Verify and Update Master Schedule Data

Verify TSDS data in the district and campus master schedules.

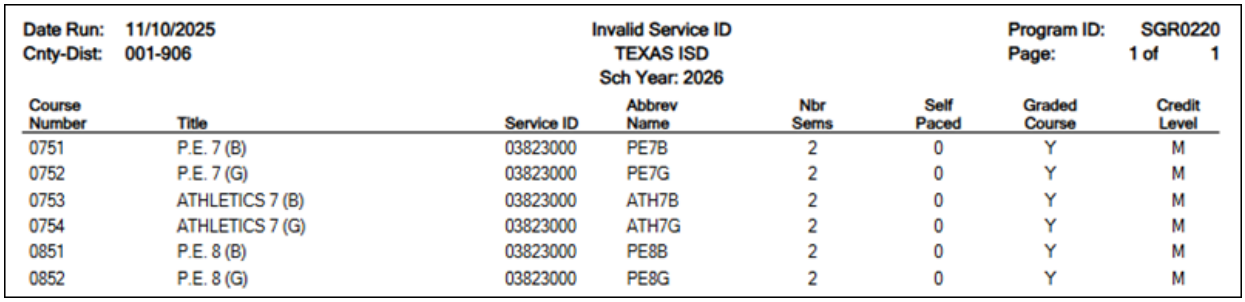

It is recommended to first run applicable reports and then use the Grade Reporting maintenance pages to update data as needed.

Grade Reporting

- Verify Master Schedule Data

  Data in the district master schedule can be verified by running the following reports:

  Grade Reporting > Reports > Grade Reporting Reports > Master Schedules > SGR0220 – Invalid Service ID

Date Run: 11/10/2025
Cnty-Dist: 001-906

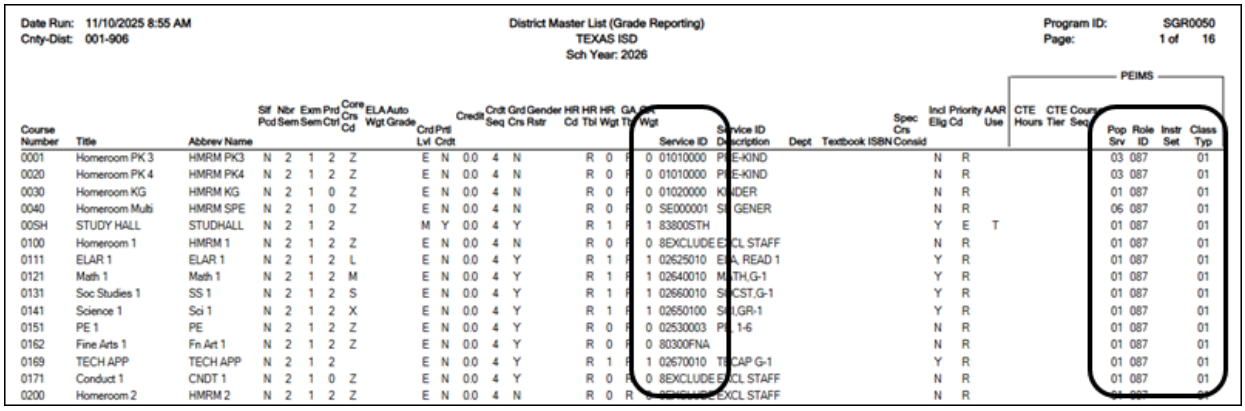

Invalid Service ID
TEXAS ISD
Sch Year: 2026

Program ID: SGR0220
Page: 1 of 1

Course Number	Title	Service ID	Abbrev Name	Nbr Sems	Self Paced	Graded Course	Credit Level
0751	P.E. 7 (B)	03823000	PE7B	2	0	Y	M

The SGR2500 report provides a count of students in each instructor's class, as well as the **Service ID** CourseCodes (formerly known as the SERVICE-ID (C022) code table) and total students.

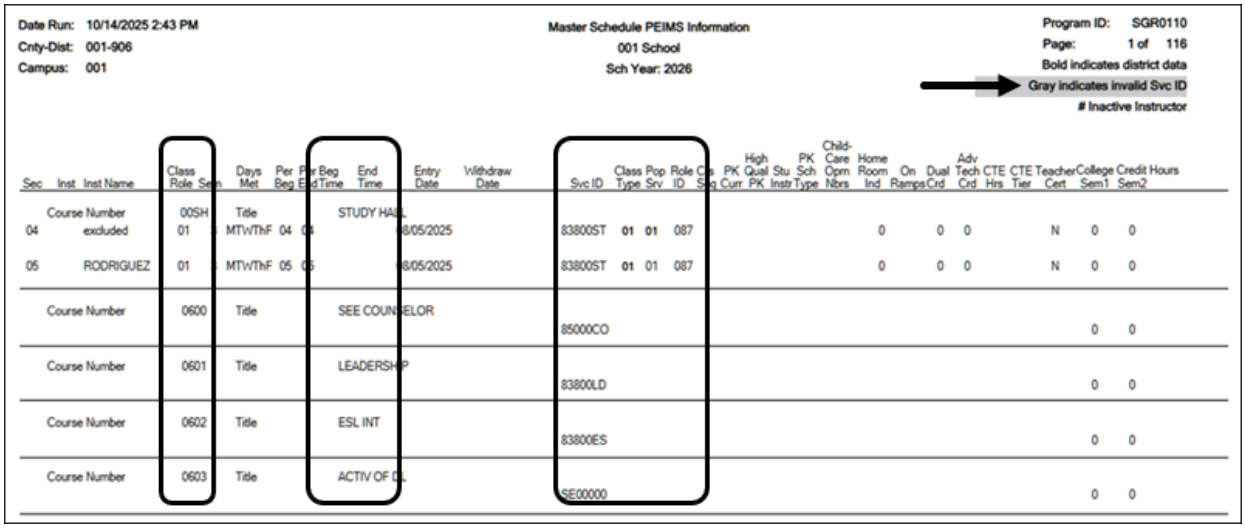

It allows you to:

- Identify course sections with no students enrolled
- Verify several data elements within the following data entities: **Course**, **CourseOffering**, **Section**, and **StaffSectionAssociation**.

Recommendations:
• Delete any course sections that have no students enrolled and are not in use. This prevents the system from sending incorrect or unnecessary data during processing.

• For districts that use the multi-period scheduling for elementary grade reporting, each subject should have a unique period. This is recommended by the TEA for classroom linking.

The SGR0110 report provides campus-level PEIMS information for the current school year. It allows you to verify campus course information at the section level.

NOTE: Section level settings override district level settings.

REMINDER: Specific to the StaffSectionAssociation

- **BeginDate (E3010)** Enter the first instructional day in the current school year the staff is assigned to the section.
- **EndDate (E3020)** Enter the last instructional day the staff was assigned to the section.

NOTE: When extracted for reporting, the system automatically adds one day to this date. This reported date represents the first day after the last instructional day. **This is the only instance where the system adds days to the entered date**, as a date after the last day of the school year cannot be manually entered.

- The following fields are used to calculate **MonthlyMinutes** (E1057): **Days** (of the week), **Time Begin**, and **Time End**.
  - If **Time Begin** and **Time End** are blank, the TSDS Crosswalks are used to calculate **MonthlyMinutes** (E1057).
  - If **Time Begin** and **Time End** are not blank, the extract uses these values

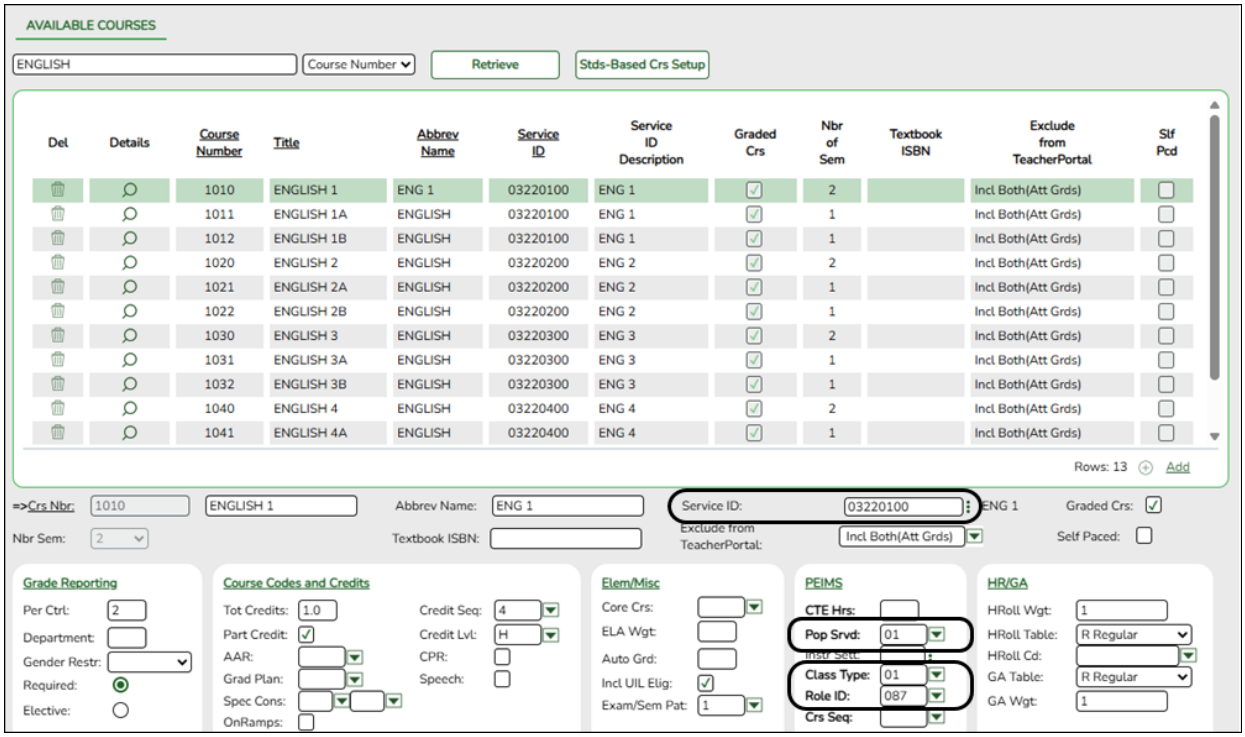

along with the **Days** (of the week) to calculate **MonthlyMinutes** (E1057).

Recommendations:
• For campuses with a set bell schedule, use Crosswalk **042 Responsibilities – From Campus/Period to Minutes** to assign **MonthlyMinutes** (E1057) based on the period. Only enter the **Time Begin** and **Time End** fields for the specific course sections that do not follow the standard bell schedule.

• For course sections where daily subject minutes may fluctuate, such as elementary teachers whose subject times vary, use Crosswalk **043 (Responsibilities – From Campus/Service ID to Minutes)** to assign **MonthlyMinutes** (E1057) based on the CourseCode, formerly known as SERVICE-ID.

- Update Master Schedule Data

Grade Reporting > Maintenance > Master Schedule > District Schedule

❑ Select the magnifying glass to update **Course Number** information.

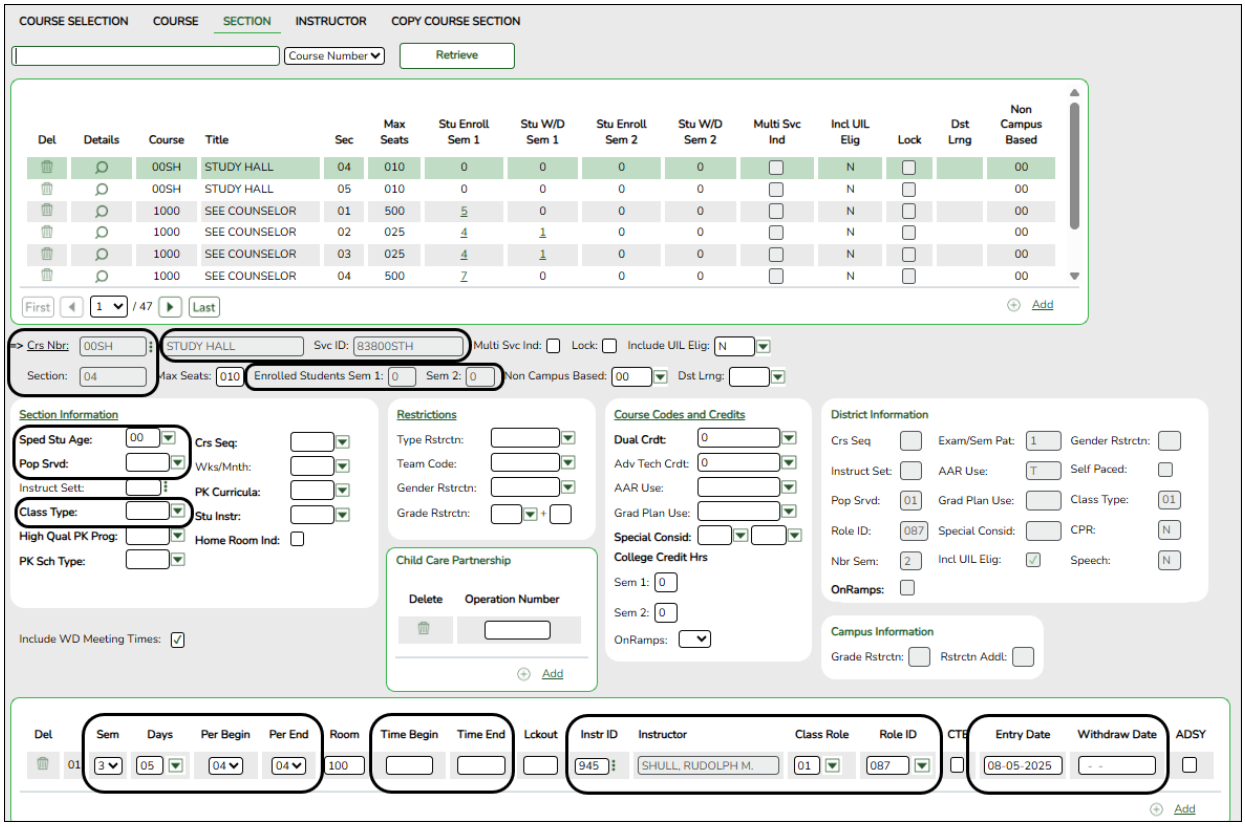

- The selected information is displayed. The grid view can be changed.

  The default view in the grid is basic course information indicated by ⇒ **Crs Nbr** in the area below the grid. You can modify the view in the grid by clicking an underlined

header in that area.

For example, if you click the **PEIMS** header, only PEIMS information is displayed in the grid. The PEIMS header is displayed as ⇒ **PEIMS** indicating that it is the current view.

Grade Reporting > Maintenance > Master Schedule > Campus Schedule > Section

❑ Select the magnifying glass to update **Course Number** information.

Several fields exist on both the district and campus master schedules. These fields only need to be updated in the campus master schedule if they require different values than the district master schedule.

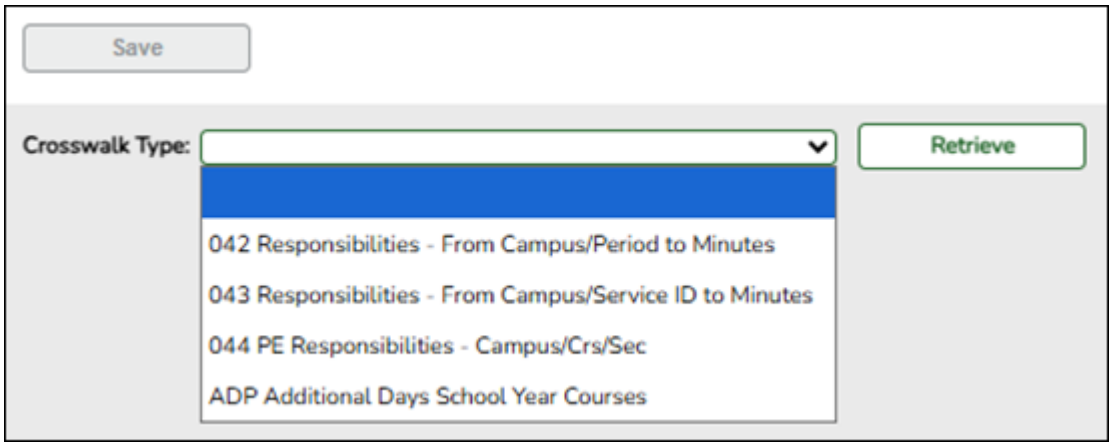

- If the field in the campus master schedule (section record) contains data, that value is extracted.
- If the field is blank in the campus master schedule (section record), the district value is extracted.
- Under District Information, district-level settings are displayed for your information.

Change the grid view: To display the applicable fields in the grid, click the section heading below the grid. An arrow is displayed next to the heading to indicate that those

fields are displayed above.

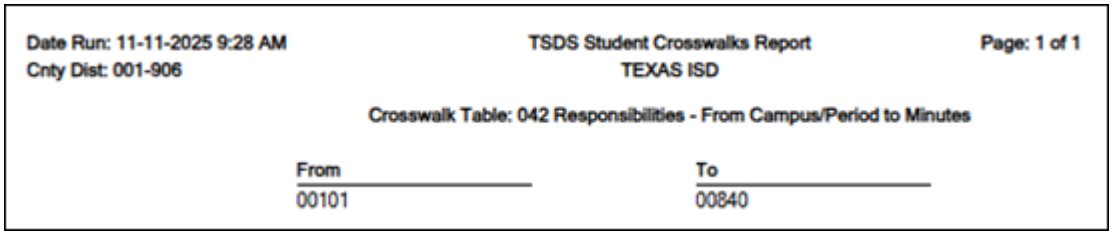

- Verify TSDS Crosswalks

Grade Reporting > Maintenance > Tables > TSDS Crosswalks

❑ Select the appropriate crosswalk from the **Crosswalk Type** dropdown menu.

❑ Click **Print** to print the data displayed.

NOTE: The TSDS Crosswalks Print option allows users to verify the accuracy of their set-up.

- Update Crosswalks

Crosswalks are used to calculate and assign the MONTHLY-MINUTES (E1057) for staff responsibilities in the four weeks preceding the PEIMS Fall snapshot date (the last Friday in October). They are essential for ensuring minutes are reported accurately and consistently across the district.

Logic for Monthly Minutes Assignment

The system determines the Monthly Minutes (E1057) for a course section using the following hierarchy:

1. **Time Fields First**: The system first looks at the **Begin Time** and **End Time** fields for the specific course section. If these fields are populated, the minutes are calculated from this time range.
2. **043 Crosswalk**: If the **Begin Time** and **End Time** fields are blank, the system checks the 043 Crosswalk (Responsibilities – From Campus/Service ID to Minutes) to see if the CourseCode (Service ID) is set up.
3. **042 Crosswalk**: If the **CourseCode** (Service ID) is not set up on the 043 Crosswalk, the system looks at the **042 Crosswalk** (Responsibilities – From Campus/Period to Minutes).

Grade Reporting > Maintenance > Tables > TSDS Crosswalks

NOTE: Minutes for any holidays should be included.

Crosswalk Type	Purpose and Usage
042 – Responsibilities – From Campus/Period to Minutes	For campuses with a set bell schedule, use Crosswalk **042 Responsibilities – From Campus/Period to Minutes** to assign MonthlyMinutes (E1057) based on the period. Only enter the **Time Begin** and **Time End** fields for the few, specific course sections that do not follow the standard bell schedule.
043 – Responsibilities – From Campus/Service ID to Minutes	For course sections where daily subject minutes may fluctuate, such as elementary teachers whose subject times vary, use Crosswalk **043 (Responsibilities – From Campus/Service ID to Minutes)** to assign MonthlyMinutes (E1057) based on the CourseCode (formerly known as SERVICE-ID).
044 – PE Responsibilities – Campus/Crs/Sec	Use Crosswalk **044 (PE Responsibilities – Campus/Crs/Sec)** to enter the number of days and minutes in which the PE teacher provides physical education instruction each week at the campus for the four weeks in October that include the last Friday in October. This is required for all teachers of record for course-sections associated with specific physical education (PE) CourseCodes.

These fields are not reported for employees with PE substitution responsibilities (i.e., employees with service IDs PES00000-PES00015).

Records are created for non-campus-based PE courses (i.e., Non Campus Based is greater than 00 in the campus master schedule) if the course is taught during semester

1 and at least one student is enrolled in the class.

This crosswalk is not used for Business-only districts whose responsibility records come from Human Resources, or if PE service IDs are not used for PE courses, or if your PE service ID courses do not have students. All other districts should use this crosswalk.

Update Data:

Crosswalk Type	Select the crosswalk table for which you want to convert data.

- The selected crosswalk table is displayed. The list can be re-sorted.

  You can re-sort the grid by clicking on an underlined column heading. It will sort in ascending order. Click it again to sort in descending order.

  A white triangle next to the column heading indicates the column by which the grid is currently sorted and whether it is sorted in ascending or descending order.

Crosswalk Type:
042 Responsibilities - From Campus/Period to Minutes

Update Data:

❑ Click **+Add** to add a new row. A blank row is added to the bottom of the grid.

- In the **From** field, type the three-digit campus ID and a two-digit period (e.g., for campus 001 and period 01, type 00101).
- In the **To** field, type the monthly minutes value. Zero-fill the value to five digits (e.g., 00940).

❑ Click **Save**.

Crosswalk Type:
043 Responsibilities - From Campus/Service ID to Minutes

Update Data:

❑ Click **+Add** to add a new row. A blank row is added to the bottom of the grid.

- In the **From** field, type the three-digit campus and ID and the eight-digit CourseCode (e.g. campus 101 and CourseCode 01020000, type 10101020000).
- In the **To** field, type the monthly minutes value. Zero-fill the value to five digits (e.g.

07200).

❑ Click **Save**.

Print	Print the crosswalk report. **Review the report using the following buttons**: Click First to go to the first page of the report. Click ◀ to go back one page. Click ▶ to go forward one page. Click Last to go to the last page of the report. **The report can be viewed and saved in various file formats**. Click  to save and print the report in PDF format. Click  to save and print the report in CSV format. (This option is not available for all reports.) When a report is exported to the CSV format, the report headers may not be included. Click  to close the report window. Some reports may have a **Close Report**, **Exit**, or **Cancel** button instead.
	Delete a row. Click to delete the selected row. The row is shaded red to indicate that it will be deleted when the record is saved. Click **Save**. A message is displayed confirming that you want to delete the row. ◦ Click **OK** to delete the row. ◦ Click **Cancel** not to delete the row.

Crosswalk Type:
044 PE Responsibilities - Campus/Crs/Sec

Create or update the crosswalk:

❑ In the **Crosswalk Table** field, select *044-PE Responsibilities - Campus/Crs/Sec*.

❑ The first time you access the page, there will be rows from the previous year displayed. Click **Delete** then click **Create** to add current year courses.

A list of course-sections associated with physical education (PE) service IDs is listed. This list is predefined and cannot be changed.

The **From** column lists course-sections in the campus-course-section format, where:

- The first three digits are the campus ID.
- The next digits are the course number, which may contain between four and eight

digits.
- The last two digits are the section number.
- The course-sections are for semester 1.

❑ For the Teacher of Record for each course-section listed, enter the following information for the four weeks in October that include the last Friday in October:

- In the **Day Week 1-4** fields, type the number of days in which the employee provides physical education instruction each week at the campus. Valid entries are one digit between 0-5.

- In the **Mins Week 1-4** fields, type the number of minutes the employee provides physical education instruction each week at the campus. Valid entries are up to four digits between 0-3000.

  These fields are automatically populated according to the **Days** code entered on ***Grade Reporting > Maintenance > Master Schedule > Campus Schedule > Section*** for each course-section meeting time. The program calculates the minutes in the days from the section **Time Begin/End** and sums for each meeting time the days per week for that meeting time, then multiplies the minutes per day for that meeting time to calculate the minutes for each week.

❑ Click **Save**.

❑ Click **Print** to print the data displayed.

❑ If new PE responsibilities records are found the next time you access the page, the **Create** button will be replaced with the **Refresh** button. Click **Refresh** to add new records to the grid.

NOTE: You cannot delete data row by row. You must click **Delete** to delete all rows on the page. Then, click **Create** to populate the page with PE course-sections. Then, you can re-enter all data.

WARNING: If you click **Delete**, all rows are deleted.

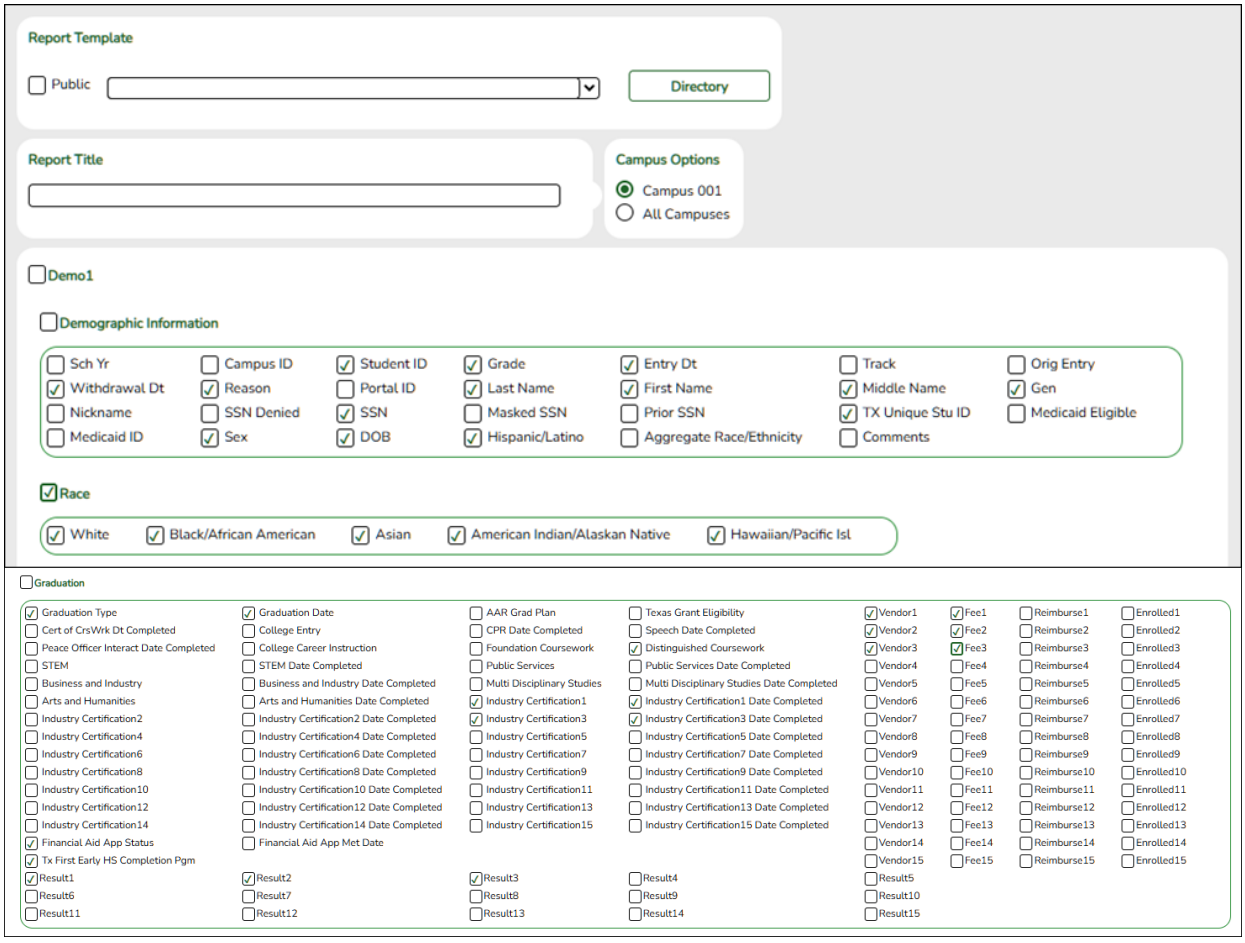

Verify and Update Current Year Student Data

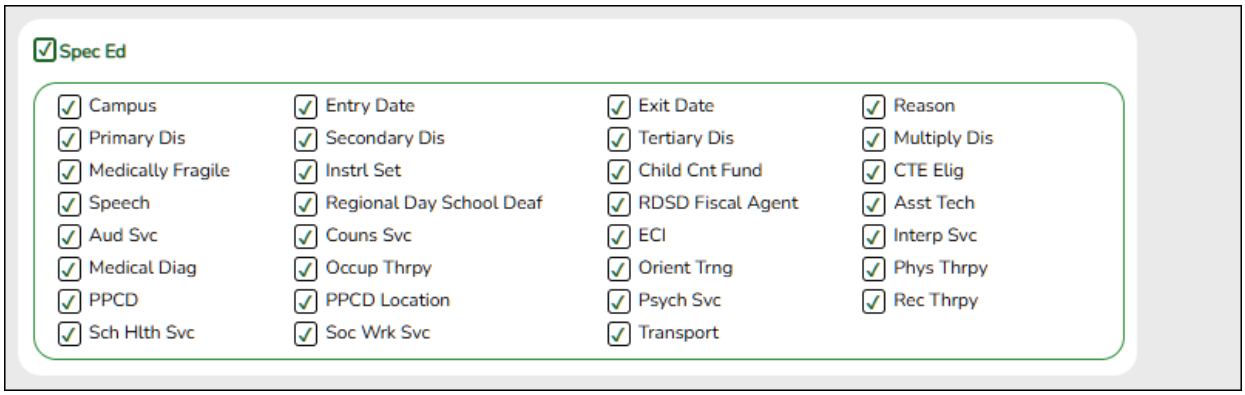

It is recommended that you run applicable reports first and then use the **Registration** maintenance pages to update data where needed.

Verify Student Data

- Registration > Reports > Create Registration Report

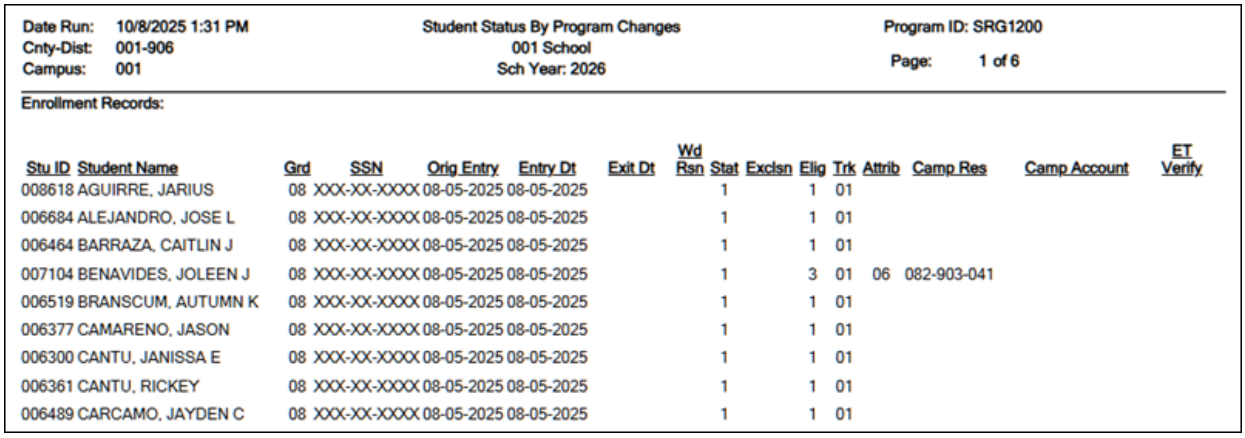

The **Create Registration Report** page allows you to verify student demographic data, Industry Based Certification (IBC) data and Alternative and Supplemental Services - Special Education data.

NOTE: PPCD Location = ECSEServiceLocation (E1077)

The SRG1900 - Local Program Enrollment Count report, generated multiple times and setting the **Local Program Code** parameter to each specific Local Program, verifies the majority or the StudentCharacteristic descriptors.

Update Student Data

- Demo1

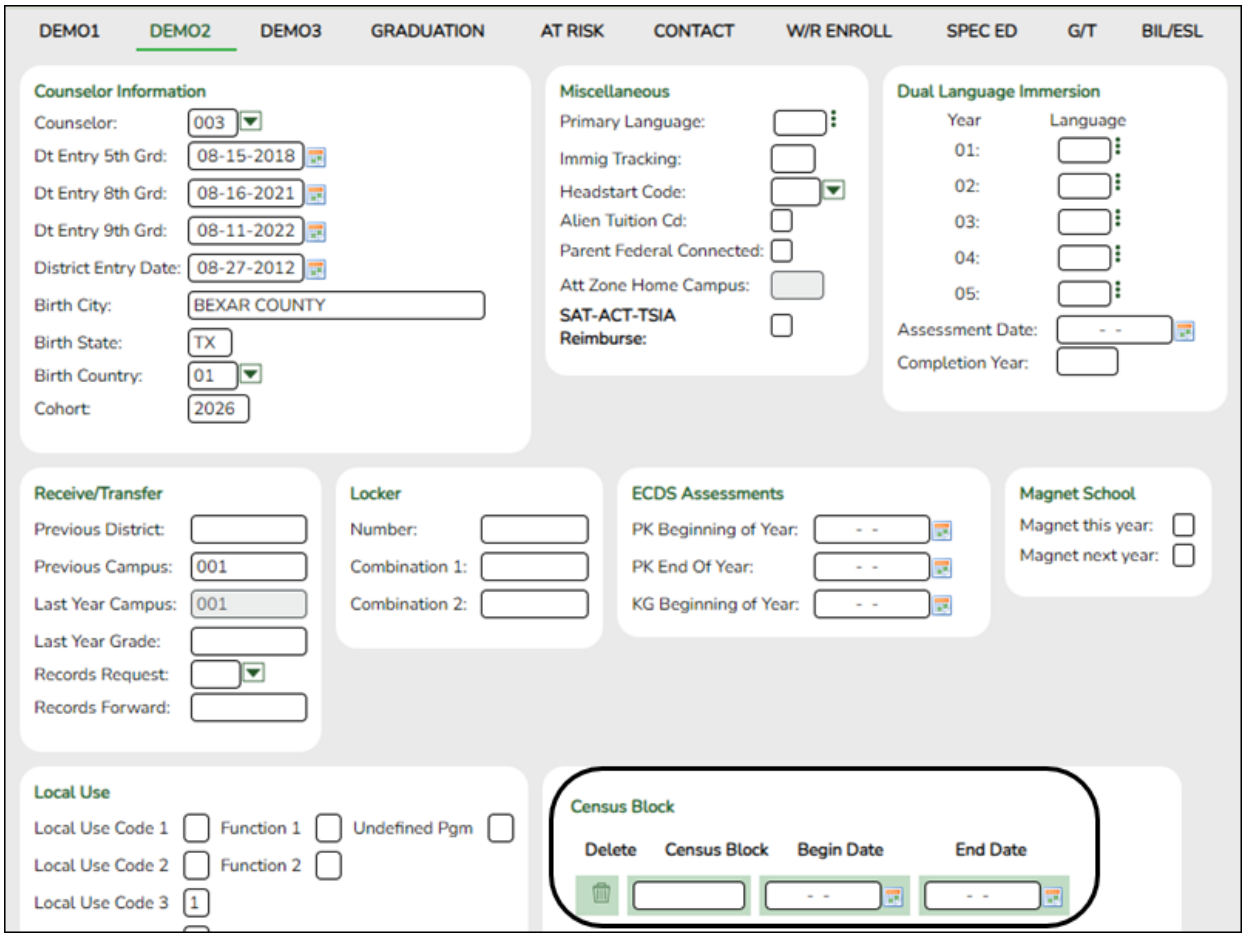

Registration > Maintenance > Student Enrollment > Demo1

For mass updates to **Economic Disadvantage**, use the Registration > Utilities > Reset Values utility.

- Demo2

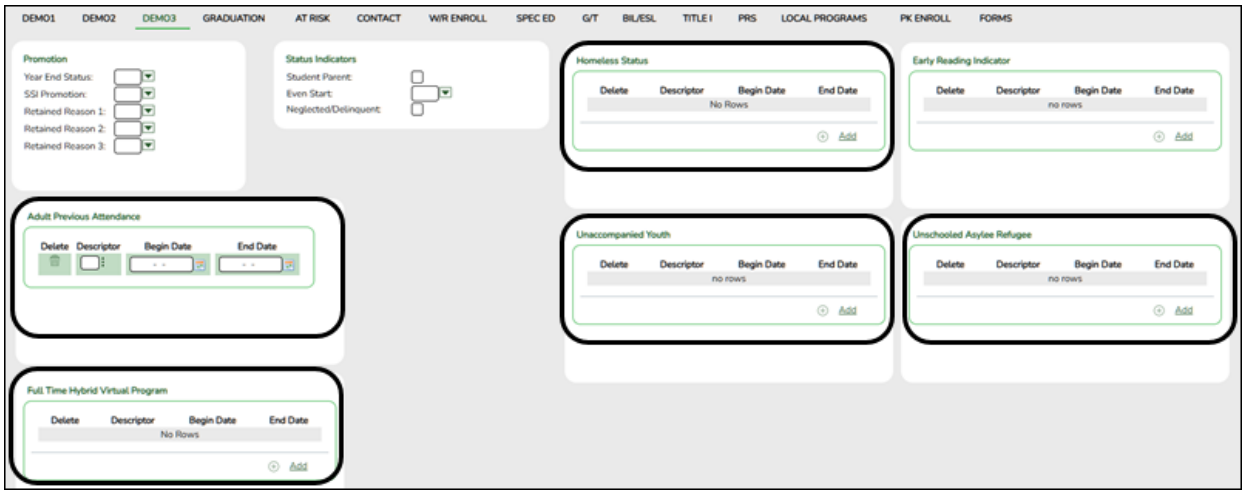

Registration > Maintenance > Student Enrollment > Demo2

NOTE: See the QuickGuide: TEA Census Block Utility for guidance.

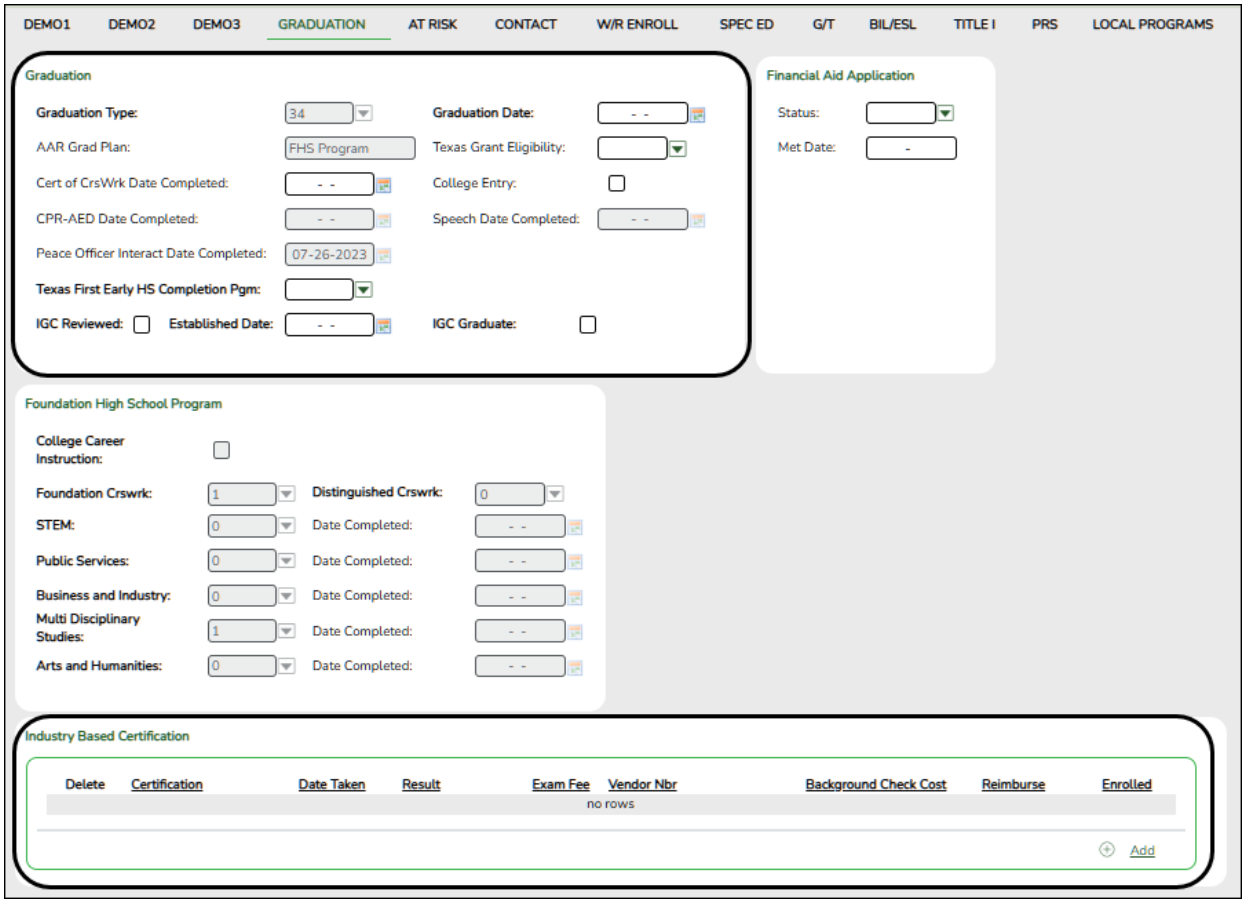

- Demo3

Registration > Maintenance > Student Enrollment > Demo3

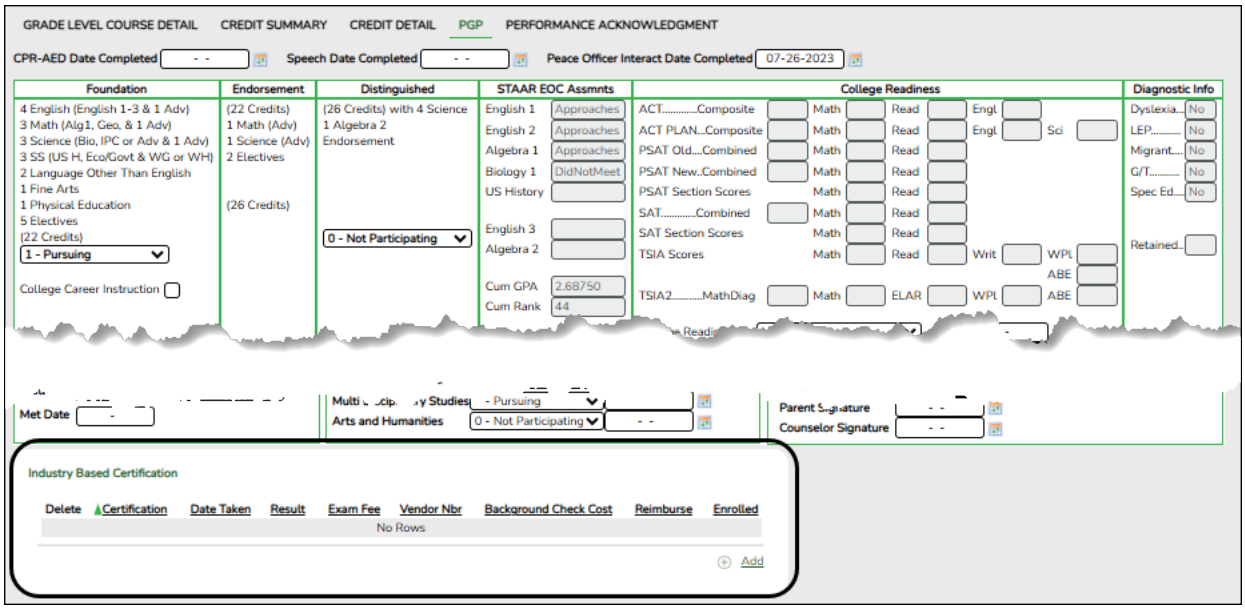

- Graduation

Registration > Maintenance > Student Enrollment > Graduation

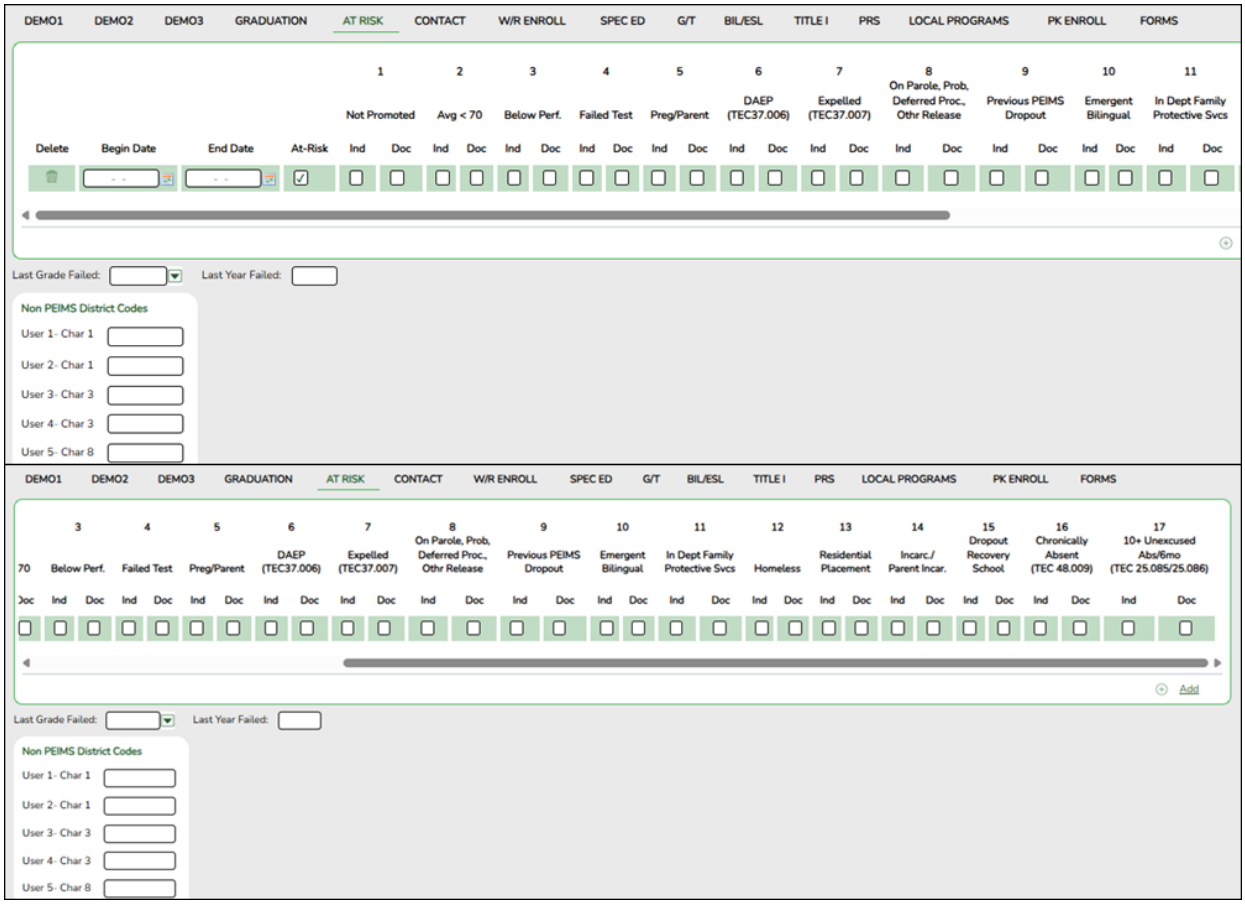

If the student has a graduation plan assigned to them in the Graduation Plan **application, this data must be updated in the Graduation Plan application.**

Graduation Plan > Maintenance > Student > Individual Maintenance > PGP

- At Risk

Registration > Maintenance > Student Enrollment > At Risk

Registration > Utilities > Set Student At Risk Indicators

This utility sets a student's At-Risk indicator if any of the **PEIMS at-risk criteria** fields are

selected for the student on Maintenance > Student Enrollment > At Risk, or clears it if none are selected. The utility sets or resets only 10 of the 15 fields, as indicated below.

Only students with the **Record Status** field set to 1 (currently enrolled this campus), 2 (currently enrolled this campus and will return next year) or 3 (currently enrolled this campus, will attend new camp next year) on Maintenance > Student Enrollment > Demo1 who are under 26 years old are considered.

The following **PEIMS At-Risk criteria** fields are set by the utility:

- 1. Not promoted for one or more school years
- 2. Did not maintain avg of 70 in 2 or more subject (07-12)
- 3. Unsatisfactory performance on assessment instrument
- 5. Pregnant/parent
- 6. Placed in a DAEP (TEC37.006)
- 7. Expelled (TEC37.007)
- 10. Emergent Bilingual (EB)
- 11. Is in the custody of care of the DFPS or has been referred to DFPS
- 12. Homeless
- 16. Chronically Absent (TEC, 48.009)
- 17. 10+ Unexcused Abs/6mo (TEC 25.085/25.086)

The following **PEIMS At-Risk criteria** fields must be set manually:

- 4. Unsatisfactory performance on readiness test (PK-03)
- 8. On parole, probation, deferred prosecution, or other conditional release
- 9. Previous PEIMS dropout
- 13. Residential Placement
- 14. Incarcerated or parent/guardian has been incarcerated during the student's lifetime, per Penal Code Section 1.07
- 15. Enrolled in a designated dropout recovery school under TEC §39.0548

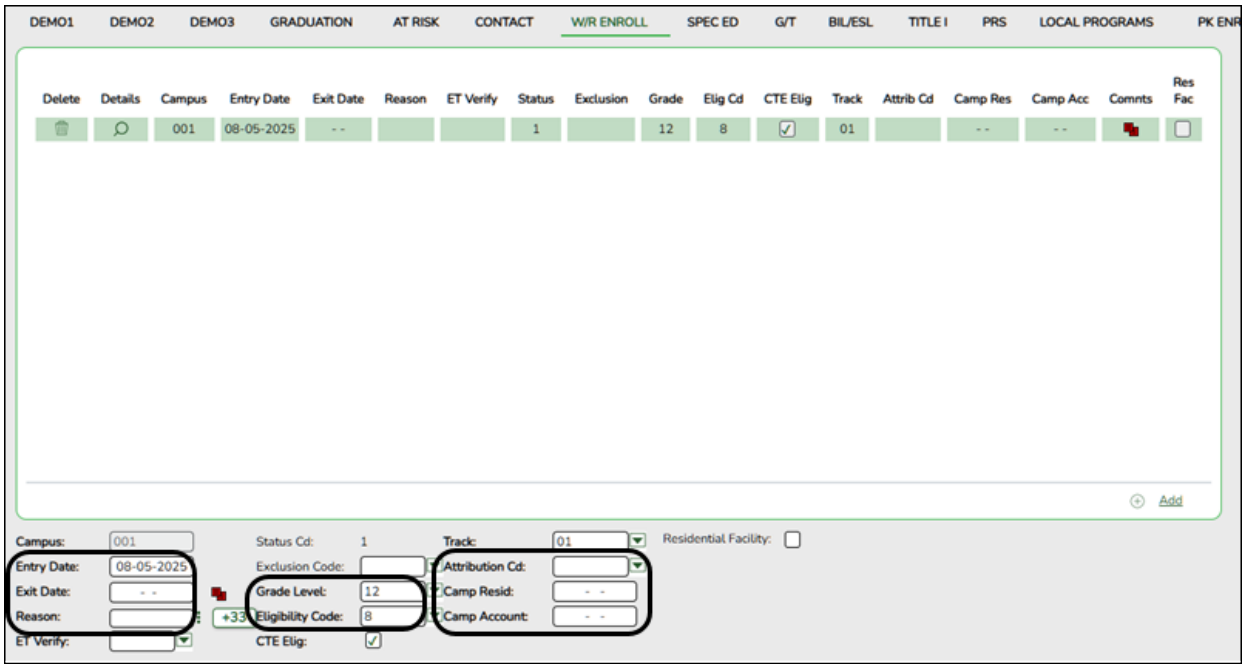

The **At-Risk Indicator** is not cleared when fields **4, 8, 9, 13, 14** or **15** is selected.

- This utility cannot be used in prior school years.
- You must have security rights assigned in the Security Administration application to run this utility.
- At-Risk information is from PEIMS Data Element E0919.
- Indicator 4 is not cleared unless the student has an assessment in the current or prior school year. This prevents manually entered data from being cleared for students who re-enrolled in the district.

See Registration > Utilities > Set Student At Risk Indicators for more information on this utility.

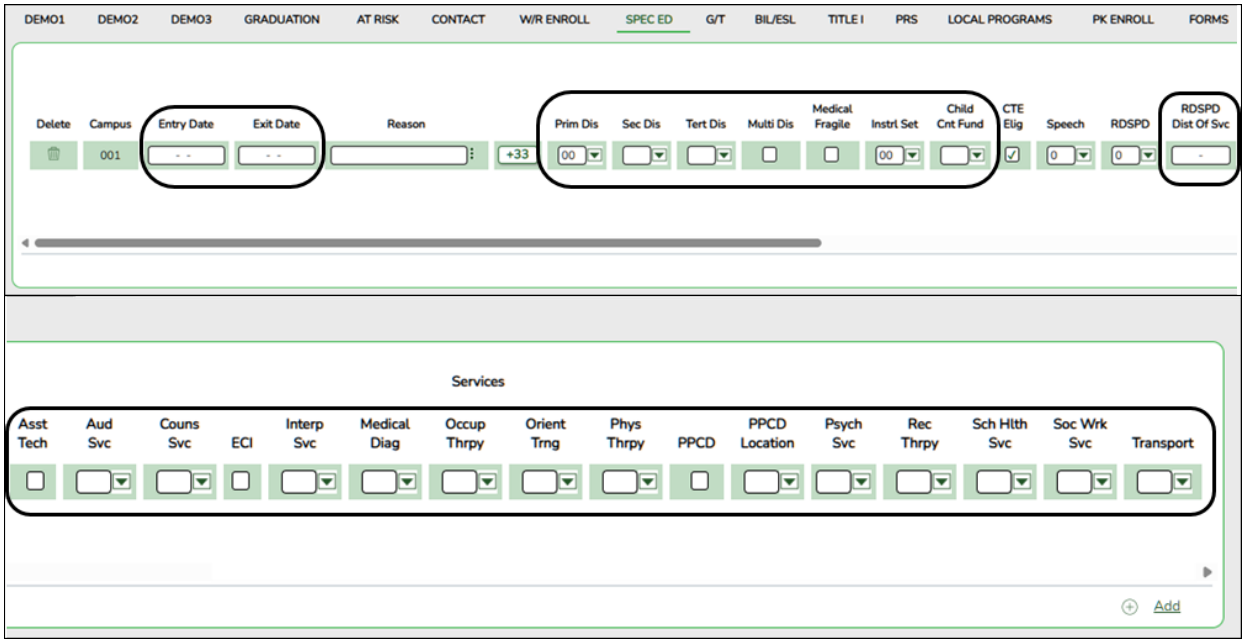

- W/R Enroll

Registration > Maintenance > Student Enrollment > WR Enroll

- Special Ed

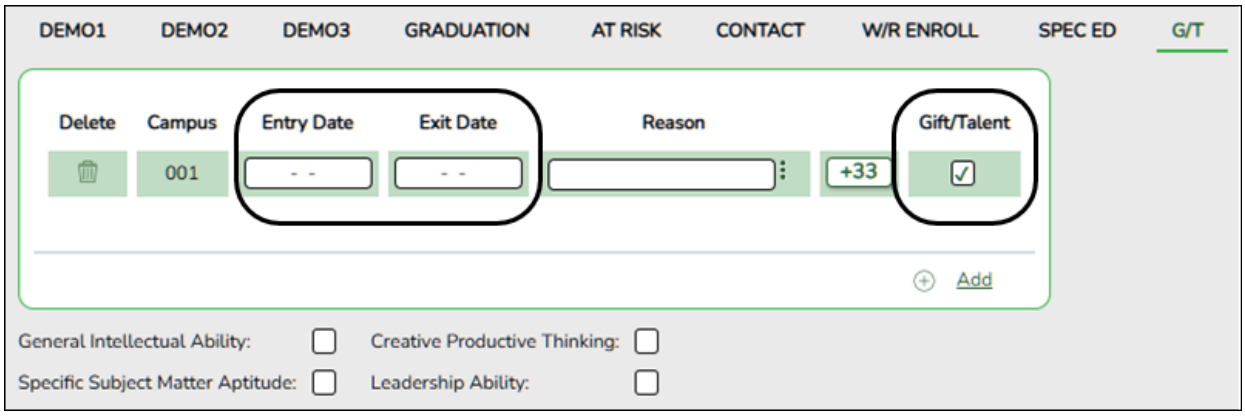

Registration > Maintenance > Student Enrollment > Spec Ed

NOTE: PPCD Location = ECSEServiceLocation (E1077)

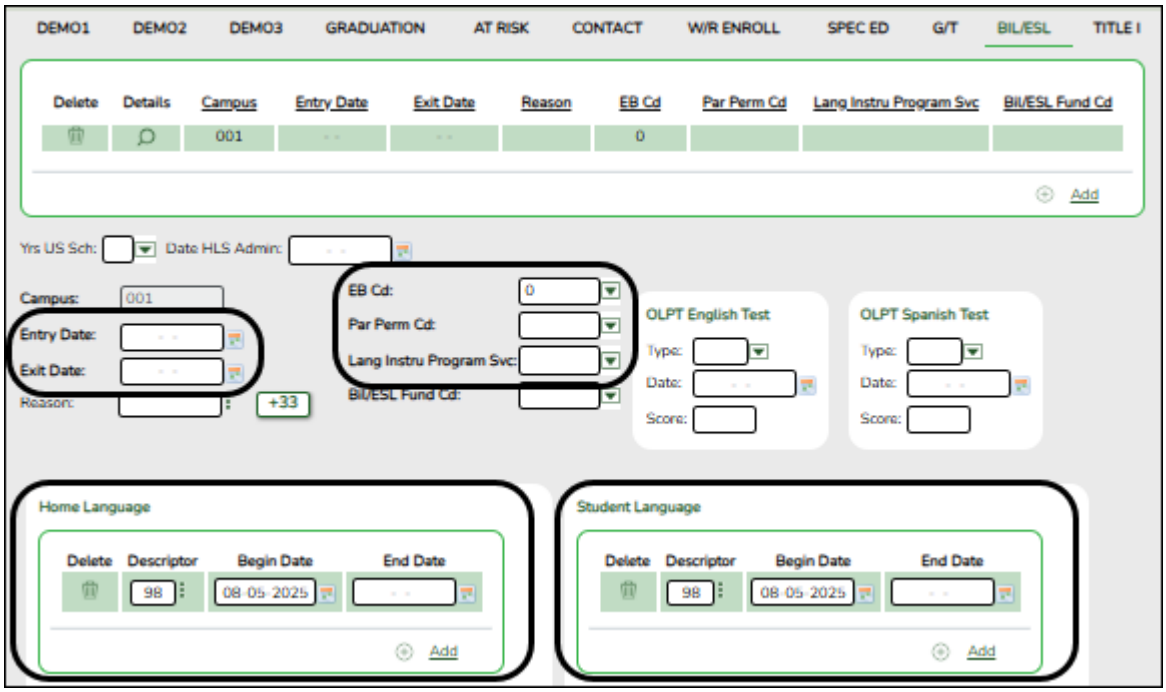

- Gifted/Talented (G/T)

Registration > Maintenance > Student Enrollment > GT

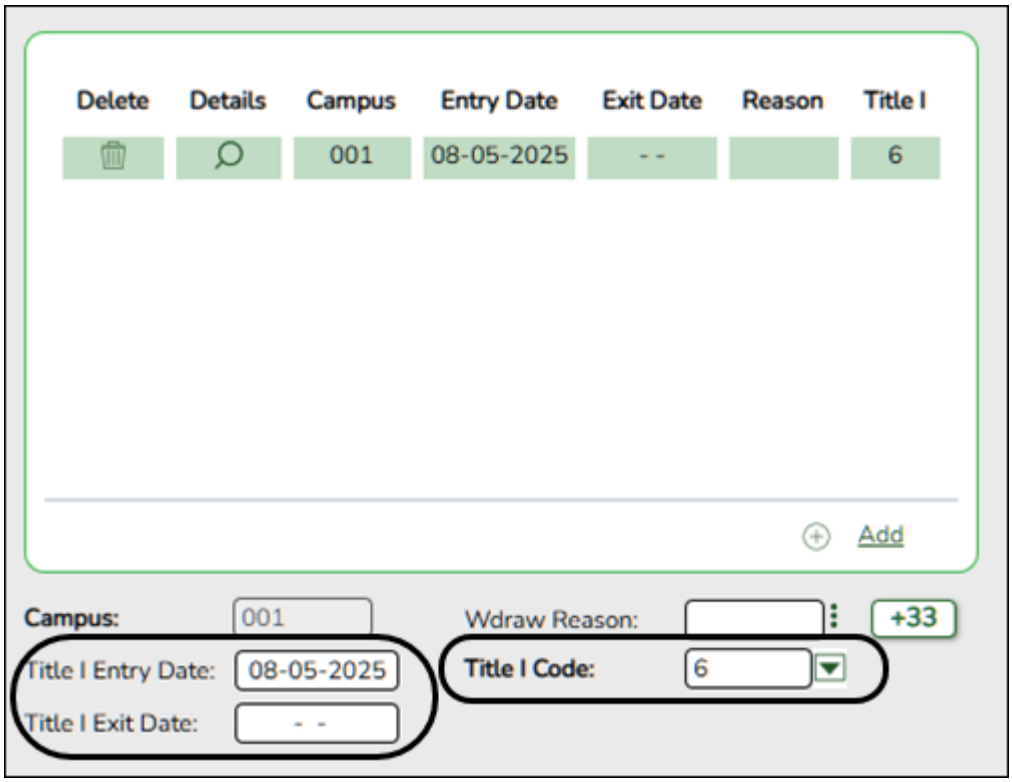

- Bilingual/ESL

Registration > Maintenance > Student Enrollment > Bilingual/ESL

- Title I

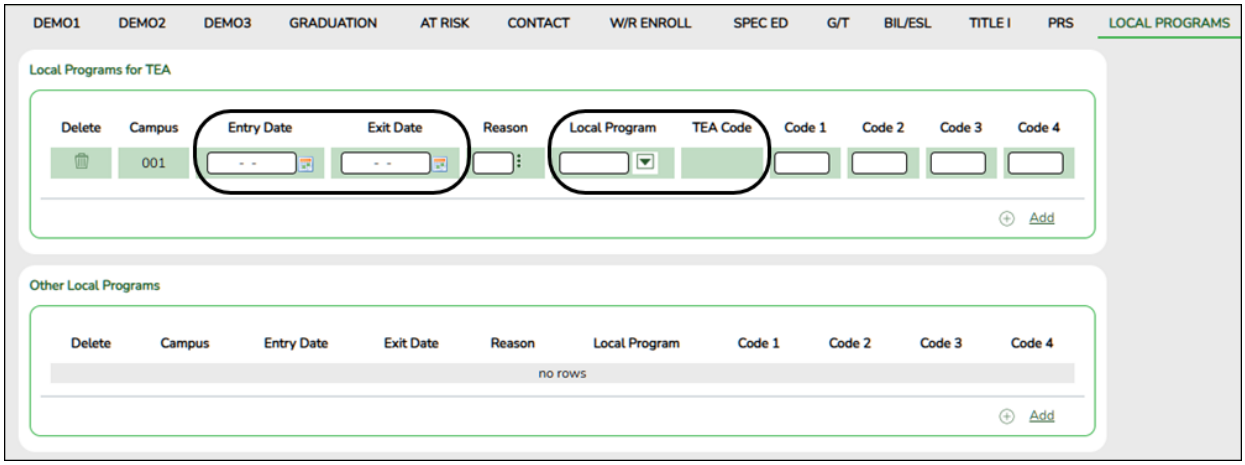

Registration > Maintenance > Student Enrollment > Title I

For mass updates to **Title I**, use the Registration > Utilities > Reset Values utility.

- Local Programs

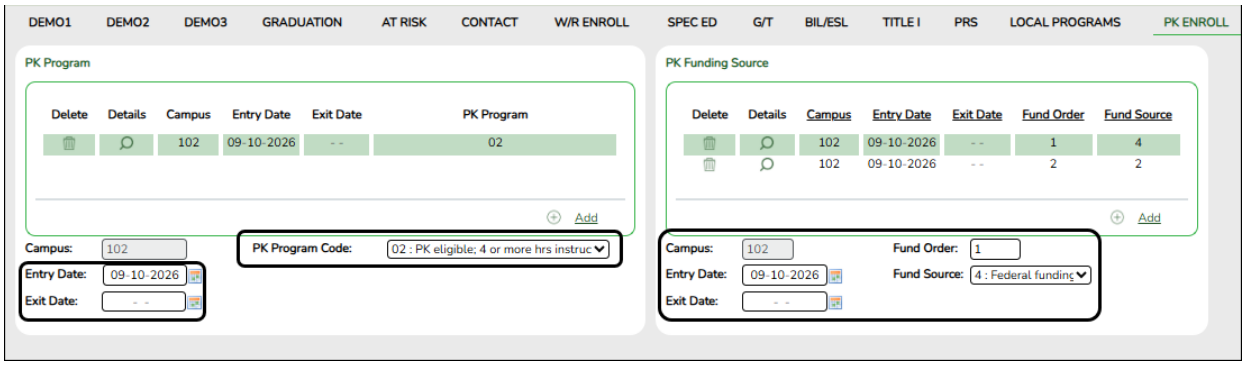

Registration > Maintenance > Student Enrollment > Local Programs

For mass updates to **Local Programs**, use the Registration > Utilities > Reset Values utility. Refer to the **Adding a local program** section.

- PK Enrollment

Registration > Maintenance > Student Enrollment > PK Enroll

Verify and Update Graduates, Leavers and No Shows Data

- Graduates, Leavers and No Shows

Ensure that all data is accurate for Graduates, Leavers and No Shows.

Definitions

- A **graduate** is a student who met graduation requirements by August 31.
- A **leaver** is a student who was enrolled at least one day at a Texas public school in grade level 7-12 during the prior year and did not enroll in a Texas public school the following Fall by the end of the school start window due to a specific reason defined by TEA in the PEIMS Leaver Data – Documentation Requirements for the PEIMS Leaver Data.
- A **No Show** is a student who did not withdraw last year but is not attending this year.

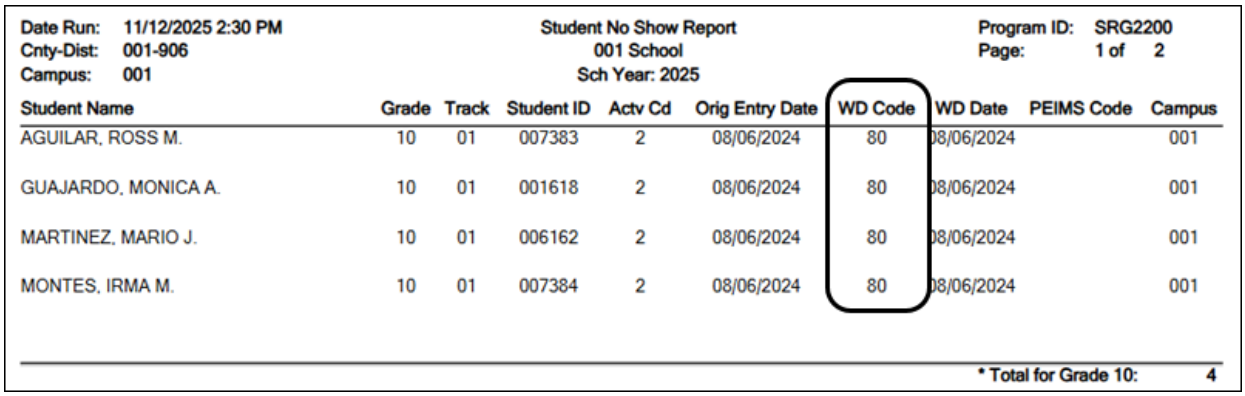

No Show Students
Every student who is withdrawn with Reason code 44 (i.e., No Show) will automatically be set to code 98 (i.e., Dropout) when the fall data is extracted. If this is not correct for the student, you must change the student's status code from 44 to the appropriate code once the correct code is determined.

NOTE:

- The following withdrawal codes are also set to code 98 when the fall data is extracted: 02, 04, 08, 09, 10, 14, 15, 19, 22, 30, 44, 61, 72, 79, and 84.
- The following codes are set to blank and are not extracted: 31, 33, 49, 63, 64, 80, and EP.
- Any user-defined codes that do not get set to blank will be set to code 98.
- If the student met graduation requirements by August 31, change the **Reason** code from 44 (i.e., No Show) to 01 (i.e., Graduated from a campus in this district or charter) and enter the student's graduation date. It is not necessary to create a

leaver record on the Prior Year Leaver Tracking page.

Registration > Reports > Registration Reports > Withdrawal > SRG2200 - Student No Show Report

Date Run: 11/12/2025 2:30 PM
