# Additional Deduction - HRS3300

## Payroll > Maintenance > Hours/Pay Transmittals > Addl Ded

This tab is used to maintain records of additional deduction transmittals from employee paychecks. It allows you to set up one-time deductions without altering deduction information on the employee master record. Any transactions entered on this tab are in addition to the deductions listed on the employee's master deduction record/tab. The transmittal records cannot be changed after a payroll is run.

The tab consists of a grid at the top and a free-form area at the bottom.

**Note:** Entries on this page are not processed when selecting Supplemental Payroll on the Run Payroll process page. They are only processed with regularly scheduled payroll processing.
