Import Position Records - HRS7100

Position Management > Utilities > Import Position Records

This page is used to import position records or distribution records into the position management
tables. When importing position records, ensure the payroll frequency of the archived file is the
same as that of the logged-on payroll frequency.

Notes:

If importing current year records, you must be logged on to a current year pay frequency.

If importing forecast records, you must be logged on to a next year pay frequency.
