End-of-Year and Annual Student Data Rollover (ASDR)

Annual Student Data Rollover (ASDR) is a process that closes out the current school year and prepares student records for the next school year. This process occurs once a year prior to the start of school and is performed for the entire district.

- Student grade levels are increased by one. Note that there is an exception for record status 5 students (*not currently enrolled in this district, will attend next year*): the program considers the grade level to be the next year grade level, rather than the promotion/retention year-end-status codes. ASDR will *not* promote record status 5 students to the next grade level.
- Students who are moving to a higher-level school (e.g., from elementary to middle school) are enrolled at the new campus.
- ASDR moves the student schedules from Scheduling to Grade Reporting for the upcoming school year. Course requests that are not in **Assigned** status will be dropped from Scheduling.

Before and after running the program, there are a number of steps required as part of the ASDR process, which are described in this guide. The process of running ASDR occurs in the District Administration application; however, there are steps that must be completed in all ASCENDER Student applications.

Click here for [The Exchange ASDR Instructions](#).

IMPORTANT: Some of the images and/or examples provided in this document are for informational purposes only and may not completely represent your LEA's process.

Prerequisites

Prerequisites:

- You must have completed the Scheduling process for secondary campuses. For more information, see [ASCENDER Scheduling Guide: Manual, Automated, or Combination](#). Note that elementary scheduling can occur *after* ASDR.
- Be sure to coordinate with business and other student users to ensure that everyone is made aware of the planned date for the ASDR so vital processes can be scheduled accordingly.

ASCENDER system will be unavailable during the ASDR process.

Before Running ASDR

1. [Complete the end-of-year checklist.](#)

End-of-Year Checklist

Each campus must complete the following end-of-year tasks before beginning the ASDR process.

Attendance

Verify that student attendance and the attendance calendar reflect the final end-of-year membership days, waivers, attendance, etc.

[Attendance > Reports > Attendance Reports > Students > SAT1800 - Attendance Audit Report](#)

NOTE: If you made changes to *any* attendance date with posted attendance to a non-membership date in the attendance calendar, you *must* run this report. This removes posted attendance from student records. Be sure to generate new audit reports to reflect this change.

Verify that all required attendance audit reports have been generated from ASCENDER and stored for your records, as well as other reports required for the district. **Review the TEA Student Attendance Accounting Handbook (SAAH), Section 2.3 for specific rules.**

IMPORTANT: The following attendance reports *must* be generated throughout the year and retained for auditing purposes. They can be saved as a PDF.

These reports are *not* available in Historical.

[Attendance Reports > Audit > SAT0600 - Student Detail Report](#)

Verify that individual student membership information is correct, and that the totals on the summary page match the totals on the SAT0900 Principal/Superintendent semester report.

[Attendance Reports > Audit > SAT0900 - Campus/District Summary Report](#)

Verify eligible attendance days present/absent and special programs contact hours, by campus and by district. Verify that the report is balanced against the SAT0600 - Student Detail Report report.

[Attendance Reports > Audit > SAT0900C - Campus/District Summary Report \(COVID\)](#)

Verify eligible attendance days present/absent and special programs contact hours, by campus and by district. For the 2020-2021 school year, school districts should also run SAT900C if they participated in remote instruction.

[Attendance Reports > Audit > SAT0920 - Campus/District Multi-Track Summary Report](#)

This report is the same as SAT0900, except it provides information for multiple tracks.

[Attendance Reports > Audit > SAT0670 - Teacher Membership Roster by Control Num](#)

or [Attendance Reports > Audit > SAT0671 - Teacher Membership Roster by Period](#)

Verify that first and fourth six weeks campus membership is balanced against district enrollment totals on SAT1000.

[Attendance Reports > Students > SAT0400 - Daily Attendance Summary](#)

Verify that daily attendance summaries have been balanced daily.

[Attendance > Reports > Attendance Reports > Rosters > SAT1370 - Class Attendance Verification](#)

Print current year class attendance by instructor name or control number. Use for attendance verification for all attendance or grade reporting cycles.

Additional attendance reports are available in Historical and can be run as needed.

Grade Reporting

Verify that the end-of-year report cards have been run. See [Grade Reporting - End-of-Semester and End-of-Year Processes](#) (ASCENDER Grade Reporting - End-of-Semester and End-of-Year Processes) or [Year-at-a-Glance guide \(End of Final Semester section\)](#) for assistance.

Middle schools and high schools should verify that the Grade Averaging and Class Ranking utility has been run for the current year so the GPA information is saved in the database. See [Run Grade Averaging and Class Ranking and Print AARs](#) for more information.

[Grade Reporting > Utilities > Grade Averaging and Class Ranking](#)

NOTE: If the high school GPA includes high school credit classes taken at the middle school, check the district policy to see if you should run the Grade Averaging and Class Ranking utility at the middle school for grade levels with credit level H courses.

Middle schools and high schools should verify that the Cumulative Grade Averaging and Class Ranking utility has been run.

[Grade Reporting > Utilities > Cumulative Grade Averaging and Class Ranking](#)

Verify that Academic Achievement Records (AAR) and grade labels have been printed for all students at all campuses:

[Grade Reporting Reports > Grades > SGR2047 - AAR Multi-Year](#)

[Grade Reporting Reports > Grades > SGR2081 - Student Grade Labels](#)

[Grade Reporting Reports > Grades > SGR2091 - Elementary Grade Labels](#)

Generate and save the TeacherPortal Assignment Audit Report (SGR4500). The report

displays the categories, assignments, and assignment grades that have been entered in TeacherPortal and includes the cycle and semester averages that were posted to ASCENDER.

[Grade Reporting Reports > Grades > SGR4500 - TeacherPortal Assignment Audit Report](#)

Since this is the end-of-year audit report for TeacherPortal, it is recommended that the **Sort Order** parameter be set to print the report by instructor.

NOTE: This report may take several minutes to run.

TeacherPortal (Skills-based Report Cards)

Generate the Print Elementary Report Cards for Campus report for each report card for each campus that uses skills-based report cards.

TeacherPortal Admin > Elementary Report Cards > Print Elementary Report Cards for Campus

Graduation Plan

For seniors, set any completed **Endorsements** to *2-Completed* and enter the completion date. Also set **Foundation** and **Distinguished** to *2-Completed* if applicable.

[Graduation Plan > Maintenance > Student > Individual Maintenance > PGP](#) (if using Grad Plan)

[Registration > Maintenance > Student > Demo3](#) (if not using Grad Plan)

Registration > Utilities > Reset Values (FHSP endorsements can be reset from Pursuing to Completed.)

Registration

Verify that the year-end-status codes have been assigned for all students at each campus. The year-end-status codes are used during ASDR to determine if students will be retained or promoted.

See the [Assign Year-End-Status Codes QuickGuide](#) for assistance.

The year-end-status codes are cleared during ASDR and will be blank in the new school year.

Leavers:

The leaver tracking table is automatically populated during ASDR. All leavers for the current school year are written to the leaver tracking table.

IMPORTANT! It is very important that you set the year-end-status codes (i.e., the **Year End Status** field on [Registration > Maintenance > Student Enrollment > Demo3](#)) for leavers properly so they are accounted for in TSDS:

This is the value assigned When the Set Year End status code utility is run.

- 12th grade students who graduated must have year-end-status code *12 (Graduated)*.

Other values listed below are set manually on **Demo3** if applicable.

- 12th grade students who are repeating 12th grade should have year-end-status code *10 (Not Advanced)*. The **Graduation Date** must be blank for these students.
- 12th grade students with year-end-status code *1 (Promoted Next Grade)*, *3 (Placed in the Next Grade)*, or *11 (Advanced Next Grade)* are dropped in the next school year.
- 12th grade students with year-end-status code *14 (Met Reqmnt/Not Pass STAAR/ TAKS)* or *15 (Grade 12. Not Enough Credits to Graduate)* who have a next year course request are rolled over to the next school year.
- For all other leavers, a leaver tracking record is created in the leaver tracking table according to the student's withdrawal reason code.

NOTE: After ASDR, you can run [Leaver Tracking Report \(SRG1700\)](#) to produce a report of the leavers written to the leaver tracking table. For the **Ending Sch Yr for PEIMS Submission** parameter, enter the beginning year of the next school year.

- Verify that the **Graduation Type** and **Graduation Date** fields have been updated for all current year 12th grade students.

See the [Set Graduation Type and Date QuickGuide](#) for assistance.

- Transfer the high grade level at each campus as a group to the next year campus for all campuses in the district. If this process was completed earlier in the year, run the scheduling transfer again to add all the new students who may have entered school since the last time the scheduling transfer was performed.

See the [Transfer Students to Next Year Campus QuickGuide](#) for assistance.

NOTE: Students who are group-transferred for scheduling purposes will have record status 3 (i.e., *currently enrolled at this campus, will attend new campus next year*) at the sending campus and record status 4 (i.e., *enrolled at another campus, will attend this campus next year*) at the next year campus.

Usually, the record status 3 is *not* created in the next school year during ASDR. However, if a student with record status 3 has a year-end-status code of Retained at the sending campus, the Reverse Scheduling Transfer utility should be run to delete the student's record at the next year campus. A next year schedule should be entered at the sending campus, which will create the retained student's record at the sending campus for the next school year.

See the [Transfer Students to Next Year Campus QuickGuide \(Reverse Transfer section\)](#) for assistance.

- Verify that bilingual/ESL summer school students are coded correctly.

- [Registration > Maintenance > Student Enrollment > Local Programs](#) (**Summer Sch. Bil/EsI** field)

NOTE:

- Students in the bilingual/ESL summer school program should be entered in the **Local Programs for TEA** section with a **Local Program Code** = Summer School Bilingual. Only code students that are eligible for KG or 1st grade in the current School Year.
- The student can be enrolled in the Local Program before running ASDR for the

current year. After running ASDR, the student can also be entered for the Local Program in the prior year if you have been granted historical update access in Security Administration and you have full access to the Local Programs tab.

Scheduling

Verify that all campuses in the district have created a next year master schedule, including the elementary campuses. Otherwise, the current year campus master schedule will not be created, and all campus courses will need to be selected again after ASDR is run.

The next year master schedule (courses, sections, instructors) must be reviewed for each campus to determine what will be carried over during ASDR.

For more information see [ASCENDER Scheduling Guide - Manual, Automated, or Combination, Plus Elementary](#)

- [Scheduling > Maintenance > Master Schedule > Campus > Courses](#)
- [Scheduling > Maintenance > Master Schedule > Campus > Sections](#)
- [Scheduling > Maintenance > Master Schedule > Campus > Instructors](#)

Verify that each student has a next year schedule (i.e., assigned courses, sections, and semesters). This applies to all students in secondary grade levels or students at any campus that uses next year scheduling.

NOTE: When setting [District Administration > Utilities > Annual Student Data Rollover](#), you will have the option to drop students who do not have schedules.

- [Scheduling > Maintenance > Student Schedules](#)
- [Scheduling Reports > Post-Load > SCH2100 - Student Schedule \(Next Yr\)](#)
- [Scheduling Reports > Post-Load > SCH2500 - Schedule of Classes \(Next Yr\)](#)

Identify students who do not have schedules.

- [Scheduling Reports > Potential Drop List \(Next Yr\) \(SCH0200\)](#)

TIP: Be sure to generate the Student Reject List Report prior to accepting the scheduling load. This report lists student course requests that did not get scheduled, which will assist you after accepting the scheduling load in scheduling outstanding unscheduled course requests.

[Scheduling > Maintenance > Live Scheduling Load > Student Reject List](#)

Special Education

If using the **Special Ed Next Year** field, indicate how ASDR will handle special education data for the next school year.

[Special Education > Maintenance > Student Sp Ed Data > Next Year > Program Information](#)

District Administration

Complete the Summer PEIMS submission and resubmission (Collection 3). See [PEIMS Summer Submission guide](#) for assistance.

Complete the extended PEIMS submission and resubmission (Collection 4). See [PEIMS Extended Year Submission](#) for assistance.

NOTE: You will have an option in ASCENDER State Reporting to extract the ESY and bilingual/ESL summer school student information before or after running ASDR.

NOTE: The data for ECDS PK, SELA, and RF Tracker *cannot* be edited after ASDR is completed. The data for SPEDS *can* be edited after ASDR.

2. [Enter next year information.](#)

Enter Next Year Information

Certain next-year data must be entered and verified before running ASDR.

1. Enter next year attendance campus options.

Before running ASDR, the next year attendance options must be set for each track at each campus in the district. The information is used when creating student records for the next school year.

Be sure you are updating the next year page; look for “Next Year” in the breadcrumbs.

[Attendance > Maintenance > Campus > Next Year Campus Options](#)

HELPFUL TIPS:

- Print out current year options on [Attendance > Maintenance > Campus > Campus Options](#) to assist you in entering next year options.

- Review [Attendance > Maintenance > Campus > Copy Calendar](#) to review which tracks need to be created on the next year Campus Options page.

IMPORTANT:

The **Grading Cycle Type** field must be the same for all tracks at the same campus.

Only special programs selected under **Special Programs** will be created in the next school year.

The **Type Kindergarten** field is used during ASDR to set ADA eligibility code.

[Rules for eligibility code](#)

Add a new track:

Click **Add**.

The **Track** field is replaced by the **New Track** field.

Type the new track number.

Or, click **Cancel** to return.

Valid track numbers are 00-99, and the number cannot already exist.

Enter campus options and an optional description for the track as described below, and click **Save**.

Update data:

Track	Select the attendance track. Only tracks established for the campus in the Attendance application are listed. If a description has been entered for the track on Maintenance > Campus > Next Year Campus Options, the description is also displayed in the drop-down list.
--------------	---

Click **Retrieve**.

Existing data for the track is displayed. Update data as needed.

Description	(Optional) Type a description of the track, up to 50 characters. This description will appear in the Track field drop-down list on most Attendance > Maintenance > Campus pages (current and next year).
Instructional Program Type	(Required) Select the type of attendance program associated with this calendar.
Grading Cycle Type	Select the breakdown of semesters and cycles for the campus.
AM/PM Flag	Indicates when the Average Daily Attendance (ADA) posting period occurs.
ADA Posting Period	Type the two-digit class period when the official ADA attendance is taken. A student posted absent for this period is considered absent for ADA purposes. If you use alternating schedules (e.g., A-Day and B-Day), you must use the same ADA posting period for both schedules, and for all tracks. This field should be set to the common (“extra”) ADA period as described below for Alternate Days .
1st Period Nbr	Type the two-digit first period of the school day for which attendance is recorded. The period is not necessarily the same as the ADA posting period.
Last Period Nbr	Type the two-digit last period of the school day for which attendance is recorded.
Nbr of Periods	The total number of periods is calculated and displayed when the record is saved. The 1st Period Nbr is subtracted from the Last Period Nbr , and the difference plus one is the total number of periods for which attendance records are maintained.

Special Programs	<p>Select the special programs that will be offered at the campus next year.</p> <p>About Title I: Select Schoolwide Title I if the campus is a schoolwide Title I campus.</p> <p>Select Title I if the campus is a Title I targeted-assistance campus.</p> <ul style="list-style-type: none"> • If Schoolwide Title I is selected, a Title I record with code 6 is created for new, reentered, and transfer students. • If Schoolwide Title I and Title I are selected, the campus is a schoolwide Title I campus. • If Schoolwide Title I and Title I are <i>not</i> selected, the campus is a non-Title I campus. • If Schoolwide Title I is not selected, but Title I is selected, the campus is a Title I targeted-assistance campus. <p>NOTE: For a target-assisted campus, records are transferred for students with Title I Code 7, 8, 9, or A.</p> <p>For a campus that is neither schoolwide nor target-assisted, records are transferred for students with Title I Code 9 or A.</p>
Type Kindergarten	<p>Select the type of KG program offered at the campus. Leave blank if the campus does not offer a KG program.</p> <p>This field is used during ASDR to set ADA eligibility code.</p>

Under **Calendar Operational/Instructional Minutes:**

The heading and fields displayed vary according to the **Instructional Program Type** associated with the selected **Track**:

- If the selected track is associated with **Instructional Program Type** 01-03, or 13-15, the heading is **Calendar Operational Minutes**.
- If the selected track is associated with **Instructional Program Type** 04-12, 16-18 or blank, the heading is **Calendar Instructional Minutes**.

- The heading is **Calendar Minutes**.

Refer to the [TEA Student Attendance Accounting Handbook \(SAAH\)](#) for assistance.

Calendar Operational Minutes:

Daily Minutes	<p>Type the number of operational minutes per day for the campus. This is the minutes that a campus operated on a particular school day for the purpose of student instruction.</p> <p>This value is determined by the LEA. You must enter this value even if it is the same as the TEA requirement.</p>
Shortened Daily Minutes	<p>Type the number of minutes of instruction per day for the campus on a shortened school day.</p> <p>This value is determined by the LEA. You must enter this value even if it is the same as the TEA requirement.</p>

Calendar Instructional Minutes:

Daily Minutes	<p>Type the number of minutes of instruction per day, as required by the TEA.</p> <p>Refer to the TEA Student Attendance Accounting Handbook (SAAH) for TEA requirements and any applicable exceptions.</p>
Shortened Daily Minutes	<p>Type the minimum number of minutes per day for a shortened school day (e.g., early release/late arrival dates), as required by the TEA.</p> <p>Refer to the TEA Student Attendance Accounting Handbook (SAAH) for TEA requirements and any applicable exceptions.</p>

When these values are saved, the values are used to populate the campus calendar.

Under **Alternate Days:**

This section is used if the campus has more than one period that is used for ADA period, such as for A-Day/B-Day schedules.

For example, the A-Day schedule may take ADA attendance during period 02, and the B-Day schedule may take ADA attendance during period 05.

For both days, an additional period must be created that is the same for both A-Day and B-Day. This must be a period when no students are scheduled. For example, if the campus has classes during periods 01-08, then period 09 could be used as the extra

ADA period. This “extra” period must be the same for both A-Day and B-Day. Be sure this extra period is included in the **1st Period Nbr** and **Last Period Nbr** fields.

When attendance is posted to either ADA posting period (e.g., 02 or 05), it is *also* posted to the extra period (e.g., 09).

NOTE: All tracks at the same campus must have the same “extra” ADA posting period. For example, if the campus creates period 09 as the extra period, then period 09 must be used for all tracks.

Code	(Optional) Type a description of the track, up to 50 characters. This description will appear in the Track field drop-down list on most Attendance > Maintenance > Campus pages (current and next year).				
Pattern	<p>Click +Add or press ALT+1 to indicate the ADA period for the selected code. A blank row is added to the Pattern grid.</p> <p>You must enter two pattern rows for each Code:</p> <ul style="list-style-type: none"> • Add a row with the ADA period when attendance is taken (e.g., 02 or 05). • Add a row with the “extra” ADA posting period (e.g., 09). <p>IMPORTANT: The “extra” ADA posting period must be the same for all codes, and it must be the same for all tracks at the campus. This period must also be entered in the ADA Posting Period field.</p> <table border="1" style="width: 100%;"> <tr> <td>Pattern</td> <td>Type the two-digit ADA period.</td> </tr> <tr> <td></td> <td>Delete the pattern for that code if needed.</td> </tr> </table>	Pattern	Type the two-digit ADA period.		Delete the pattern for that code if needed.
Pattern	Type the two-digit ADA period.				
	Delete the pattern for that code if needed.				

NOTE: When using ALT+1 to add a row, you must press the 1 key on the keyboard, not the 1 key on the numeric keypad.

IMPORTANT! Be sure all tracks have the same ADA posting period for TeacherPortal:

On [Attendance > Maintenance > TeacherPortal Options > Campus Options](#), set the **A/B Day: Period ADA Attendance Taken** fields to the periods when attendance is posted (e.g., 02 and 05).

Click **Save**.

2. Enter next year attendance calendar.

The next year campus calendar must be set for each track at each campus in the district. If a track is used by more than one campus, you can use the Next Year Copy Calendar page to copy the calendar to other tracks.

Be sure you are updating the next year page; look for “Next Year” in the breadcrumbs.

IMPORTANT: Do not delete or change any current year attendance calendars. The current year calendars will become the historical attendance calendars. After running ASDR, you will have access to the historical information, so the current year calendars should be maintained as they were during the school year.

Membership Days In the grid below the legend, data is calculated when the calendar data is saved:

Rptng Period	Mem Days	Shrtnd Mem Waiver Days	Non Mem Waiver Days	Daily Mins (DM)	Waiver Mins (WM)
Cycle 1	23	0	0	23	0
Cycle 2	43	0	0	43	0
Cycle 3	43	0	0	43	0
Cycle 4	22	0	0	22	0
Cycle 5	20	0	0	20	0
Cycle 6	67	0	0	67	0
Total:	218	0	0	218	0

Yearly Total Mins(DM+WM):	218
----------------------------------	------------

Warning! Yearly Total Mins (DM+WM) must meet TEA guideline about minutes of operation.

Rptng Period	Reporting periods for the campus are listed.
Mem Days	The number of membership days for each cycle is calculated and displayed.
Shrtnd Mem Waiver Days	The number of shortened membership waiver days for each cycle is calculated and displayed.
Non Mem Waiver Days	The number of non-membership waiver days for each cycle is calculated and displayed.
Daily Mins (DM)	The total number of instructional minutes for the cycle is calculated and displayed.
Waiver Mins (WM)	The total number of waiver minutes for the cycle is calculated and displayed.
Yearly Total Mins (DM+WM):	<p>The total is calculated by adding the total number of daily minutes plus the total number of waiver minutes for the year.</p> <p>NOTE: This value cannot be less than the state-mandated requirement of 75,600, except in rare circumstances. Under no circumstances can the total minutes be less than 71,400.</p>

As you adjust membership minutes, the **Daily Mins (DM)**, **Waiver Mins (WM)**, and **Yearly Total Mins (DM+WM)** fields (below the legend) change accordingly.

When you apply a Day Type requiring minute adjustments to a valid membership date, a pop-up window provides options for adjusting minutes. The pop-up windows vary according to the adjustment you clicked:

Adjust Minutes

The Adjust Minutes type can be used when the daily minutes need to be extended or shortened.

An Adjusted Minutes day is a membership day.

NOTE: Use **Adjust Minutes** for early release because shortened waiver days are no longer applicable as waiver days.

- Select one or more dates on the calendar, and click **Adjust Minutes**.

Type of Min	The field is set to Daily Minutes and cannot be modified.
Min	The Daily Minutes value is displayed by default. Type over existing data with the adjusted number of minutes of instruction on that date.
Event	The field is set to <i>01:Instructional Day</i> and cannot be modified.

- Click **OK**.
- Click **Save**.

The **Daily Mins (DM)** (cycle total) and **Yearly Total Mins** are automatically adjusted according to the difference between the **Daily Minutes** and the **Min** value entered. Following the previous example, both totals are reduced by 30 minutes (450- 420=30) for each adjusted date.

Note that the dates on the calendar are now shaded pink because they are adjusted minutes days. The numbers are black because they are membership days.

Make-up and Weather Day are disabled in the next year calendar.

Waiver Days

Waivers are used to get credit for minutes lost to legitimate school closures, including Staff Development Days. The **Daily Mins (DM)** for the cycle are decreased by the number of lost minutes, but the **Waiver Mins (WM)** for the cycle are increased for that

number of minutes; therefore the **Yearly Total Mins** remains unchanged because it is a zero sum.

Review the TEA Student Attendance Accounting Handbook (SAAH), Section 3.8 for rules and guidance.

NOTE: For the 2018-2019 school year, use adjust minutes for early release because shortened waiver days are no longer applicable as waiver days.

Staff Development Waiver Day

The Staff Development Waivers are used when staff has training. This could include days when students are in attendance.

NOTE: Effective as of the 2018-2019 school year:

Staff Development Waiver Days are not allowed before the first day of school or after the last day of school (Rules 10200-0037 and 10200-0038).

Staff Development Waiver Days are allowed on the first or last day of school, as long as there are some instructional minutes on that date.

A staff development waiver day *may be* a membership day if there are instructional minutes.

Select one or more dates on the calendar, and click **Waiver**.

Event	Select <i>01: Staff Development Waiver Day</i> . For the next year calendar, this is the only option available.		
Type of Min	Waiver Minutes	Type the number of waiver minutes needed.	
	Daily Minutes	Type the number of minutes of instruction that will occur on this date.	
	Attendance was taken	Indicate whether the day is operational/instructional or not:	

Click **OK**.

Click **Save**.

- The **Daily Mins (DM)** (cycle total) is decreased by the number of waiver minutes (i.e., **Minimum Daily Minutes**).
- The **Waiver Mins (WM)** (cycle total) is increased by the number of waiver minutes.
- The **Yearly Total Mins** remains the same.

Note that the date on the calendar is now shaded yellow because it is a waiver day. The number is green because it is now an in-service date.

Also, a membership day is removed from the count in the **Mem Days** column for the cycle in which the selected date occurs (if applicable).

Click **Save**.

Be sure to enter the cycle end dates for the track on [Grade Reporting > Maintenance > Tables > Campus Control Options > Parameters NYR](#).

NOTE: To cancel, double-click the input field, and the button is again displayed.

- IMPORTANT:** After typing the track, press ENTER.

The track is added to the grid and is selected by default.

The new track is not saved until you click **Copy** with that track selected. Once saved, the new track will appear in **Track** drop-down fields across ASCENDER for the next school year.

- Click **Copy**.

The **From Campus Track** calendar and options are copied to the selected tracks according to your selections. Any new tracks are created.

3. Enter grade reporting cycle end dates.

The next year cycle end dates must be entered for each track. All tracks for next year must have grade reporting cycle end dates.

Be sure you are updating the next year page; look for “NYR” in the tab title.

[Grade Reporting](#) > [Maintenance](#) > [Tables](#) > [Campus Control Options](#) > [Parameters NYR](#)

IMPORTANT! Do not change current year cycle end dates or other information. The current year information will become the historical data. After running ASDR, you will have access to the historical information, so the current year data should be maintained as it was during the school year.

The screenshot shows a web interface for configuring parameters. At the top left is a 'Save' button. Below it are several tabs: 'PARAMETERS', 'RANGES & CONVERSIONS', 'COMPUTATION', 'H ROLL & GR AVG', 'PRINT OPTIONS', 'POSTING', and 'PARAMETERS NYR' (which is highlighted in green). Print Local Programs by Campus

Click to print the Campus Local Program Rollover Status report.

The report lists the code, description, and ASDR next year status by campus, allowing you to see if a local program will be written to the next year record when ASDR is run.

The status is determined by the campus or district options:

- If the district **Annual Student Data Rollover** field is Y, the campus **Move Program to Next Year** code and description print in the **ASDR Next Year** column.
- If the district **Move Program to Next Year** field is N, the **ASDR Next Year** column displays “Drop Program NYR (By District)” because the district option N overrides the campus **Move Program to Next Year** field.

[Registration](#) > [Maintenance](#) > [Campus Profile](#) > [Campus Local Program Codes](#)

You cannot add program codes that are not set up at the district level. Visit the **TSDS Web-Enabled Data Standards** page to find a list of program codes.

Existing codes are displayed in order by code.

Click **+Add**.

A blank row is displayed added to grid.

Program Title	The program title for the selected code is displayed.
Move Program to Next Year	Select the code indicating how Annual Student Data Rollover (ASDR) handles local programs. This field only applies if the district-level Move Program to Next Year field is set to Y on Maintenance > District Profile > Local Program Codes. Otherwise, this field is ignored. You can drop the program for next year, keep the program but drop all students from the program, or keep the program and re-enroll all students.

Disable TeacherPortal

[Grade Reporting](#) > [Maintenance](#) > [TeacherPortal Options](#) > [District](#) > [Options](#)

Set **TeacherPortal Use Flag** to *TeacherPortal is disabled*.

The screenshot shows a web interface for configuring TeacherPortal options. At the top left is a 'Save' button. Below it are several tabs: 'OPTIONS' (which is active and underlined), 'HINT QUESTIONS', 'ADMINISTRATIVE USERS', 'STDS-BASED CONV TBL', and 'STDS-BASED GRD STANDARDS'. Under the 'OPTIONS' tab, there is a dropdown menu labeled 'TeacherPortal Use Flag:' with the value 'TeacherPortal is disabled' selected. This dropdown is circled in red. Below the dropdown is a 'Photo URL:' label and an empty text input field.

Disable ASCENDER ParentPortal

Clear Bus Data	<p>Select if the transportation information on Registration > Maintenance > Student Enrollment (Bus Info button) for all students should be cleared in the next year student records for the entire district.</p> <p>Only bus data entered in Registration is cleared. Any fields entered in Special Education, such as special seating and wheelchair information, are not cleared.</p> <p>Most LEAs that have bus data do not select this field.</p>																																																																																																					
Move Registration Student Comments	<p>Select if you want to copy the student’s registration comments (i.e., Comments window on Maintenance > Student Enrollment) to the next school year. Only comments from the student’s latest campus are copied.</p>																																																																																																					
Clear NSLP Code	<p>Select if the National School Lunch Program (NSLP) code (i.e., NSLP field on Registration > Maintenance > Student Enrollment > Demo1) should be cleared for all students in the district for the next school year, except those with Economic Disadvantage code 99.</p> <p>NOTE: National School Lunch Program (NSLP) is an optional program. However, the Economic Disadvantage data is collected for TSDS PEIMS reporting (submissions 1 and 3). Campuses that do not offer NSLP to enrolled students must set the Eco Disadvan code for all students to either <i>00-Not identified as Economically Disadvantaged</i> or <i>99-Other Economic Disadvantage</i>, based on the results of a locally developed income survey form.</p>																																																																																																					
Clear Current Eligibility Code	<p>Select to reset the Elig Code field to 1 (<i>eligible for full-day attendance</i>) on Maintenance > Student Enrollment > Demo1 for all students. The field applies to enrolled students only.</p> <p>Most LEAs do not select this field.</p> <p>If selected, the Elig Code field for all students is reset to <i>1-full day/full year</i> in the next school year. The student’s Attribution Cd and Camp Id Resid fields on Demo1 are also cleared.</p> <p>Whether selected or not, the following is true:</p> <ul style="list-style-type: none"> For PK students promoted to KG, the Elig Code field is reset according to the Type Kindergarten field on Attendance > Maintenance > Campus > Next Year Campus Options (either <i>1-full day/full year</i> or <i>3-half day/full year</i>). Withdraw Cutoff Date You can specify a date for determining if a withdrawn student should be created in the next year records. If a date is entered, next year records are *not* created during ASDR for any student who withdrew before this date. Next year records are only created for any students who withdrew *after* this date. You may choose to use this field if you have entered a next year schedule for a student who withdrew after a specified date.

Most LEAs leave this field blank.
Because historical information is available, it may not be necessary to use the **Withdraw Cutoff Date** field for ASDR. If you need to enter a student from a prior year, such as a migrant student, you can find the student in the Historical Directory and automatically reenter him in the current year.

If a date is entered in this field, the following applies:

- If the student withdrew before the withdrawal cutoff date, he is dropped for next year even if he has a schedule.
- If **Drop Wd Stu New Sch Yr** is blank on the [Campus ASDR Options](#) tab, the program drops students whose withdrawal date is before the withdraw cutoff date.
- If **Drop Wd Stu New Sch Yr** is selected, the **Withdraw Cutoff Date** field is not used.

2. [Set ASDR options for special programs.](#)

This section allows the district to select how special program records are set for the next school year when running ASDR.

- A special program entry/withdrawal record is not created for students whose withdrawal reason code in the record is *EP* (i.e., *Exit Program*).
- Only special programs selected on [Attendance > Maintenance > Campus > Next Year Campus Options](#) are created in the next school year.

Drop Special Ed Record for New School Yr (if Special Ed Next Yr = N)

For **Title I Services, Bilingual/ESL, Pregnancy Services, and Gifted/Talented**, select the code indicating how ASDR should handle the entry/withdrawal records for special programs.

- D - Drop special program records for this special program in the next school year. Records are not created.
- S - Perform a special reset for this special program. The program is rolled over to the new school year, and the enrollment date is set to the first day of the new school year. Records are created.

Rules for special program withdraw cutoff date

- If the student has withdrawn from the special program, and his withdrawal date is earlier than the date in the Withdraw Cutoff Date field on the [District Move Options](#) tab (if used), do not create a special program entry/withdrawal record.
- If the student's withdrawal reason code in the record is *EP* (i.e., *Exit Program*), do not create a special program entry/withdrawal record, regardless of the data in the **Withdraw Cutoff Date** and **Drop Wd Stu New Sch Yr** fields.
- If **Withdraw Cutoff Date** is used, the following applies:
 - Example: If **Withdraw Cutoff Date** is 04272016, the student withdrew from the campus and special programs on 03232017, and the **Withdrawl Code** field = 80, the student is not created in the new school year during ASDR.
 - If **Withdraw Cutoff Date** is 04272016, the student withdrew from the campus and special programs on 05042017, and the **Withdrawl Code**

field = 80, the student is created in the new school year and reentered in the special program(s) during ASDR.

- If **Withdraw Cutoff Date** is 04272016, the student withdrew from the special programs on 04202017, and the **Withdrawl Code** field = *EP*, the student is created in the new school year during ASDR, but the special program record is deleted. The student is not reenrolled in the special program.
- If the entry date is valid, reset the record to the first day of school.
- If the withdrawal date is blank or invalid, reset the record to the first day of school.

If EB Cd is 5, ASDR will create an EB code 5 record in the new school year.</p>
<p>Pregnancy Services</p>	<p>It is recommended that you select D (drop the student’s pregnancy services row in the new school year).</p>
<p>Gifted/Talented</p>	<p>If you select S, a record is created on Registration > Maintenance > Student Enrollment > G/T in the current school year for G/T students.</p> <p>If the Gifted/Talented special program is selected on Attendance > Maintenance > Campus > Next Year Campus Options, the student’s enrollment record for gifted/talented is created in the next school year.</p>

Special Education

Only option S is available.

- If the student exited the special education program in the current school year with withdrawal reason code EP (*exit program*), ASDR does not create a special education record for the student in the next school year.
- If the student's **Next Year Special Ed** field is Y on [Special Education > Maintenance > Student Sp Ed Data > Next Year > Program Information](#), ASDR merges any of the student's next year special education information with his current year special education information, and creates the record in the next school year.
- If **Next Year Special Ed** is blank on [Special Education > Maintenance > Student Sp Ed Data > Next Year > Program Information](#), the student's special education information from the current year is created in the next school year.

Drop Special Ed Record for New School Yr (if Special Ed Next Yr = N) This field is used in conjunction with **Next Year Special Ed** on [Special Education > Maintenance > Student Sp Ed Data > Next Year > Program Information](#). It affects only students whose **Next Year Special Ed** field is N. If you select **Drop Special Ed Rec for New Sch Yr if Special Ed Next Yr = N**, special education records are not created for these students in the next school year.

Existing campus options are displayed and can be modified.

Click **+Add** to add a campus or range of campuses and tracks.

A blank row is added to the grid.

<p>Campus From Campus To</p>	<p>Specify a campus or range of campuses. The options selected on each row apply only to the campuses in the range specified in these fields.</p> <ul style="list-style-type: none"> • You must account for all campuses in the district. Every campus in the district must be included in a range. • If there is only one campus in the range, type the same campus ID in both fields. • If a campus has multiple tracks, the campus must be listed in the Campus From and Campus Thru fields for each track. • Some campus IDs within the range might not be valid campus IDs; they are bypassed. <p>IMPORTANT! If you include more than one campus in a range, be sure that the selected options are appropriate for all campuses in the range.</p>
<p>Campus Track</p>	<p>Type the track for which the options apply.</p> <p>Options must be set for every track at the campus.</p> <ul style="list-style-type: none"> • A set of next year attendance options must already be built for every track at every campus. • Include each track at each campus, unless Exclude Campus is selected for the campus. Students whose next year track does not exist will be dropped in the next school year and will be included on the Dropped Stu List report but not written to the leaver table. • Campuses included in the range on the same row must have the same first day of school for the track specified. <p>NOTE: If the district has multiple half-day tracks, PK students should be pre-registered to the track they will be on for the next school year.</p>
<p>Set to Campus Track</p>	<p>Use the two fields to move students from one track to another during ASDR.</p> <p>Select the checkbox and type a track in the input field if all students at the original campus and track will be moved to the entered track when ASDR is run. For example, this could be used to transfer students to a track with an extended year calendar.</p> <ul style="list-style-type: none"> • The next year calendar must already be set up for the track. • The track input field is enabled only when the checkbox is selected. • If the checkbox is selected, the track input field cannot be blank. • If you type a value in the track input field, the First Day Of School field is disabled and populated with the correct first day of the school for the entered track when you save. It will remain disabled after you save; you must clear the checkbox if you need to reset First Day Of School for any reason (e.g., to change or correct data). <p>It is recommended that you do <i>not</i> use this option to move students from a half-day track to a full-day track.</p>

Exclude Campus	<p>Select to exclude the campus from ASDR. This option is used for a campus that will not be active or used in the next school year. If the campus is excluded, no next year records are created for the campus.</p> <p>Because historical information is saved, a campus must be excluded instead of deleted so that the data is saved in the historical records.</p> <ul style="list-style-type: none"> • If a campus will not be used next year, but it still has student records (such as leaver records), do not exclude the campus. Instead, set ASDR options to drop the student records when ASDR is run by selecting Drop Wd Stu New Sch Yr, Drop Status =1 New Sch Yr, and Drop Unsched Stu New Sch Yr on the Campus ASDR Options tab). When the campus is accessed in the next school year, there will be no student records for the next school year (except for the leaver records). • If you exclude a campus with enrolled students, the students are not rolled over during ASDR. Their records are written to the historical tables for the excluded campus. If the student does not have a valid next year campus, he will be dropped in the next school year.
First Day of School	<p>This date is automatically set to the first day of school for all next year campuses when next year attendance calendars are created. This date will be used as the campus entry date, original campus entry date, and course entry date for all students is displayed.</p> <p>The date may also be used for the entry date for special programs. Be sure this date is the same date is displayed on Attendance > Maintenance > Campus > Next Year Campus Calendar.</p>
Move Ctrl Nbrs	<p>Select to move next year student control numbers (Scheduling > Maintenance > Control Number) to the current year and clear the next year control number field.</p> <p>For high school campuses, this field is typically <i>not</i> selected.</p> <p>IMPORTANT!</p> <p>Be sure to check with the elementary campus to see if they are using the next year control number option in Scheduling.</p> <p>Next year control numbers must already be set for students. If you select this option and next year control numbers are not set, all student control numbers will be cleared.</p>

<p>Drop Wd Stu New Sch Yr</p>	<p>This option uses the withdrawal date to determine if the student will be dropped.</p> <p>Select to <i>not</i> create next year records for students who withdrew before the end of the current year.</p> <p>It is recommended that you select this field. If selected, you will be able to re-enroll withdrawn students from Historical Directory.</p> <p>If <i>not</i> selected, and the student has a withdrawal date and meets other criteria (e.g., the student has courses scheduled for the new school year, or the campus did not also select Drop Unsched Stu New Sch Yr), No Show (record status 6) records are created for the withdrawn students for the new school year. Creating No Show records for withdrawn students at any campus is not recommended.</p> <p>NOTES:</p> <p>If a Withdraw Cutoff Date is entered on the District ASDR Options tab, you cannot also select Drop Wd Stu New Sch Yr; only one of the fields can be selected.</p> <p>If Drop Wd Stu New Sch Yr is selected for a campus, it supersedes the Withdraw Cutoff Date on the District Move Options tab, whether or not a withdraw cutoff date is entered.</p> <p>If Drop Wd Stu New Sch Yr is selected for a campus, this setting overrides the Activate Withdrawn Sched Student setting. In this case, withdrawn students will be dropped even if they have scheduled courses.</p>
<p>Drop Status = 1 New Sch Yr</p>	<p>This option uses the status code to determine if the student will be dropped.</p> <p>Select to <i>not</i> create next year records for record status 1 students (<i>currently enrolled at this campus</i>).</p> <p>This option is for campuses that use a scheduling application. Campuses that do not use a scheduling application should <i>not</i> select this option, because no student records would be created for the next school year.</p> <p>If selected:</p> <ul style="list-style-type: none"> • Students with record status 1 are <i>not</i> created. • Students with record status 2 are created for the next school year.
<p>Drop Unsched Stu New Sch Yr</p>	<p>This options looks at the student's course requests to determine if the student will be dropped.</p> <p>Select to not create next year records for students who do not have scheduling course requests at their next year campus, regardless of their record status. This applies to both active and withdrawn students.</p> <p>If selected, even students who withdrew after the Withdraw Cutoff Date on the [registration:maintenance:districtprofile:asdr:campusmoveoptions District ASDR Options]] tab (if used) are dropped if they do not have a next year schedule.</p>

Activate Withdrawn Sched Student	<p>This options looks at the student's course requests to determine if the student will be dropped.</p> <p>Select to re-activate withdrawn students who have courses requested or assigned in Scheduling at their next year campus.</p> <p>The withdrawal date is deleted from the enrollment records of students who have course requests, whether or not the requests are scheduled. NOTE: If Drop Wd Stu New Sch Yr is selected for a campus, that setting overrides the Activate Withdrawn Sched Student setting. In this case, withdrawn students will be dropped even if they have scheduled courses.</p>
Clear Eco Disadvan	<p>Indicate how to clear the Eco Disadvan field on Registration > Maintenance > Student Enrollment > Demo1 for all students. <i>Do not clear</i> - The current value is carried over to the new school year.</p> <p><i>Clear all except 99</i> - The value is carried over to the new school year for students with code 99. For all others, the value is set to 00 in the new school year.</p> <p><i>Clear ALL</i> - The value is set to <i>00-Not Economically Disadvantaged</i> for all students in the new school year.</p> <p><i>Clear only code 01</i> - For students with code <i>01-Eligible for Free Meals</i>, the value is set to 00 in the new school year. Back Up Database and Log Files

All users must be logged off ASCENDER.

For districts hosted by their regional service center or at the TCC Data Center, contact your service center to request these backups.

For self-hosted districts, make backups of your ASCENDER and ASCENDER ParentPortal databases files. Contact your regional service center for assistance.

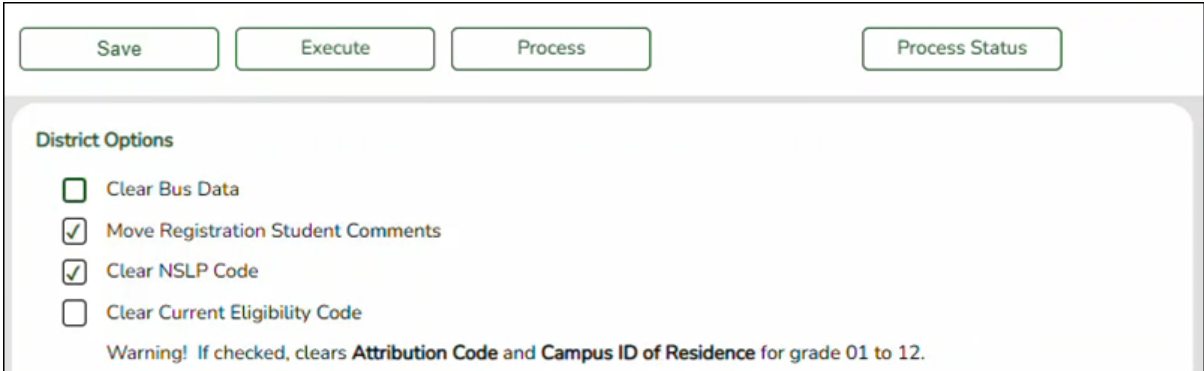

3. Run ASDR.

Run ASDR

After entering the district, special program, and campus options, you are ready to perform a trial run of ASDR. You can print separate reports that show students whose next year records were not created and list errors found. Once you have corrected or verified the errors, you can perform the live run.

Before running ASDR, do the following:

- Be sure that all users are logged out of ASCENDER.

The screenshot shows a web interface for running ASDR. At the top, there are four buttons: "Save", "Execute", "Process", and "Process Status". Below these buttons is a section titled "District Options" with a list of four items, each with a checkbox:

- Clear Bus Data
- Move Registration Student Comments
- Clear NSLP Code
- Clear Current Eligibility Code

Below the list is a warning message: "Warning! If checked, clears Attribution Code and Campus ID of Residence for grade 01 to 12."

Once all options are selected, click  to test the rollover.

NOTE: This process may take several minutes. You must keep the page open while the process is running.

Click on  to determine if the process has completed.

NOTE: At this time there is no refresh for the status. The window must be closed then re-opened.

When the process is complete, four buttons are displayed:

- **Dropped Stu Report**
- **Error/Warning Report**
- **Stu Leaver Error Report**
- **Process Status**

Correct any errors, and correct/verify warnings in the student information, and then re-execute the ASDR process.

Repeat this until all errors and warnings are corrected or verified.

Click **Process** to complete the ASDR process.

When the process is complete, the **Process Status** button is displayed indicating that the ASDR update is completed.

Click **Close**.

Run ASDR again.

After the ASDR process is completed, log out and log back in to re-initialize the screen.

After Running ASDR

1. [Verify historical and current year data.](#)

Verify Historical & Current Year Data

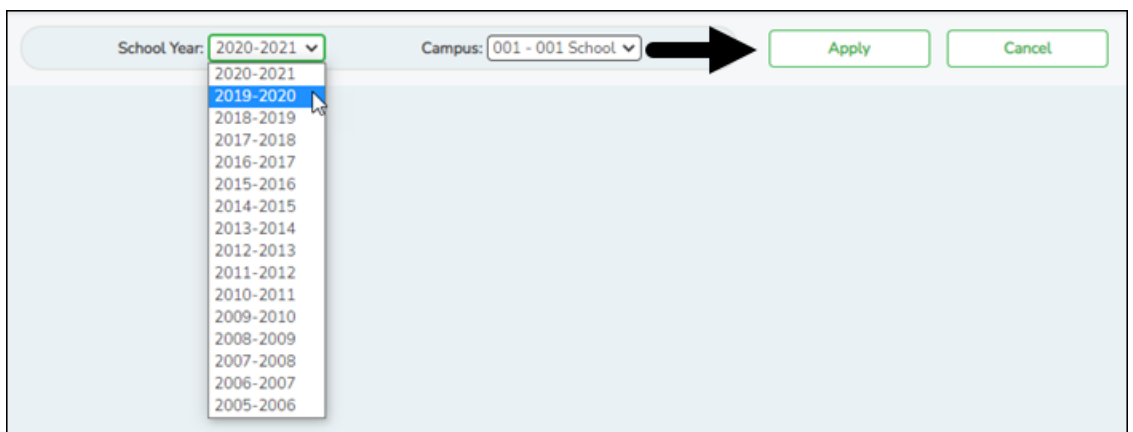

1. [Verify that current and prior years are available.](#)

After running ASDR live, the upcoming school year becomes the current school year and is displayed in the top-right corner. If you have access to view historical data, you will be able to select the prior year to view historical data.

Click **Change** to enable the **School Year** field.

In the **School Year** field, verify that you can select the prior year. Click **Apply**.

From the Registration application, use the **Student Directory** to verify that students are retrieved as expected.

2. Verify current year data.

After you run ASDR, run the following reports to verify that students are in the correct grade level, that their schedules were moved to Grade Reporting correctly, and that they are properly enrolled in their special programs.

- [Registration Reports > Program > SRG1200 - Student Status Changes by Program](#)

This report is run by campus and can be run for individual programs (special ed, G/T, Bil/ESL, Title I, PRS, local programs, PK enrollment) and shared with appropriate staff.

- [Registration Reports > Program > SRG1500 - Student At Risk Listing](#)

This report allows you to compare at risk data for a campus. For example, select ending school year (current year), include withdrawn students, and set the **At Risk Year (Ending School Year)** parameter to blank to capture all years for comparison. Or, set the **At Risk Year (Ending School Year)** parameter to the current school year to display current values. Run the report again for the previous school year and compare the two reports.

- [Registration Reports > Student > SRG0200 - Student Name Listing](#)

This report allows you to view basic student information for current year students. If the **Only New Students This Year** parameter is set to Y, students who have an enrollment record at the campus for a prior school year are not listed. This report can be run multiple times at the beginning of the school year to identify No Show students, new enrollments, etc.

Student tracks should also be verified.

[Registration Reports > Withdrawal > SRG1700 - Leaver Tracking Report](#)

This report is helpful because it provides the initial list of students created in leaver tracking for fall PEIMS submission.

[Grade Reporting Reports > Student Schedules > SGR1940 - Student Course List](#)

This report provides a proof list that allows you to quickly see student schedules and determine if any unscheduled periods need to be addressed. You can use the [Scheduling > Maintenance > Live Scheduling Load > Student Reject List](#) report, which was run prior to accepting the live scheduling load, to identify outstanding unscheduled course requests that need to be scheduled.

[Grade Reporting Reports > Instructors > SGR2500 - Schedule of Classes \(Grd Rptng\)](#)

This report provides the master schedule in grid format allowing you to review teacher schedules and total number of students.

[Grade Reporting Reports > Student Schedules > SGR0010 - Students Without a Schedule](#)

This report provides a list of students currently without a schedule. The list only includes students with *blank* schedules.

[Health > Reports > Health Reports > All](#)

TIP: Review immunization data for record status 5 students (e.g., PK)

Roundup) to be sure data is carried over to the next school year.

☐ [Special Ed > Student > SEM0000 - Special Ed Student Listing](#)

This report allows you to verify next year data for students enrolled in special ed. Verify that data carried over as expected.

Additional Attendance Changes

- The fields on [Attendance > Maintenance > Student > Student Inquiry > Letter Control](#) are cleared.
- Student entry dates should match the first day of school for their calendar and track for the next school year.
- Special programs at the next year campus are selected on [Attendance > Maintenance > Campus > Campus Options](#). If a special program is not offered at the next year campus, no student enrollment records were created in the move.

2. [Verify Grade Reporting updates.](#)

Schedules for No Show Students

ASDR checks for current year students who were No Show students for the entire school year at the campus and still have a schedule in Grade Reporting. During ASDR, the No Show student schedules are dropped. Therefore, if a student returns to the district, his GPA can be calculated on [Grade Reporting > Maintenance > Student > Individual Maint > Prior Yr Transfer](#) when his prior year course records are entered, since he will not have any grade course records for that year.

Additional Grade Reporting Changes

Student schedules, courses, sections, instructors are moved from Scheduling

to Grade Reporting.

ASDR moves the **OnRamps** field settings from the Scheduling district master schedule and campus master schedule Sections tab to the Grade Reporting district master schedule and campus master schedule Sections tab for the new school year.

Rows are created for each calendar-track in the new school year on Grade Reporting > Maintenance > TeacherPortal Options > Campus > First Day Counts Ctrl.

3. [Verify Graduation Plan updates.](#)

Personal Graduation Plan

[Graduation Plan > Maintenance > Student > Individual Maintenance > PGP](#)

The screenshot shows the 'PGP' tab in the system. At the top, there are three date fields: 'CPR Date Completed' (11-05-2021), 'Speech Date Completed' (04-04-2022), and 'Peace Officer Interact Date Completed' (05-23-2019). Below these are several columns: 'Foundation' (listing courses like English 1-3, Math, Science, etc.), 'Enrollment' (with a dropdown set to '0 - Not Participating'), 'Distinguishable', 'STAR/LOC Address' (listing subjects like English 1, Algebra 1, etc.), 'College Readiness' (with checkboxes for ACT, PSAT, SAT, etc.), and 'Diagnostic Info' (with checkboxes for Dyslexia, LEP, etc.). A 'College Career Instruction' checkbox is checked. At the bottom, there are fields for 'College Readiness' and 'TSI Required'.

The settings of the following fields are rolled over to the next school year:

- **CPR Date Completed**
- **Speech Date Completed**
- **Peace Officer Interact Date Completed**
- **College Career Instruction**

REMEMBER: These fields are populated in Graduation Plan for students who have a graduation plan. For all other students, the fields are populated on [Registration > Maintenance > Student > Demo3](#).

The fields under **Student Indicators** are set according to settings in ASDR.

PK and KG Student Eligibility Code

The **Elig Code** field for PK student is normally set to 2 (i.e., *eligible half day*). If an existing PK student will be five years old by September 1st, he is promoted to KG, unless he is retained.

During ASDR, the eligibility codes for PK students promoted to KG are based on the **Type Kindergarten** field on [Attendance > Maintenance > Campus > Next Year Campus Options](#):

- If the field is set to 1 (*full day/full year kindergarten program*), when a PK student is promoted to KG, his **Elig Code** field is set to 1 (*eligible full day*).
- If the field is set to 3 (*half day/full year kindergarten program*), when a PK student is promoted to KG, his **Elig Code** field is set to 2 (*eligible half day*).
- A current year KG student, whether half day or full day, who is promoted to 1st grade will have his **Elig Code** field set to 1 (*eligible full day*).

Record Status

The **Record Status** field is set to 1 (*currently enrolled at campus*) at the next year campus.

5th, 8th, and 9th Grade Entry Date and Cohort

[Registration > Maintenance > Student Enrollment > Demo2](#)

The screenshot shows a web-based form for student enrollment. The 'Counselor Information' section includes fields for 'Dt Entry 5th Grd' (08-02-2014), 'Dt Entry 8th Grd' (08-28-2017), and 'Dt Entry 9th Grd' (08-20-2018), all of which are circled in red. Other fields include 'District Entry Date' (08-28-2017), 'Birth City' (SAN ANTONIO), 'Birth State' (TX), 'Birth Country' (01), and 'Cohort' (2022), which is also circled in red. The 'Miscellaneous' section has checkboxes for 'Primary Language', 'Immig Tracking', 'Headstart Code', 'Alien Tuition Cd', 'Parent Federal Connected', 'Att Zone Home Campus', and 'SAT-ACT-TSIA Reimburse'. The 'Dual Language Immersion' section has a table for 'Year' (01-05) and 'Language' with dropdown menus, and fields for 'Assessment Date' and 'Completion Year'.

- The **Dt Entry 5th Grd** and **Dt Entry 8th Grd** fields are moved from the current year to the new school year, and both fields are set to the

first day of the new school year for students who will be enrolled in 5th or 8th grade for the first time in the new school year.

- For 8th grade students entering 9th grade, ASDR updates the student's **Dt Entry 9th Grd** field, if the field is blank, with the first day of school for the 9th grade school year.
- ASDR also updates the **Cohort** field for students entering 9th-12th grade according to the year in **Dt Entry 9th Grd**. If **Cohort** is blank and **Dt Entry 9th Grd** contains a date, the **Cohort** field is updated with that year + 4.

Neither field is changed if they already contained values before ASDR.

Career and Technical Education (CTE) Indicator

- If a student's **Career and Technology Ind** field was 1 (*enrolled*), ASDR resets the field to 0 (*not enrolled*).
- Students with code 2 (*coherent sequence of courses*) are not reset; the code is rolled over to the next school year.

NOTE: If a student is ineligible for CTE funding (i.e., **CTE Elig** is cleared on [Maintenance > Student Enrollment > W/R Enroll](#), [> SpecEd](#), or [> PRS](#), the student becomes eligible for CTE funding after ASDR is run.

Status Indicators

The following fields are cleared in the next school year, regardless of district, campus, and special program move options:

- **Campus of Account**
- **Summer Sch. Bil/ESL**

For students who graduated, the **Military Enlistment** field is carried over to the leaver tracking record on [Registration > Maintenance > Prior Year Leaver Tracking](#).

ASDR increments the student's **Yrs US Sch** field as follows:

- If **Yrs US Sch** is blank, a blank is rolled over to the next school year.
- If **Yrs US Sch** is 0 or 1, increment to 2.
- If **Yrs US Sch** is 2, increment to 3.

- If **EB Cd** is 4, ASDR will create an EB code 5 record (*former EB/EL student*) in the new school year.
- If **EB Cd** is 5, ASDR will create an EB code 5 record in the new school year.

Bil/ESL Parental Permission Code

If the student's **Par Perm Cd** field is B (*Parent/Guardian Approved ESL-Not Deny BIL PK-8*) and he will be in grade level 9-12 in the next school year, the code is changed to F (*Parent/ Guard Approved LPAC Plan 9-12*).

Title I

ASDR will blank out columns for Instructional Services and Other Related Services for school year 2019 Title I records.

Local Programs

ASDR moves local programs to the next school year according to the settings of the **Move Program to Next Year** fields on [Registration > Maintenance > District Profile > Local Program Codes](#) and [Registration > Maintenance > Campus Profile > Campus Local Program Codes](#).

- If the field on the district-level page is set to N, the **Move Program to Next Year** field is disabled on the campus-level page. The district setting overrides the campus setting. The program will be dropped when ASDR is run.
 - If the field on the district-level page is set to Y, the program is rolled over to the next school year.
 - If the local program does not exist at the next year campus, the program is not created for the student in the next school year.
 - For students who exited a program with reason code EP (*exit program*), the program is not rolled over to the next school year.

Attendance Zones

Processing of the Attendance Zones street segment records from Next Year to Current Year

During the school year, the Attendance Zones information is entered on Registration > Maintenance > District Profile > District Maintenance > Attendance Zones > CY Attendance Zones and Registration > Maintenance > District Profile > District Maintenance > Attendance Zones > NY Attendance Zones.

The Annual Student Data Rollover (ASDR) will process the AZ street information in the following manner:

- The Next Year (NY) street segment records are combined into the Current Year (CY) street segment records for the New School Year.

If there is a street segment in the NY, and the segment does not exist in the CY, create the street segment for New School Year using the NY segment information.

If there is a street segment in the NY and the segment exists in the CY, create the street segment for New School Year using the NY segment information.

If there is a street segment in the CY and the segment does not exist in the NY, create the street segment for New School Year using the CY segment information.

- The Transfer Factor information entered on Registration > Maintenance > District Profile > Tables > CY_Transfer Factor and Registration > Maintenance > District Profile > Tables > NY Transfer Factor are copied from the NY Transfer Factor tab to the Current Year tab for the new school year.

The following fields are reset to 0 in the upcoming school year:

- **Attendance Zone Edit** on [Registration > Maintenance > District Profile > District Maintenance > Attendance Zones](#)
- **Auto Update Home Campus from Attendance Zones** on [Registration > Maintenance > District Profile > District Maintenance > Attendance Zones](#)
- **Require Physical Address** on [Registration > Maintenance > District Profile > Attendance Zones](#)

The following fields are cleared in the upcoming school year:

- **Capped To** on [Registration > Maintenance > District Profile > Attendance Zones](#)
- **Date Capped** on [Registration > Maintenance > District Profile > Attendance Zones](#)
- **Att Zone Home Campus** on [Registration > Maintenance > Student Enrollment > Demo2](#)

The following fields are copied to the upcoming school year:

- [Registration > Maintenance > District Profile > Attendance Zones](#) table is copied to [Registration > Maintenance > District Profile > Attendance Zones](#) (NY Attendance Zones is cleared)
- **NY Xfer Factor** on [Registration > Maintenance > Student Enrollment > Demo1](#) is copied to **CY Xfer Factor** on [Registration > Maintenance > Student Enrollment > Demo1](#), and then **NY Xfer Factor** is cleared in the upcoming school year

Additional Changes

ASDR also clears the following fields in the new school year regardless of district, campus, and special program move options:

- [Registration > Maintenance > Student Enrollment > W/R Enroll \(Cmnts\)](#)
- [Registration > Maintenance > Student Enrollment > Special Ed \(RDSD Fiscal Agent\)](#)

5. [Verify Scheduling updates.](#)

Student Schedules and Alternate Course Requests

[Scheduling > Maintenance > Student Schedules > Course Requests](#)

ASDR clears student scheduled courses as well as any alternate course requests.

Students' next year schedules and/or course requests are cleared in order for the Graduation Plan application to correctly calculate the student's credit status.

PK Program Evaluation Type

[Scheduling > Maintenance > Master Schedule > Campus > Sections](#)

ASDR moves the value from **PK Prog Eval Type** from Scheduling to [Grade Reporting > Maintenance > Master Schedule > Campus Schedule > Section](#), if a value exists.

6. [Verify Special Ed updates.](#)

Extended School Year (ESY) Services

[Special Education > Maintenance > Student Sp Ed Data > Current Year > Program Information](#)

The following fields are cleared for the student in the next school year:

- **Extended School Year Services**
- **Extended School Year Services Hours**
- **Extended School Year Services Speech Hours**

The **IEP Continuer** indicator is rolled over from the current year to the new school year.

Additional Changes

ASDR also clears the following records in the new school year regardless of district, campus, and special program move options:

- [Special Ed > Maintenance > Student Sp Ed Data > Current Year > Child Restraint](#) (Restraints)
- [Special Ed > Maintenance > Student Sp Ed Data > Current Year > Instructors](#) (Instructors)

Below this, there are tabs for 'TESTS' and 'PRECODE'. The 'PRECODE' section is highlighted and contains several sub-sections:

- Information:** Includes a dropdown for 'STAAR/TAKS' (set to STAAR), a checkbox for 'TAKS Exit Level', and a text field for 'Home County/District/Campus'.
- Precoding STAAR status:** A large section with dropdown menus for subjects: Eng Lang Arts, Writing, Math, Science, and Social Studies. Each subject has an 'Above Grd' dropdown and six 'Accommodation' dropdowns (1-6).
- TELPAS Precoding:** Includes a dropdown for 'A' and a checkbox for 'Interrupted Formal Education'.
- STAAR 3-8 Spanish (Grades 03-05):** Includes checkboxes for 'Reading', 'Writing', 'Math', and 'Science'.
- Precoding STAAR Interim:** Includes checkboxes for 'Reading', 'Math', and 'Science' at various grade levels (1-5).

ASDR moves the precoding values assigned to each subject to the next school year, and clears the **Above Grd** field for every subject in the next school year.

Also:

- The setting of the **Accommodation 1-x** fields for each subject are copied from the current school year to the new school year.
- The **Precoding STAAR Interim Reading** and/or **Math** field settings are copied to the new school year.
- The **Precoding STAAR Interim Reading** and/or **Math Grd Lvl** fields are cleared for the new school year.

TeacherPortal

- When ASDR is run, the teachers’ user ID and password are removed from TeacherPortal for security reasons. The teachers will need to register again for the next school year.

NOTE: TeacherPortal administrative user accounts are deleted/retained according to the setting of the **Delete TeacherPortal Administrative Users** field on [Registration > Maintenance > District Profile > Annual Student Data Rollover > District ASDR Options](#). If accounts are deleted, campus- and district-level administrators will need to register again for the next school year.

- The TeacherPortal Skills-Based Report Card setup information is cleared when ASDR is run; this information must be re-entered each school year.

ASCENDER ParentPortal

Parent user names and passwords are not removed; they remain the same for the next school year.

Student portal IDs also remain the same, with a couple of exceptions:

- Students who graduated or withdrew from school are not created in the next school year, and the student portal IDs are deleted from their student records.
- Students who no longer have portal IDs are no longer listed in their parents' account in ParentPortal.

For a complete list of submission rules and edits, access the TSDS Web-Enabled Data Standards (**TWEDS**) website. In the top-right corner, select the appropriate **School Year** (20XX), **Collection** (XXXX), and **Submission** (XXX) and click **Open**.

Once on the TWEDS website, in the Overview tab, you can review **Collections**, **Timelines (DUE DATES)**, and **Data Submission Responsibilities**. It is **highly important** to ensure that you review all of these details as they may change according to the **School Year**.

Additionally, you can use the other tabs on the TWEDS website to review **Data Components**, **Descriptor Tables**, **References**, **Rules**, **Change Logs**, and **Early Notices**.
