This tab is used to maintain job responsibility records for employees, which is used for state reporting purposes. Although responsibility records retrieve the necessary data from the Master Schedule for most classroom teachers, other employees such as administrators and classroom aides must be manually entered on this tab. Employees who have responsibilities at more than one campus, assume more than one role, and/or perform more than one type of service will have multiple records.

Review the [Responsibilities - Quick Reference Chart](#).

Visit the [TSDS Web-Enabled Data Standards](#) website, select the appropriate **School Year**, and review the Data Components > Entities > StaffEducationOrganizationAssignmentAssociation Entity page for additional guidance on entering responsibility records.

## Notes:

- Employees can have multiple responsibility records for the same year, provided that each record has a different **Staff Service** value.
- If you need to delete a responsibility record for multiple employees, use the [Personnel > Utilities > Mass Delete > Responsibility Data](#) page.

## Add responsibility data:
