Verify Budget data

This tab is used to retrieve and edit Fall TSDS financial data, allowing for corrections to Budget and Payroll data in the TSDS staging tables. The staging area temporarily holds data before it is submitted to the Texas Education Agency (TEA) (i.e., promoted to the Operational Data Store (ODS)).

The data on this tab is obtained from the latest Fall extracts after period 10 is closed, incorporating all TSDS crosswalks, automatic crosswalks, and data summaries. Accounts are summarized by fund, function, object class (6100), organization, and program intent code. For instance, 199-11-6119.00-001-511000 will display as 199 11 6100 001 11. Users should cross-reference balances with the Finance application and may need to combine amounts to ensure accurate budget reporting.

Notes:

- Data cannot be duplicated. Duplicated data will receive an error upon submission.
- Enter data carefully on this tab. Incorrect or improperly formatted data may cause errors upon submission.

TSDS Extract Notes:

The budget and payroll data extracts are run nightly along with the other TSDS extracts until accounting period 10 (October) is closed in Finance.

- After period 10 (October) closes, the budget and payroll data extracts are paused for the current school year.
- After period 10 (October) closes and the nightly extract is run, the Fall Finance TSDS Data tab in District Administration is enabled allowing users to begin making corrections to budget and payroll data.
