# Deductions - HRS3400

## Payroll > Utilities > Mass Update > Deductions

This utility is used to update deductions for a number of employees at a single time. Deduction data may be updated by a variety of criteria including pay type, pay grade, primary campus, and pay frequency. The Deductions tab allows users to add, change, and delete deduction codes as well as alter the number of remaining payments and the existing dollar amounts associated with the deductions. Mass deduction updates are very useful at the beginning of the year when many employees are being added to insurance programs. Once deductions are added using this tab, they are reflected in the individual deduction records.

### Mass update deductions:

Under **Parameters**, select the appropriate parameters for the employees whose deduction data is to be changed.

**TIP:** Prior to processing a mass update, capture a screenshot of the parameters used for future reference.

Field	Description
<b>Pay Status</b>	Select whether active, inactive, or both groups are to be included in the process.
<b>Pay Type</b>	Click  to select the one-digit pay type to be included in the process. The system is set to All.
<b>Job Code</b>	Click  to select the four-digit job code to be included in the process. The system is set to All.
<b>Accrual Code</b>	Click  to select the one-character accrual code to be included in the process. The system is set to All.
<b>Pay Grade</b>	Type the three-digit pay grade to be included in the process.
<b>Prior Yr Emp Date</b>	Type a date in the MMDDYYYY format for the previous school year reemployment date. The system will select all employees who were hired on or before that date. If there is no reemployment date from the previous school year, the system will use the employee's original employment date.
<b>Primary Campus</b>	Click  to select the three-digit primary campus to be included in the process. The system is set to All.
<b>Pay Campus</b>	Click  to select the three-digit pay campus to be included in the process. The system is set to All.
<b>Contract Begin Date</b>	Click  to select the exact contract begin date to be included in the process.
<b>Contract End Date</b>	Click  to select the exact contract end date to be included in the process.
<b>Contract Months</b>	Type the contract months to be included in the process.

Field	Description
<b>Payoff Date</b>	Click  to select the payoff date to be included in the process.
<b>Payroll Freq</b>	Click  to select the one-digit payroll frequency to be included in the process. The system is set to the current logged-on payroll frequency. A specific payroll frequency must be selected; otherwise, no data displays.
<b>Salary Concept</b>	Click  to select the salary concept to be used in the process. The system is set to All. However, when calculating salaries, a specific salary concept must be selected (e.g., A - Use annual salary table, D - Use hourly/daily rate table, or M - Use mid-point table). If All is selected, the system will not perform salary calculations.
<b>Extract ID</b>	Click  to select a three-character, locally assigned code (e.g., En1 = English 1, AL2 = Algebra 2, HI4 = History 4) for grouping employees. The code is used to tag employee records for a batch process (e.g., copy or extract). Each employee must have the Extract ID set in the Employment Info tab before they can be selected using this function.
<b>Employee Nbr</b>	If you want to update data for only one employee, type the employee number, if known. If the employee number is not known or multiple employees are needed, click  to select employees.

Under **Method**, select the type of deduction change to be implemented.

<b>Change Existing Code and Amounts to Another</b>	<p>In the <b>If Deduction Code</b> field, click  to select the deduction code to be changed.</p> <p>Under <b>Change Deduction Info</b>:</p> <p>In the <b>New Code</b> field, click  to select the new deduction code.</p> <p>In the <b>Net Amount</b> field, type the dollar value of the deduction.</p> <p>In the <b>Remaining Payments</b> field, type the number of payments remaining.</p> <p>In the <b>Emplr Contrib</b> field, type the dollar value of the employer's contribution.</p> <p>By default, <b>Refund</b> is set to <i>No Update</i>, which indicates that no updates will be implemented to the refunds. You can set <b>Update All Records</b> to <i>N</i> or <b>Update All Records</b> to <i>Y</i>.</p> <p>By default, <b>Cafe 125</b> is set to <i>No Update</i>, which indicates that no updates will be made to the cafeteria 125. You can set <b>Update All Records</b> to <i>N</i> or <b>Update All Records</b> to <i>Y</i>.</p>
<b>Change Remaining Deduction Payments</b>	<p>In the <b>Set Number of Remaining Payments for All Deduction Codes</b> field, type the number of remaining deduction payments. This field changes the number of remaining payments for all deduction codes. If you want to adjust the remaining payments for specific deduction codes, use the following two fields. If you enter data into this field and the following two fields, the system is set to the data in this field.</p> <p><b>Note:</b> If changing the number of remaining payments to zero, a deduction code must be selected.</p> <p>Under <b>Change Remaining Deduction Payments</b>:</p> <ul style="list-style-type: none"> <li>•</li> </ul> <p>In the <b>Deduction Code</b> field, click  to select the deduction code for which the remaining payments are to be changed.</p> <ul style="list-style-type: none"> <li>•</li> </ul> <p>In the <b>Remaining Payments</b> field, type the new number of payments remaining.</p>
