TSDS PEIMS Fall Submission (WIP)

The ASCENDER District Administration application provides program data for each collection from the ASCENDER Student system. These programs are reviewed and modified annually, per the published Texas Web-Enabled Data Standards (TWEDS), to ensure that the data extracted to the district database is as accurate as possible. The extracts provide many of the edits as defined in the TWEDS.

The PEIMS Fall submission (Submission 1) includes program data for organization and student enrollment and program data records as of (and including) the Fall snapshot date.

The extract programs create the appropriate records in the district database, taking into account the school-start window and the Fall snapshot date. The as-of-status code is automatically generated for each student record.

For a complete list of submission rules and edits, see
<https://tealprod.tea.state.tx.us/TWEDS/103/0/0/0/Introduction/List/878>

IMPORTANT: Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Prerequisites

Prerequisites:

- Verify that all roles and users are correct in ASCENDER Security Administration.
- All staff responsible for extracting data must coordinate activities with each other.

Terminology:

- **Domain:** Displays the Ed-Fi domain name where the error(s) occurred (e.g. Education Organization).
- **Entity:** Displays the entity within the Ed-Fi domain where the error(s) occurred (e.g. LocalEducationAgency).
- **Data Element:** A specific unit of data that must be reported to the TEA.

I. Verify Master Schedule Data

Verify data in the district and campus master schedules. This data must be correct to ensure that Career & Technical Education, Staff Responsibilities, and other data is extracted correctly for Submission 1. It is recommended that you run applicable reports first, and then use the Grade Reporting maintenance pages to update data where needed.

Grade Reporting

Data in the district master schedule can be verified by running the following reports:

Run SGR2500 before staff responsibilities data is extracted. The report provides a count of students in each instructor's class, as well as service ID and total students. You can compare data to the database after the staff data is extracted.

For elementary campuses:

- Each course-section must have at least one student in order for staff responsibilities data to be extracted for that course.
- For districts that use the multi-period scheduling for elementary grade reporting, each subject should have a unique period. This is recommended by the TEA for classroom linking.

SGR0050 allows you to verify that district course information is correct. Verify data in the **Service ID**, **Pop Srv**, **Role ID**, and **Class Type** columns.

You can also use SGR0050 to identify service IDs in the C022 code table that are not appropriate for the CTE course.

You can filter for CTE courses (in numerical order and alpha order, or individually):

SGR0110 allows you to verify that campus course information is correct at the section level. Section-level settings override district information, so ensure that the information is correct. The report also indicates invalid service IDs that must be corrected. Verify **Beg Time** and **End Time** are correct if they are used to report Teacher Responsibilities. If using crosswalks in State Reporting, the **Beg Time** and **End Time** should be blank.

NOTE:

- If bold only on the district master schedule.
- If not bold, is coded on the section tab.
- If blank, no section is built.

Several fields exist on both the district and campus master schedules. These fields only need to be updated in the campus master schedule if they require different values than the district master schedule.

- If the field in the campus master schedule (section record) contains data, that value is extracted.
- If the field is blank in the campus master schedule (section record), the district value is extracted.
- Under **District Information**, district-level settings are displayed for your information.

NOTE: To display the applicable fields in the grid, click the **Section Information** heading below the grid. An arrow is displayed next to the heading to indicate that those fields are displayed above.

- ☐ **Pop Srvd** - Verify the field for all course-sections.
- ☐ **Class Type** - Verify the field for all course-sections.

- ☐ **Class Role** (Classroom Position) - Verify the field for all course-sections. This value is used when extracting staff responsibility data to identify the teacher of record.
- ☐ **Sped Stu Age** - Verify the age range of the students to whom teaching and paraprofessional staff will provide services.

The following fields must be entered in the campus master schedule (section record); they do not exist in the district master schedule:

- ☐ **Days** (of the week), **Time Begin**, and **Time End** - Used to calculate monthly minutes for extracting staff responsibility data.
 - If **Time Begin** and **Time End** are blank, the crosswalk tables are used to calculate monthly minutes, as described previously in this guide. **Using crosswalks is recommended.**
 - If **Time Begin** and **Time End** have values, the extract uses the values whether or not there is a crosswalk for service ID or monthly minutes. **To use the crosswalks, these fields must be blank.**
- ☐ **Class Role** - Verify the field for all course-sections. This value is used when extracting staff responsibility data to identify the teacher of record.

NOTE: For instructional staff, these records may come from staff demo record in Personnel or from the master schedule in Grade Reporting, or both, depending on how your district is set up.

- ☐ If the district has converted staff IDs (SSNs) to employee IDs, the **Staff ID** column will no longer display SSNs. Employee IDs should be displayed instead. Ensure that an employee ID is displayed for all staff hired after the utility was run.
- ☐ Select **Excl From Fall PEIMS** if the instructor should not be extracted when staff responsibility data is extracted.

- Grade Reporting > Maintenance > Tables > TSDS Crosswalks

Crosswalks are retained from year to year. If tables exist from prior years, ensure that

they are up to date.

Staff Responsibilities 042 and 043 Notes:

Crosswalk tables allow you to define periods and service IDs and used to calculate monthly minutes. Using crosswalks is recommended, particularly for campuses that use a modified block schedule.

The service ID and period at the campus must be unique in the table. You can only create one record per period per campus in each crosswalk table, and you can only create one record per service ID per campus in each table.

If you use crosswalk tables to calculate instructional minutes, leave the **Time Begin** and **Time End** fields blank on **Grade Reporting > Maintenance > Master Schedule > Campus Schedule > Section** for each section at the campus. When the fields are blank, the crosswalk tables are used.

You can enter **Time Begin** and **Time End** for some sections and leave others blank.

The staff responsibility extract will always use data from the section record if it exists, even if a crosswalk exists.

If the **Time Begin** and **Time End** fields are blank, the extract program looks at the *Responsibilities - From Campus/Service ID to Minutes* crosswalk. If that crosswalk is blank, the program looks at the *Responsibilities - From Campus/Period to Minutes* crosswalk.

The monthly minutes value is calculated as follows:

(Number of minutes of the class (period)) x (number of days in the week the class meets) x (Number of weeks in the month the class meets)

Examples:

A class taught for one hour every day:

(60 minutes of the class) x (5 days per week) x (4 weeks per month) = 1200

A class taught for one hour three times per week:

(60 minutes of the class) x (3 days per week) x (4 weeks per month) = 720

Note that four weeks per month is the default, because there are generally four weeks prior to the fall snapshot date.

A Day: Periods are 1-4. In weeks 1 and 3, classes meet 3 days per week. In weeks 2 and 4, classes meet 2 days per week.

B Day: Periods are 5-8. In weeks 1 and 3, classes meet 2 days per week. In weeks 2 and 4, classes meet 3 days per week.

Create 044 - PE Responsibilities - Campus/Crs/Sec crosswalk:

This crosswalk allows you to enter the number of days and minutes in which the PE teacher provides physical education instruction each week at the campus for the four weeks in October that include the last Friday in October. This is required for all teachers of record for course-sections associated with the following physical education (PE) service IDs:

02530002
02530003
02530004
02530005
02530006
02530007

82210XXX
82931XXX
83210XXX
84200XXX
PES00051
PES00053
PES00056

All districts will use this crosswalk, except for Business-only districts whose responsibility records come from Human Resources, or if PE service IDs are not used for PE courses, or if your PE service ID courses do not have students.

Important: Minutes for any holidays should be included.

NOTE:

These fields are not reported for employees with PE substitution responsibilities (i.e., employees with service IDs PES00000-PES00015).

Records are created for non-campus-based PE courses (i.e., **Non Campus Based** is greater than 00 in the campus master schedule) if the course is taught during semester 1 and at least one student is enrolled in the class.

This crosswalk is not used for Business-only districts whose responsibility records come from Personnel, or if PE service IDs are not used for PE courses, or if your PE service ID courses do not have students. All other districts should use this crosswalk.

☐ In the **Crosswalk Table** field, select *044-PE Responsibilities - Campus/Crs/Sec*.

☐ The first time you access the page, there will be rows from the previous year displayed. Click **Delete** then click **Create** to add current year courses.

A list of course-sections associated with physical education (PE) service IDs is listed. This list is predefined and cannot be changed.

The **From** column lists course-sections in the campus-course-section format, where:

- The first three digits are the campus ID.
- The next digits are the course number, which may contain between four and eight digits.
- The last two digits are the section number.
- The course-sections are for semester 1.

☐ For the Teacher of Record for each course-section listed, enter the following information for the four weeks in October that include the last Friday in October:

- In the **Day Week 1-4** fields, type the number of days in which the employee provides physical education instruction each week at the campus. Valid entries are one digit between 0-5.
- In the **Mins Week 1-4** fields, type the number of minutes the employee provides physical education instruction each week at the campus. Valid entries are up to four digits between 0-3000.

These fields are automatically populated according to the **Days** code entered on **Grade Reporting > Maintenance > Master Schedule > Campus Schedule > Section** for each course-section meeting time. The program calculates the minutes in the days from the section **Time Begin/End** and sums for each meeting time the days per week for that meeting time, then multiplies the minutes per day for that meeting time to calculate the minutes for each week.

☐ Click **Save**.

☐ Click **Print** to print the data displayed.

☐ If new PE responsibilities records are found the next time you access the page, the **Create** button will be replaced with the **Refresh** button. Click **Refresh** to add new records to the grid.

NOTE: You cannot delete data row by row. You must click **Delete** to delete all rows on the page. Then, click **Create** to populate the page with PE course-sections. Then, you can re-enter all data.

WARNING: If you click **Delete**, all rows are deleted.

II. Verify ASCENDER Student Data

Verify data for each element in the following ASCENDER Student applications. It is suggested that you run reports first, and then use the maintenance pages in the Student applications to update data where needed.

Calculated Elements

Hard-coded and calculated elements

The following elements are either hard-coded in or calculated by the software. Hard coded values are built into the program, are the same each time they are extracted, and cannot be changed by the user. Calculated values are determined by the program and can be changed if source data is updated or changed.

☐ Organization (E0319) identifies the unique organizational unit within the local education agency with which the account is associated. For campuses, this is the three-digit campus number registered with the Texas Education Agency. For non-campuses, this must be one of the administrative units required in the Resource Guide, or 998 or 999. **This is hard coded in the program as “ESC,” “LEA,” or “School” according to the county-district number.**

☐ LocalEducationAgency (E0212) is the county-district ID registered with the TEA.

☐ SchoolId (E0266) is the unique campus ID number registered with the TEA. It is the linking of DISTRICT-ID with the campus identification number. A campus ID cannot be greater than 698. The

first six characters of CAMPUS-ID must match the value of the DISTRICT-ID in the LEA's *LocalEducationAgencyExtension* complex type.

☐ CAMPUS-ID-OF-ENROLLMENT (E0782) is required for students with as-of-status codes C, E, or G. This is the campus at which the student was enrolled. The field cannot be updated from any page in ASCENDER.

- As-of-status code C - Enrolled in the district within the school-start window, and not enrolled in the district on the fall snapshot date.
- As-of-status code E - Enrolled in the district in the prior school year, enrolled in the district in the current year but not within the school-start window and not on the fall snapshot date.
- As-of-status code G - Not enrolled in the district in the prior school year, enrolled in the district in the current year but not within the school-start window and not on the fall snapshot date.

☐ LocalStudentId (E0923) is the student's local ID assigned by the district (optional).

☐ AsOfStatusLastFridayOctober (E3007) is generated by the program during the extracts. The code is based on the student's current year status within the school start window (i.e., first day of school thru the last Friday in September) and the snapshot date (i.e., last Friday in October).

☐ COURSE-IDENTIFICATION-SYSTEM (E1089) is the system used to identify the organization of subject matter and related learning experiences provided for the instruction of students. **This is hard coded in the program as "State Course Code."**

☐ STUDENT-IDENTIFICATION-SYSTEM (E1090) is the coding scheme used for identification and record-keeping purposes by schools, social services, or other agencies to refer to a student. **This is hard coded in the program as "State" and the student's SSN is used.**

☐ StudentUniqueld (E1523) is the unique number assigned to a student by the TEA.

☐ FiscalYear (E0974) is the last digit of the current fiscal year for the fund (e.g., the fiscal year is 0 for the 2019-2020 fiscal year).

☐ Update census block data.

1. [Create a file for the purposes of assigning a Census Block GEO ID.](#)

[Registration > Utilities > TEA Census Block > Export Address](#)

IMPORTANT: This utility must be run in the **Firefox browser**. This utility allows you to create a file for the purposes of assigning a Census Block GEO ID.

NOTE: Users will use the **Census Block Group Tool** to look up a census block number for a single address, or upload a .CSV file with multiple addresses to which the system applies a census block number. For additional information and instructions on how to download the Census Block Group Tool, login to the TSDS Portal (TEA Login (TEAL)) and refer to the **TSDS Census Block Group Tool User Guide** PDF.

☐ Click **Missing/Invalid Data Report**.

A report opens that provides a list of students not eligible for the census block export due to errors.

Students are included on the report if they are ineligible due to any of the following conditions:

- **Blank UID** - The column displays **Yes** for students with a blank Texas Unique Student ID.
- **Homeless** - The column displays **Yes** if the student is homeless.
- **Invalid Address** - The column displays **Yes** if the student has an invalid physical address.
- **ADA Eligibility** - The column displays **Yes** if the student's code is 0, 4, 5, or 8 (by PEIMS As-of date). The student's code must be 1, 2, 3, 6, 7, or 9 (as of the PEIMS date).

☐ Click **Execute**.

A .csv file is generated that can be exported to the TEA to obtain census block data for eligible students who do not have it. The file contains the student's Texas Unique Student ID and physical address (street number and name, city, state, and zip code).

IMPORTANT: The TEA-calculated file must complete in text format and must be

saved **Save as Type** .CSV (comma delimited) to import.

2. [Import file to assign Census Block GEO ID to eligible students.](#)

[Registration > Utilities > TEA Census Block > Import Census Block](#)

IMPORTANT: This utility must be run in the Firefox browser. This utility allows you to import a .csv file of Census Block GEO ID to assign the Census Block data to eligible students. This automatically populates the **Student Census Block** field on [Registration > Maintenance > Student Enrollment > Demo2](#).

- ☐ Save the file as a .csv file with a unique name (e.g., ASCENDERISD_CENSUS_BLOCK.csv).
- ☐ Click **Browse** to locate and select the .csv file provided by the TEA.
- ☐ Click **Import**.

Records are created in the census block table that contain the student's social security number and GEO ID.

- ☐ Click **Print Report** to view the file and any errors. The number of records updated or inserted in the census block table is also included.

NOTE:

This process also applies if you changed the address for one or several students, putting them into a different block:

- ☐ Add the student(s) to TEA spreadsheet and calculate.
- ☐ Created a new TEA .csv with only that one student (or several students).
- ☐ Import the file.

For a student to be enrolled in a local program, the program must be set up at the district level on **Registration > Maintenance > District Profile > Local Program Codes**. If a student transfers to a different campus within the district, you must manually create the PK enrollment record at the new campus. You can only create PK enrollment records for PK students.

Refer to the charts in the TWEDS for additional information about student codes.

Graduates, Leavers, & No Shows:

A **graduate** is a student who met graduation requirements by August 31.

A **leaver** is a student who was enrolled at least one day at a Texas public school in grade level 7-12 during the prior year and did not enroll in a Texas public school the following Fall by the end of the school start window due to a specific reason defined by the leaver reason code table (C162).

A **No Show** is a student who did not withdraw last year but is not attending this year.

Ensure that all data is accurate for graduates, leavers, and No Shows.

- If the student has a prior year leaver tracking record only, update the existing record; do not add a new record. This record is extracted.
- If the student has a current year No Show record only, update the No Show record once the correct code is determined. You do not need to create a record on the Prior Year Leaver Tracking page. The No Show record is extracted unless the student has a re-entry date within the school start window.
- If a student has a prior year leaver tracking record and a current year No Show record, only the leaver record is extracted. Update only the leaver record; do not add a new leaver record. Do not update the current year No Show record.

NOTE:

Leaver data is reported for all students who were in grade level 7-12 in the prior year and were withdrawn or No Show in the current year, except for those who earned a GED, enrolled in another district in the school-start window, or were otherwise accounted for.

Graduation data is reported for all students who graduated during the prior school year, including summer graduates up through August 31.

III. Prior Leaver Tracking

- TBD

[Grade Reporting > Maintenance > Tables > TSDS Crosswalks](#)

Build and update any necessary crosswalk tables. For Submission 1, the following tables can be used:

Staff:

- 042 - Responsibilities - From Campus/Period to Minutes
- 043 - Responsibilities - From Campus/Service ID to Minutes
- 044 - PE Responsibilities - Campus/Crs/Sec (not available for Business-only users)

Crosswalks are retained from year to year. If tables exist from prior years, ensure that they are up to date.

Staff Responsibilities 042 and 043 Notes:

Crosswalk tables allow you to define periods and service IDs and used to calculate monthly minutes. Using crosswalks is recommended, particularly for campuses that use a modified block schedule.

The service ID and period at the campus must be unique in the table. You can only create one record per period per campus in each crosswalk table, and you can only create one record per service ID per campus in each table.

If you use crosswalk tables to calculate instructional minutes, leave the **Time Begin** and **Time End** fields blank on **Grade Reporting > Maintenance > Master Schedule > Campus Schedule > Section** for each section at the campus. When the fields are blank, the crosswalk tables are used.

You can enter **Time Begin** and **Time End** for some sections and leave others blank.

The staff responsibility extract will always use data from the section record if it exists, even if a crosswalk exists.

If the **Time Begin** and **Time End** fields are blank, the extract program looks at the *Responsibilities - From Campus/Service ID to Minutes* crosswalk. If that crosswalk is blank, the program looks at the *Responsibilities - From Campus/Period to Minutes* crosswalk.

The monthly minutes value is calculated as follows:

(Number of minutes of the class (period)) x (number of days in the week the class meets)

x (Number of weeks in the month the class meets)

Examples:

A class taught for one hour every day:

(60 minutes of the class) x (5 days per week) x (4 weeks per month) = 1200

A class taught for one hour three times per week:

(60 minutes of the class) x (3 days per week) x (4 weeks per month) = 720

Note that four weeks per month is the default, because there are generally four weeks prior to the fall snapshot date.

A Day: Periods are 1-4. In weeks 1 and 3, classes meet 3 days per week. In weeks 2 and 4, classes meet 2 days per week.

B Day: Periods are 5-8. In weeks 1 and 3, classes meet 2 days per week. In weeks 2 and 4, classes meet 3 days per week.

Classes are 85 minutes each day.

Monthly minutes calculation:

$(85 \times 3 \text{ days} \times 2 \text{ weeks}) + (85 \times 2 \text{ days} \times 2 \text{ weeks})$

$85 \times 5 \times 2 = 850 \text{ minutes}$

Create 044 - PE Responsibilities - Campus/Crs/Sec crosswalk:

This crosswalk allows you to enter the number of days and minutes in which the PE teacher provides physical education instruction each week at the campus for the four weeks in October that include the last Friday in October. This is required for all teachers of record for course-sections associated with the following physical education (PE) service IDs:

02530002
02530003
02530004
02530005
02530006
02530007

82210XXX
82931XXX
83210XXX
84200XXX
PES00051
PES00053
PES00056

All districts will use this crosswalk, except for Business-only districts whose responsibility records come from Human Resources, or if PE service IDs are not used for PE courses, or if your PE service ID courses do not have students.

Important: Minutes for any holidays should be included.

NOTE:

These fields are not reported for employees with PE substitution responsibilities (i.e., employees with service IDs PES00000-PES00015).

Records *are* created for non-campus-based PE courses (i.e., **Non Campus Based** is greater than 00 in the campus master schedule) if the course is taught during semester 1 and at least one student is enrolled in the class.

This crosswalk is not used for Business-only districts whose responsibility records come from Personnel, or if PE service IDs are not used for PE courses, or if your PE service ID courses do not have students. All other districts should use this crosswalk.

☐ In the **Crosswalk Table** field, select *044-PE Responsibilities - Campus/Crs/Sec*.

☐ The first time you access the page, there will be rows from the previous year displayed. Click **Delete** then click **Create** to add current year courses.

A list of course-sections associated with physical education (PE) service IDs is listed. This list is predefined and cannot be changed.

The **From** column lists course-sections in the campus-course-section format, where:

- The first three digits are the campus ID.
- The next digits are the course number, which may contain between four and eight digits.
- The last two digits are the section number.
- The course-sections are for semester 1.

☐ For the Teacher of Record for each course-section listed, enter the following information for the four weeks in October that include the last Friday in October:

- In the **Day Week 1-4** fields, type the number of days in which the employee provides physical education instruction each week at the campus. Valid entries are one digit between 0-5.

- In the **Mins Week 1-4** fields, type the number of minutes the employee provides physical education instruction each week at the campus. Valid entries are up to four digits between 0-3000.

These fields are automatically populated according to the **Days** code entered on **Grade Reporting > Maintenance > Master Schedule > Campus Schedule > Section** for each course-section meeting time. The program calculates the minutes in the days from the section **Time Begin/End** and sums for each meeting time the days per week for that meeting time, then multiplies the minutes per day for that meeting time to calculate the minutes for each week.

☐ Click **Save**.

☐ Click **Print** to print the data displayed.

☐ If new PE responsibilities records are found the next time you access the page, the **Create** button will be replaced with the **Refresh** button. Click **Refresh** to add new records to the grid.

NOTE: You cannot delete data row by row. You must click **Delete** to delete all rows on the page. Then, click **Create** to populate the page with PE course-sections. Then, you can re-enter all data.

WARNING: If you click **Delete**, all rows are deleted.
