# **Create/Modify Warehouse Requisitions - BWH3020**

#### Warehouse > Maintenance > Create/Modify Warehouse Requisitions

This page is used to submit a requisition for items stored in the district warehouse. The items indicated must exist on the inventory pages before they can be used on this page. The account code must be established in the Finance general ledger and on the District Administration User Profile page.

#### Create or edit a requisition:

Add	Add - Clear All Add - Clear Detail	the nev Clic acc a n	ck to clear all data for requisition and add a w row.  ck to clear the item and count data only and add ew row. Other existing ormation is not cleared.	OR	Retrieve an existing record	Requisition Nbr	Type the six-digit requisition number to be retrieved, if known. Leading zeros are not required. However, if alphanumeric values are entered, the field is
	Add - Clear Vendor	info	ck to clear the vendor ormation. Other existing ormation is not cleared.				not zero-filled.  a. If the requisition known, click Directory.
Field	<u> </u>		Description	<u> </u>			
Orig	inator Nam	e	The name of the logged-on user is displayed.				
Requestor Name		ie	Type the name of the person or organization requesting the item(s). As you type the data, a drop-down list of corresponding data is displayed. Select the requestor.				
Requisition Nbr		r	Displays AUTO if <b>Use Automatic CYR Requisition Number Assignment</b> is selected on the District Finance Options page. The requisition number will be automatically assigned when the requisition is saved.				
Date Requested		d	Type the date of the requisition request. By default, the field is set to the current date; however, it can be changed.				
Date Required			Type the date that the requisition is required. By default, the field is set to the current date; however, it can be changed.				
Reason			Type the reason for submitting the requisition or edit the current reason. The field can be a maximum of 30 characters.  This information is displayed on various reports and on the general ledger.				
Campus/Dept			Type the name of the campus submitting the requisition. As you type the data, a drop-down list of corresponding data is displayed. Select the campus/department.				
Shipping Addr			Type the address where the requisition is to be shipped or press SPACEBAR to display the list of available purchasing addresses.				
Refe	rence Nbr		Type the identification number for this requisition. The field can be a maximum of 15 characters.				
Hold			Select to have the item(s) ordered held at the warehouse, or leave the option blank to have the item(s) ordered shipped to the requestor's shipping address.				

Field	Description
<b>Accounting Period</b>	The accounting period for this transaction is displayed.

### In the upper grid:

Note	Click to add or read a note for the item. If a paper clip is displayed next to the <b>Note</b> button, an item note exists.  In the note window, review the existing notes or type new or additional notes (justification or instructions) about the item. <b>This information is for internal use only</b> .  Click <b>OK</b> to save the note and close the window. Otherwise, click <b>Cancel</b> to close
	the window.
Details	Click $\wp$ to select or view the account code(s) for the selected item. The account code data is displayed in the lower grid.
Seq	The order sequence of items in the requisition is displayed. The sequence number is automatically assigned when an item is added to the requisition.
Item Number	Type an inventory item number for the item to be ordered, or click to select an item number from a list.
Item Description	The item description is displayed, which is automatically populated based on the data populated in the <b>Item Number</b> field.
Quantity	Type the quantity in units of issue for the requested item.
Unit Price	The unit price of the selected inventory item is displayed. It is automatically populated based on the inventory item record.
Unit of Issue	The unit of issue for the selected inventory item is displayed. It is automatically populated based on the inventory item record.
Long Description	The long description of the selected inventory item is displayed. It is automatically populated based on the inventory item record.
Status	The status is displayed, which is automatically populated based on the inventory record for the selected item number.
Approval Status	The approval status is displayed, which is automatically populated based on the inventory record for the selected item number.
Requisition Total	The calculated total cost for each item in the requisition based on the quantity ordered and unit price per item is displayed.

 $\square$  Click **Refresh Totals** to update the totals if any amounts are changed in the grid.

Overage	Click to view a list of account code overages. The list is only populated if the requisition will
	cause the budget account used to go over budget. If there is more than one budget
	account used in the requisition, the list will display each budget account that is over
	budget as a result of the requisition order.

### In the lower grid:

	Type the account code components. The account code is comprised of the fund, function, object, subobject, organization, and program codes, and are the individual parts which, taken together, form an account number that uniquely identifies a specific budget category. These codes identify the account used to pay for the item(s) being ordered. The codes must exist in the general ledger and in the User Profile. You can add multiple accounts for each item.
Percent	Type the percent to charge the fund.
Amount	Type the amount to charge the fund.

☐ Click <b>Refresh</b>	Totals to update the totals if any amounts are changed in the grid.
□ Click <b>Calcula</b> : <b>Amount</b> columr	te Percent to populate the Percent column based on the amount entered in the n.
☐ Click <b>Calcula</b> <b>Percent</b> columr	te Amount to populate the Amount column based on the amount entered in the
window is displa	Ints to add or view requisitions comments. A Warehouse Requisition Comments byed. If there is a paper clip icon next to the <b>Comments</b> button, a requisition. In the Warehouse Requisition Comments window, type comments about the
	o save the requisition comment and close the window.  cel to close the window without saving the comment.
split all of the co	Acct Distr to assign one or more account codes to the entire requisition. You can osts for a requisition item between two or more funds. The percentage split does not same for each fund, but the sum of all percentages must equal 100%.
The Uniform Acc	count Distribution pop-up window is displayed.
☐ Complete the	following fields:
Account Code	Type the account code to be charged. The account code must exist in the general ledger and in the user profile (the account code must be assigned to the Requestor's user profile in District Administration.).
	The account code is comprised of the fund, function, object, subobject, organization, and program codes, and are the individual components that uniquely identify a specific budget category. You can add multiple accounts for each item.
	Press the SPACEBAR to view a list of account codes associated with the requestor's user profile. If the account code is not known, click . The Accounts Codes lookup is displayed.
	<ul> <li>Type data in the individual account code component fields and click <b>Search</b>.</li> <li>A list of account codes matching your search components is displayed.</li> <li>Select the applicable account code from the list. Otherwise, click <b>Cancel</b> to close the Account Codes lookup.</li> </ul>
	• The <b>Description</b> field is populated with the description of the account. <b>Note</b> : If an account code is added or changed, click <b>Approve</b> to save the account code and continue with the approval process.
Description	This field is populated with the account description from the Finance chart of accounts.
Balance	Displays the fund balance available in the account. A negative balance indicates that the fund has available funds.

Pct	Type the percent of that item to charge the selected fund. Each requisition must equal 100%.
	For example, the percent would be 100% if you paid from one account; however, if you paid from two accounts, you could split the amount 50/50, 75/25, or 60/40 for a total of 100%.
Amount	Type the amount to charge the selected fund. The amount that will be charged to that account according to the percent entered in the <b>Percent</b> Field.

☐ Click <b>Refresh Totals</b> to update the totals if any amounts are changed in the grid.
☐ Click <b>Calculate Percent</b> to populate the <b>Percent</b> column based on the amount entered in the <b>Amount</b> column.
☐ Click <b>Calculate Amount</b> to populate the <b>Amount</b> column based on the amount entered in the

- Click **OK** to apply the amounts.
- Click **Cancel** to close the window without applying the amounts.
- ☐ Click **Save**.

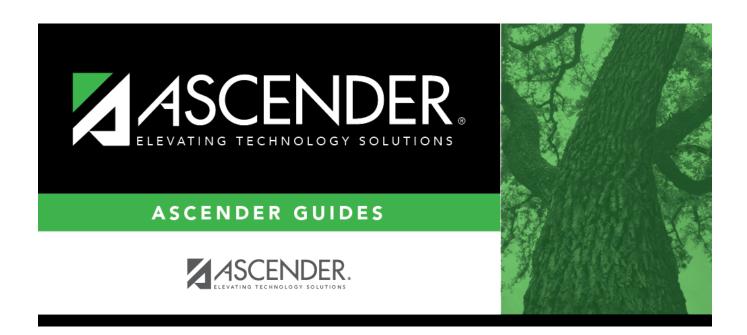

Percent column.

☐ Click **Submit** to submit the restock requisition. A pop-up window opens with a message indicating that the requisition has been approved, and prompting you to print the Warehouse Requisition Report.

- Click **Yes** to continue and print the report.
- Click **No** to continue without printing the report.

#### Other functions and features:

+Add	Click to add a new row.
Retrieve	The <b>Retrieve</b> button is also used to retrieve information from the last save. If you click <b>Retrieve</b> , any unsaved changes are lost.
Print	Click to print the report. Review the report.
Delete	Click to delete the requisition. A message is displayed asking you to confirm the item deletion.  Click <b>Yes</b> to delete the requisition.  Click <b>No</b> to not delete the requisition.
Ŵ	Click to delete a row. The row is shaded red to indicate that it will be deleted when the record is saved.
	Click Save.
