ASCENDER ParentPortal - Enrollment, Registration & Data Updates

Parent Steps

Terminology

Be sure you are familiar with the following terminology:

Terminology:

- **New Student Enrollment** - The process of enrolling a student in the district for the first time in the current year.
- **Returning Student Registration** - The annual registration of returning students, including review and updates to student records such as demographic data updates and standard forms.

- **Student Data Maintenance** - The ongoing maintenance of records for existing students, such as changes to contact information.

Form Types:

- **Uploaded documents** cannot be updated online by parents; they can be viewed, printed, completed by hand, and returned to the campus. Uploaded documents forms will vary by campus and district, and can be delivered in various formats, such as Microsoft Word, PDF, spreadsheet, etc. Calendars are an example of static documents. **Any documents you upload should be ADA compliant.**
- **Dynamic forms** are presented online and can be completed and submitted online. These forms may include student online registration and demographic updates, as well as document attachment fields and uploads. Dynamic forms are built from a list of available fields. The list of available fields can be found later in the document.
- **Standard forms** are predefined district-level forms that are common throughout Texas. The forms cannot be edited, but you can determine whether or not they are available to parents by including (or excluding) them from groups. Most forms are submitted annually; the Home Language Survey only needs to be submitted once during the student's lifetime enrollment in the district.

FERPA and Directory Information Notice

Read the form carefully and complete the form with the best possible information.

NOTICE OF PARENT AND STUDENT RIGHTS FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA) and DIRECTORY INFORMATION

maintains general education records which are available to the parent, guardian, or person standing in lawful control of the student under a court order. Both parents/guardians have access to the records unless the school is in possession of a court order limiting access.

Federal law provides that student "educational records" are confidential. School records are defined as being directly related to a student and maintained by the school including, but not limited to: attendance, grades, discipline, test scores, health and immunization, and psychological or counseling records. Directory information is **not** confidential under FERPA.

Certain information about district students is considered directory information and will be released to anyone who follows the procedures for requesting the information unless the parent or guardian objects to the release of the directory information about the student. If you do not want to disclose directory information from your child's education records without your prior written consent, you must notify the district in writing by the tenth (10th) day of the school year.

has designated the following information as directory information: student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, degrees, honors and awards received, dates of attendance, grade level, most recent educational institution attended, participation in officially recognized activities and sports, and weight and height of members of athletic teams.

1. Student directory information is available to the public unless the parent/guardian restricts the release of the information. According to the Texas Public Information Act (TPIA), must release directory information promptly upon request and may not ask requestors the reason for the requested information. Parents/guardians have the right to restrict the release of directory information, but must do so in writing within the first ten (10) days of the school year or enrollment or see number 4 below.
2. Parents/guardians may alter their choice regarding directory information at any time by completing and submitting the Student Directory Release form found in the list on the left of this webpage to their child's school. Decisions regarding directory information will remain until a subsequent written request is made to alter the previous decision.
3. Parents with a Parent Portal account may review their child's privacy status and make changes if wanted. Privacy codes may also be changed any time by completing a Student Directory Information Release form (found in the list on the left of this webpage) and submitting it to their child's school.
4. Schools must notify parents and eligible students of their FERPA rights annually. In addition to this form, FERPA information is found in the Student/Parent Handbook available in both English and Spanish online at the district website or a paper copy, by request, from your child's school.

- **Custom forms** are forms that parents can complete and submit online. These forms include district-created questions which are not covered by dynamic and standard forms, such as polls, surveys, and event registration.

Before you Begin

The following information will assist you in implementing ASCENDER ParentPortal New Student Enrollment, Returning Student Registration, and Student Data Maintenance in your district.

Accessing the Tools & Assigning Staff

Determine who will be responsible for managing the tasks:

The Form Management setup steps must be completed by a user with a district admin login for ASCENDER ParentPortal. These setup steps cover New Student Enrollment, Returning Student Registration, and Student Data Maintenance.

Campus tasks such as enrolling students and accepting data changes must be completed by a user with access to the applicable pages in ASCENDER Registration. This user must have a role ID with appropriate access to necessary campuses and the following ASCENDER Registration pages:

New Student Enrollment:

- Registration > Maintenance > Online Registration > New Student Enrollment
- Registration > Maintenance > Parent Portal > Letters > Print > Letter Criteria
- Registration > Maintenance > Parent Portal > Letters > Print > Print Letters
- Registration > Maintenance > Student Enrollment > Forms (Be sure this tab is enabled in Security Admin.)

Returning Student Registration and Student Data Maintenance:

- Registration > Maintenance > Student Enrollment > Forms (Be sure this tab is enabled in Security Admin.)
- Registration > Maintenance > Online Registration > Register Student
- Registration > Maintenance > Online Registration > Pending Updates
- Registration > Reports > Registration Reports > Student > SRG0700 - Student Missing Forms
- Registration > Reports > Registration Reports > Student > SRG0710 - Standard Forms (Home Language Survey)
- Registration > Reports > Registration Reports > Student > SRG0720 - Online Registration Forms Related Reports
- Registration > Reports > Registration Reports > Student > SRG0730 - Percentage of Forms Submitted per Campus
- Registration > Reports > Registration Reports > Withdrawal > SRG2300 - Student Information Request

Planning Ahead

During the planning phase, contact your regional service center for assistance in developing your forms.

Discuss how your campus and district will implement New Student Enrollment (method and location).

- What method will you be using (CAPTCHA or email verification)?
- Where will you be hosting the enrollment event (campus, home, during a Kinder Roundup event or open house, etc.)

Determine who will be responsible for completing the form management setup and ongoing maintenance. It is recommended that 1 or 2 staff persons set up and maintain online forms.

Review all of the district's current registration documents, and compare them to the available forms.

- Determine whether static forms are needed, and which built-in dynamic and standard forms will be used.
- Make changes to built-in forms as needed.
- Determine if custom forms are needed using district-created questions.
- Contact your service center consultant for assistance with individual situations.

Develop a plan to explain how the returning student registration process will work.

It is recommended that you communicate in advance to parents that they need to verify that their ASCENDER ParentPortal account and email address are current. Recommendations:

- Send a letter to parents (or use messaging system) to notify them that Returning Student Registration will be available on xx/xx/xxx (or during a particular event). Example: The letter can be created from ASCENDER Registration > Reports > Create Registration Report. Select the student contact fields, create the report, and then filter the report by email and populate a mail merge with an electronic form template.
- Enable online student data updates before the Returning Student Registration event. This will give parents an opportunity and a reason to log on to ASCENDER ParentPortal, which may assist districts in reconciling ParentPortal account issues.
- **NOTE:** Registration > Maintenance > Student Enrollment > Contact: The **Email** field for contacts marked as **Parent/Guardian** must match for ALL students associated with the ParentPortal account in order for Registration features to be activated for the parent. This email address must also be the address entered on the parent's ParentPortal account and it must be validated.

Because custom instructions cannot be added to standard forms, consider creating a static form that is listed at the beginning of the standard forms which provides any instructions or additional information you would like to communicate to the parent before beginning the registration process.

Consider whether you need to have translators available for any enrollment events.

Troubleshooting Tools

The **Guardian Verified** field on Registration > Maintenance > Student Enrollment > Contacts can be used to allow verification of ParentPortal accounts for parents who do not have access to a valid email address.

If **Guardian Verified** is selected, the contact's email address can immediately be matched to the email address entered by the parent when registering for an ASCENDER ParentPortal account. If the two addresses match, the contact can complete online registration and update the student's data. This allows you to bypass the normal email verification process for short-term situations where the normal email address verification process cannot be completed.
