# Vacate Employee from Forecast Positions - HRS6200

**Human Resources > Utilities > PMIS > Vacate Employee from Forecast Positions**

This utility is used to remove an employee from all positions that the employee occupies without performing a change in position (CIP) to remove.

This utility is for forecast records only.

## Vacate an employee from forecast positions:

Field	Description
<b>Employee</b>	<p>Begin typing the employee name or number. As you type the data, a drop-down list of corresponding data is displayed. Select an employee, and click <b>Retrieve</b>. Or, click  to perform a search in the Employees directory.</p> <p>Type data in one or more of the search fields.</p> <p>Click <b>Search</b>. A list of data that matches the search criteria is displayed.</p> <p>Select an employee name from the list.</p> <p>Otherwise, click <b>Cancel</b>.</p>
<b>Vacate</b>	<p>Select to vacate the employee from the position currently displayed.</p> <p><b>Note:</b> After selecting positions that should be vacated, click <b>Save</b>, and the employee will be removed from the position. If the employee has supplement positions and all regular positions are being vacated, the supplements must be vacated also. If the employee has multiple regular positions, and not all of the regular positions are being vacated, then vacating the supplement positions is not required.</p>

Click

to display the detail information for the selected row.

If **Accept Chgs** is selected, the user can choose to vacate the employee from the position. If **Accept Chgs** is not selected, the employee cannot be vacated from the position, and **Vacate** is not displayed on the page.

<b>Position Type</b>	This field is display only and is populated based on the job code.
<b>Positin Number</b>	This field is display only.
<b>Position Description</b>	This field is display only.
