Fund/Fiscal Year - BWH6500 1

Fund/Fiscal Year - BWH6500

Warehouse > Utilities > Mass Reverse Pending Requisitions > Fund/Fiscal Year

This tab is used to mass reverse pending warehouse and restock requisition records based on the fund and fiscal year selected. The requisitions will be returned to the originator and set to a saved status. The account codes will be deleted, and both the workflow and workflow history will be deleted. This process will also reverse encumbrance General Journal transactions created during the approval path process and update the General Ledger.

- All back orders will be deleted, and the amount in Finance will be reversed.
- The restock requisition reversal process is similar to the purchase order reversal process.
- Warehouse requisitions cannot be reversed when a shipping order has been created (but not printed yet).
- If the requisition accounting period has been set for the current accounting period, only those requisitions created in the current and previous accounting periods are reversed.
- If the requisition accounting period has been set for the next accounting period, only those requisitions created in the next accounting periods are reversed.
- If the requisition accounting period has been set for the current accounting period and transactions exist in the next accounting period, those requisitions can only be reversed in the next accounting period.

Additional process notes

- Pending restock or warehouse requisition:
  - The workflow and workflow history is deleted.
  - This process reverses encumbrance general journal transactions created during the approval path process and updates the general ledger.
- In addition, if a warehouse requisition is pending:
  - If the requisition accounting period is set to the current accounting period, only those requisitions created in the current and previous accounting periods are deleted.
  - If the requisition accounting period is set to the next accounting period, only those requisitions created in the next accounting periods are deleted.
  - If the requisition accounting period is set to the current accounting period and transactions exist in the next accounting period, those requisitions can only be deleted in the next accounting period.
- If a restock or warehouse requisition is saved, all requisition information is deleted.
- If a restock or warehouse requisition is returned, all requisition information is deleted, along with the workflow and workflow history.
- If a restock or warehouse requisition is approved:
  - All requisition information is deleted, along with the workflow and workflow history.
  - This process reverses encumbrance general journal transactions for unprinted shipping orders, unfilled back orders, and due to/due from transactions.
- In addition, if a warehouse requisition is approved:
  - This process reverses encumbrance general journal transactions for unprinted shipping orders, unfilled back orders, and due to/due from transactions.
  - An Inventory Audit transaction reversal is created.
  - A Finance Inventory transaction reversal is created.
