retrieve the necessary data from the Master Schedule for most classroom teachers, other employees such as administrators and classroom aides must be manually entered on this tab. Employees who have responsibilities at more than one campus, assume more than one role, and/or perform more than one type of service will have multiple records.

See the [Quick Reference by Professional or Auxiliary Role ID](#) for additional information.

Image 

Add responsibility data:

Retrieve an existing record.	<p>Search for a record.</p> <p>Begin typing the employee name or number. As you type the data, a drop-down list of corresponding data is displayed. Select an employee and click Retrieve. Or, click Directory to perform a search in the Employees directory.</p>
-------------------------------------	--

Click **+Add** to add a row.

Field	Description
School Year for PEIMS Codes	The school year for the PEIMS edit tables as entered in on the Tables > District HR Options page is displayed.
Campus	Click  to select the code that identifies the campus to which the employee is assigned. If the duties are not related to a particular campus for the responsibility record, select 700 - Administration.
Role ID	Click  to select the code that identifies the capacity in which a person performs the duties or service described in the record. For example, 029 indicates the role is classroom teacher.
Service ID	Click  to select the eight-digit code that identifies the specific service performed by the employee.
Pop Served	Click  to select the two-digit code that indicates the student population for which the service is designed or intended. Use special student population codes only when the service itself has been tailored for a special population.
# of Students	Type the number of students for whom the employee is responsible. The field can be a maximum of three digits.

Field	Description
Class ID	<p>PEIMS Reporting Element</p> <p>Type the 14-character, alphanumeric, district-defined ID identifying a unique course section that is unique for a particular school year, campus, and service ID. This unique ID is assigned to the instructor’s duties for a particular class. The class ID number can be repeated at a campus if multiple teachers are assigned to the same course section. When extracting from the master schedule, the class ID number is set to the course number (four to eight digits) + two-digit section number + one-digit semester number + padding with zeros. Example: 0901-11-1-0000000 Spaces are not allowed in the Class ID field.</p> <p>Note: When extracting from the master schedule, the class ID will be set to the four-digit course number + two-digit section number + one-digit semester number + 0000000. The first seven digits of the class ID are required, and the system will automatically fill the remaining with 0000000 when the user clicks Save.</p>
Class Type	Click  to select the class type. The class type identifies the type of class providing instruction to students in particular class settings.
Monthly Minutes	Type up to five digits for the maximum number of minutes in a month devoted to a particular class. A month is generally considered to be the four weeks prior to the as-of-date.
ESC/SSA	Click  to select the code that indicates if the staff member works for an educational service center (ESC) only or is also part of an ESC shared service arrangement.
Job Code	Click  to select the four-character district-defined code that identifies the specific job to which this individual is being assigned during the period indicated. This is not a required field and is not required for State Reporting.

Click **Save**.

Other functions and features:

Retrieve	<p>Retrieve data.</p> <p>The Retrieve button is also used to retrieve information from the last save. If you click Retrieve, any unsaved changes are lost.</p>
	<p>View additional information.</p> <p>Click to view additional details for a selected row.</p>
	<p>Delete a row.</p> <p>Click to delete a row. The row is shaded red to indicate that it will be deleted when the record is saved.</p> <p>Click Save.</p>
Documents	View or attach supporting documentation.
