Select a Program Intent Code

The Program Intent Code lookup is used to select a program intent code.

Select a program intent:

- The program intent codes are listed in ascending order.
- To search for a specific program intent code, begin typing the program intent code or description name in the **Search** field. The list is automatically filtered to display the program intent codes that contain the numbers or characters you have typed.
- When you locate the code you want to select, the corresponding check box and click **OK**. The lookup closes, and the field/parameter is populated with the selected program intent(s).
- Click **Cancel** to close the lookup without selecting a program intent.
