Move Forecast to NYR Payroll - HRS6270

Position Management > Utilities > PMIS > Move Forecast to NYR Payroll

This utility is used to move select groups of payroll forecast records to the next year based on the selection criteria entered. Once payroll forecast records are moved to next year, end-of-year accruals can be processed.

You must be logged on to a next year pay frequency to access this utility.

Only occupied positions within forecast can be moved to next year payroll.

Employees with end-of-year accruals that have been calculated to determine if the create General Journal step has been performed will not be moved.

Please create an export using Export Pay Tables and Export Human Resources by Payroll prior to using this utility.

This utility does not update the **Percent Day Employed** field on the [Human Resources > Maintenance > Staff Job/Pay Data > Employment Info](#) tab.

PMIS Overtime Notes

- If the employee's position record has hours per day, the following overtime calculation is used: overtime rate = (daily rate / hours per day) * 1.5, hourly rate = (daily rate / hours per day).
- If the employee's position record hours per day is zero and the job code table has FTE Hours, the following overtime calculation is used: overtime rate = (daily rate / (fte hours / 5)) * 1.5, hourly rate = (daily rate / (fte hours / 5)).
- If the employee's position record hours per day is zero and the job code table has zero FTE Hours, the following overtime calculation is used: overtime rate = (daily rate / standard hrs) * 1.5, hourly rate = (daily rate / standard hrs).
