Terminology

Be sure you are familiar with the following terminology:

Terminology:

- **New Student Enrollment** - The process of enrolling a student in the district for the first time in the current year.
- **Returning Student Registration** - The annual registration of returning students, including review and updates to student records such as demographic data updates and standard forms.

- **Student Data Maintenance** - The ongoing maintenance of records for existing students, such as changes to contact information.

Form Types:

- **Uploaded documents** cannot be updated online by parents; they can be viewed, printed, completed by hand, and returned to the campus. Uploaded documents forms will vary by campus and district, and can be delivered in various formats, such as Microsoft Word, PDF, spreadsheet, etc. Calendars are an example of static documents. **Any documents you upload should be ADA compliant.**
- **Dynamic forms** are presented online and can be completed and submitted online. These forms may include student online registration and demographic updates, as well as document attachment fields and uploads. Dynamic forms are built from a list of available fields. The list of available fields can be found later in the document.
- **Standard forms** are predefined district-level forms that are common throughout Texas. The forms cannot be edited, but you can determine whether or not they are available to parents by including (or excluding) them from groups. Most forms are submitted annually; the Home Language Survey only needs to be submitted once during the student's lifetime enrollment in the district.

Planning Ahead

- ☐ During the planning phase, contact your regional service center for assistance in developing your forms.
- ☐ Discuss how your campus and district will implement New Student Enrollment (method and location).
 - What method will you be using (CAPTCHA or email verification)?

- Where will you be hosting the enrollment event (campus, home, during a Kinder Roundup event or open house, etc.)

☐ Determine who will be responsible for completing the form management setup and ongoing maintenance. It is recommended that 1 or 2 staff persons set up and maintain online forms.

☐ Review all of the district's current registration documents, and compare them to the available forms.

- Determine whether static forms are needed, and which built-in dynamic and standard forms will be used.
- Make changes to built-in forms as needed.
- Determine if custom forms are needed using district-created questions.
- Contact your service center consultant for assistance with individual situations.

☐ Develop a plan to explain how the returning student registration process will work.

☐ It is recommended that you communicate in advance to parents that they need to verify that their ASCENDER ParentPortal account and email address are current. Recommendations:

- Send a letter to parents (or use messaging system) to notify them that Returning Student Registration will be available on xx/xx/xxx (or during a particular event). Example: The letter can be created from ASCENDER Registration > Reports > Create Registration Report. Select the student contact fields, create the report, and then filter the report by email and populate a mail merge with an electronic form template.
- Enable online student data updates before the Returning Student Registration event. This will give parents an opportunity and a reason to log on to ASCENDER ParentPortal, which may assist districts in reconciling ParentPortal account issues.
- **NOTE:** Registration > Maintenance > Student Enrollment > Contact: The **Email** field for contacts marked as **Parent/Guardian** must match for ALL students associated with the ParentPortal account in order for Registration features to be activated for the parent. This email address must also be the address entered on the parent's ParentPortal account and it must be validated.

☐ Because custom instructions cannot be added to standard forms, consider creating a static form that is listed at the beginning of the standard forms which provides any instructions or additional information you would like to communicate to the parent before beginning the registration process.

☐ Consider whether you need to have translators available for any enrollment events.

Troubleshooting Tools

☐ The **Guardian Verified** field on Registration > Maintenance > Student Enrollment > Contacts can be used to allow verification of ParentPortal accounts for parents who do not have access to a valid email address.

If **Guardian Verified** is selected, the contact's email address can immediately be matched to the

email address entered by the parent when registering for an ASCENDER ParentPortal account. If the two addresses match, the contact can complete online registration and update the student's data. This allows you to bypass the normal email verification process for short-term situations where the normal email address verification process cannot be completed.

ParentPortal Admin: Enrollment, Registration, and Data Updates

District: Set Up & Enable Forms

Districts should follow these steps to manage forms for New Student Enrollment, Returning Student Registration, and Student Data Maintenance, including static printable forms, customized dynamic forms, and standard forms.

Prerequisites:

- Be sure you have considered and completed all steps in the [Overview & Before You Begin](#) list.
- You must have district-level administrative access to ASCENDER ParentPortal.
- Any static forms must be ready for upload and saved in a valid format (English and Spanish versions). All forms should be ADA compliant.

1. [Upload static documents.](#)

ASCENDER ParentPortal Admin > Form Management > Document Upload

This page allows you to maintain a pool of read-only static documents that once created into a static form and then added to a form group, parents can view and print as needed. These documents cannot be updated by parents online; they can be viewed, printed, completed by hand (if necessary), and returned to the campus, such as campus and district calendars, school supply lists, acknowledgement forms, or surveys. The documents may vary by district and campus.

From this page, you can upload static documents from your PC to the ParentPortal server. Once created into a static form and then added to a form group, parents will be able to access these forms from ParentPortal for online enrollment, annual online registration, and for ongoing student data maintenance.

Your documents should be ADA compliant.

You can upload documents in the following formats:

- .doc or .docx (Microsoft Word)
- .pdf (Adobe Acrobat)
- .xls or .xlsx (Microsoft Excel)
- On this page, you will only upload the documents. You will create a form for each document in a subsequent step using the ***Form Creator*** page.
- If you will be creating English and Spanish versions of static forms, you must upload an English and Spanish version of each document.

- ☐ Under **Uploaded Documents**, click **Delete** for the document you want to delete.

NOTE: You cannot delete a document if it is in use (i.e., added to a form).

2. Edit student data fields.

ASCENDER ParentPortal Admin > Form Management > Form Field Management

This page allows you to set options for the fields that will be used for New Student Enrollment, Returning Student Registration, and Student Data Maintenance forms. Examples of fields are first name, last name, middle name, and birth date.

The list of **Available Fields** is added automatically. For each field, you indicate if the field is visible and add any instructions. By default, all fields are visible and no action is required; however you can hide a field globally and/or add default instructions as needed.

Some districts allow you to select document storage (DOCSTOR_) fields which allow parents to upload supporting registration forms (immunization record, birth certificate, etc.).

NOTE: On this page you will set options for the fields. You will add the fields to a form in a subsequent step.

3. [Create a form](#).

ASCENDER ParentPortal Admin > Form Management > Form Creator

The Form Creator allows you to create new forms, as well as delete and edit existing forms.

Two types of forms can be created:

- **Static forms** can be created using the static documents you have already uploaded.
- **Dynamic forms** can be created using the fields you selected in previous steps.

NOTE: A form must be added to a group in order to be accessible to parents. You will add the form to a group in a subsequent step.

The screenshot shows the 'Form Creator' interface. On the left, a sidebar lists forms under three categories: 'Active Forms' (with a dropdown arrow), 'Static Forms' (containing 'Supply list' and 'Testing static form instructions'), and 'Dynamic Forms' (containing 'Contacts' with 40 fields, 'New Student Address' with 16 fields, 'New Student Contacts' with 40 fields, 'New Student Enrollment' with 59 fields, and 'Registration' with 25 fields). Below these is an 'Archived Forms' section with an upward arrow. The main area is titled 'Edit Form' and contains a 'Copy Form' button in the top right. The form fields include: 'Form Name' (text input), 'Campus' (dropdown menu), 'Form Instructions' (text area), 'Visible' (radio buttons for 'Yes' and 'No'), and 'Archived' (checkbox). A 'Save' button is in the bottom right corner. A 'Language' dropdown is set to 'English'.

On the left side of the page, any existing forms are listed.

- **Active Forms** are listed first, and **Archived Forms** are listed below active forms.

- Click to hide **Active Forms** or **Archived Forms**.

- Click to re-display **Active Forms** or **Archived Forms**.

- Forms are automatically grouped by form type (**Static** first, then **Dynamic**).

Forms that have an uploaded document attached are listed under **Static**.

Forms that do not have an uploaded document attached are listed under **Dynamic**.

- Under **Active Forms - Dynamic**, three 'New Student' forms are included by default:

- New Student Enrollment
- New Student Contacts
- New Student Address

The following forms are also included by default:

- **Fields: #** indicates the number of fields that have been added to a dynamic form. Static forms do not have fields.

- Hover over the form and click the preview icon to [preview the form](#).

The form opens in a pop-up window or different tab allowing you to view the form as it will be displayed to parents in ParentPortal. In the preview window, data cannot be edited or saved.

ASCENDER ParentPortal Admin > Form Management > Form Creator

Once a form is created, it can be edited, archived, and deleted.

Edit a form:

☐ Under **Active Forms**:

- Hover over the new or existing form and click the edit icon.

The form details open in the **Edit Form** (right) section where you can edit details as described previously.

Archive a form:

Archiving allows you to retain a form that may still be needed for reporting purposes but is no longer used for data collection. An archived form is no longer available to parents, but it is still accessible to administrators and grouped with other archived forms. A form can be un-archived at any time.

The screenshot shows the 'Form Creator' interface. On the left is a sidebar with 'Active Forms' and 'Archived Forms' sections. Under 'Active Forms', there are 'Static Forms' (including 'Supply list' with a search icon and an edit icon circled in red) and 'Dynamic Forms' (including 'Contacts', 'New Student Address', 'New Student Contacts', 'New Student Enrollment', and 'Registration'). The main area is titled 'Edit Form' and contains fields for 'Form Name' (Supply list), 'Language' (English), 'Campus' (a dropdown menu), 'Form Instructions' (Download the form and purchase all supplies on list please.), 'Visible' (radio buttons for Yes and No), 'Archived' (a yellow checkbox that is checked), and 'Static Document' (School_Supply_List.pdf). A 'Copy Form' button is in the top right, and a 'Save' button is in the bottom right.

□ Under **Active Forms** (left):

- Hover over the new or existing form and click the edit icon.

The form details open in the **Edit Form** (right) section. Select **Archived** and click **Save**.

The form moves from the **Active Forms** list to the **Archived Forms** list.

The screenshot shows the 'Archived Forms' section of the sidebar. It has a header 'Archived Forms' with a dropdown arrow. Below it, there is a 'Static Forms' section with a blue header and a list item 'Supply list'. Below that is a 'Dynamic Forms' section with a blue header.

Clear the **Archived** field if you want to make the form active again. The form will move back to the **Active Forms** list.

Delete a form:

☐ Under **Active Forms** (left):

- Hover over the new or existing form and click the delete icon.

You are prompted to confirm that you want to delete the form. Click **OK**.

NOTE: You cannot delete a form if it belongs to a group or if data exists for the form (i.e., if a parent has submitted changes associated with the form).
