Campus: Accept Student & Issue ParentPortal ID

These steps are completed in TxEIS Registration.

As students are enrolled in the district via ASCENDER ParentPortal, administrators must review and accept each enrollment request, monitor forms and documents submitted by parents, complete the student's enrollment and assign a student ID, and provide each student's parent with a ParentPortal ID.

Campus: Accept Student & Issue ID (PDF) (prints separately)

Prerequisites:

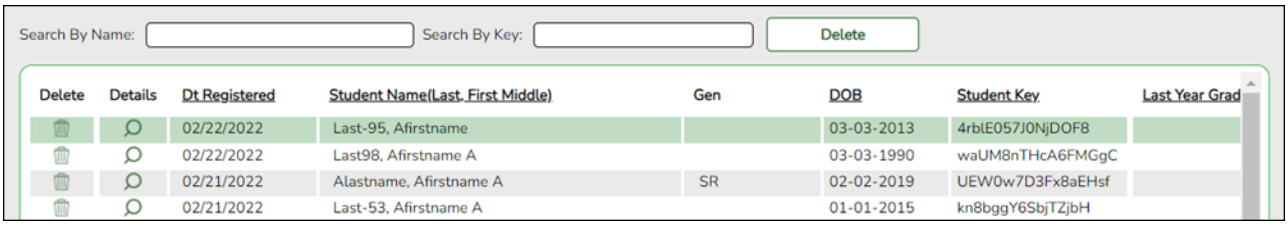

- The steps in this guide must be completed in Registration by a user who has access to those pages. Basic knowledge of the Registration application is assumed.
- Students must be enrolled in the district via New Student Enrollment in ParentPortal. See Parent: Enroll New Student.

1. Review enrollment request and assign ID.

   Registration > Maintenance > Online Registration > New Student Enrollment

   This page allows you to review pending new student enrollment requests received from ParentPortal.

   As students are enrolled online in ParentPortal, an administrator must review each enrollment request and create a record for each registered student.

   A list of new student enrollment requests received from ParentPortal is displayed.

- The list can be re-sorted.

IMPORTANT: Before accepting new students, campus staff should verify that the student has not been enrolled before. Go to ***Registration > Maintenance > Student Enrollment*** and click **Hist Directory** to access the Historical Directory, and search for the student.

It is possible that a student was enrolled with a different ID before. For example, the student may have been enrolled previously with a state-assigned ID, but has now been enrolled with a social security number. Check each student carefully to avoid creating duplicate enrollment records.

❑ To search for a new student enrollment record, do one of the following:

Search by Name	Type the student's first and last name.
Search by Key	Type the student's key. This number is generated by ParentPortal when the parent proceeds through the new student enrollment steps.

As you begin typing the name or key, a drop-down list displays records that match the characters you have typed. From the drop-down list you can select the record.

❑ Click  to view the details of a pending enrollment request.

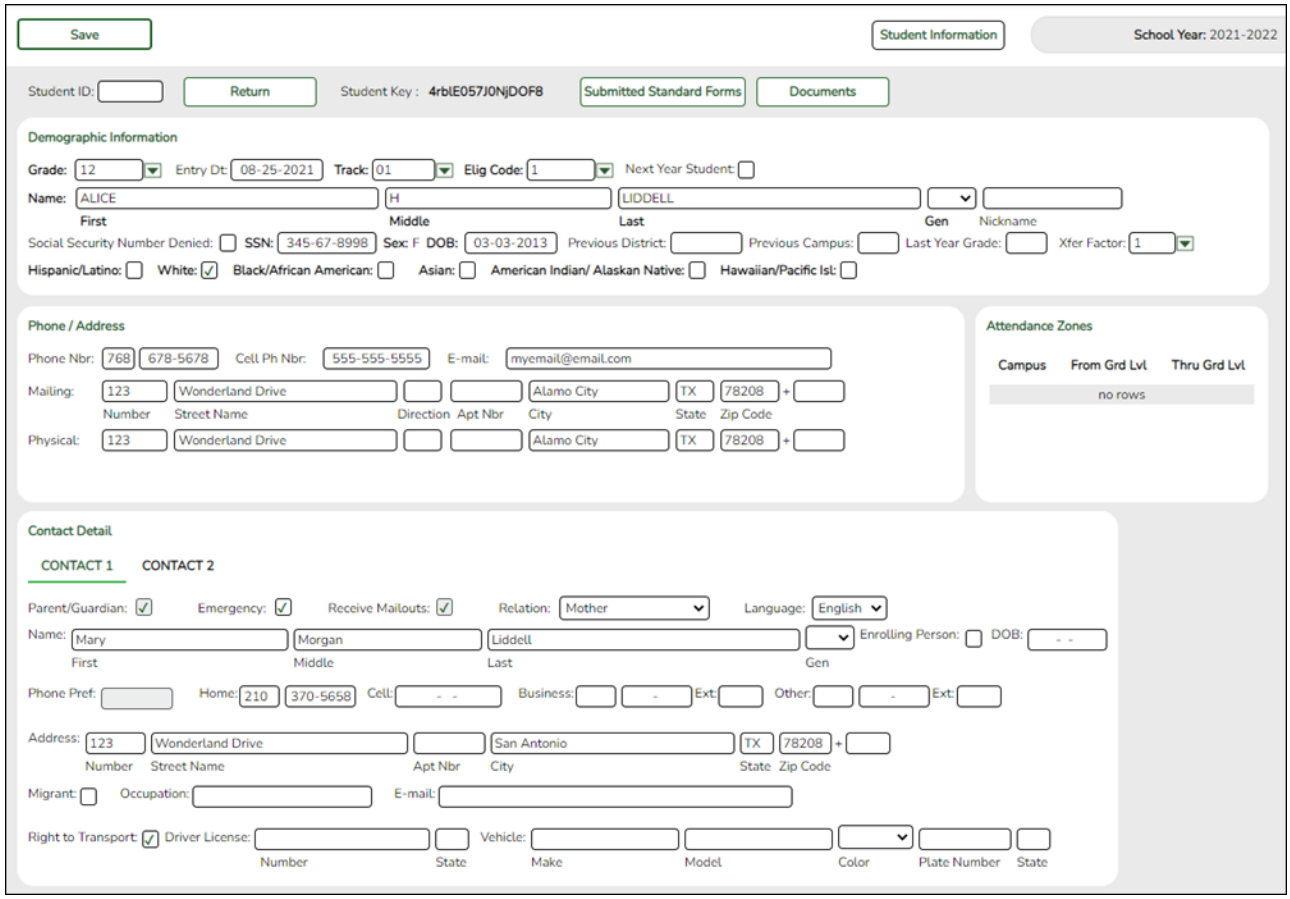

The student's enrollment record is displayed on ***Registration > Maintenance > Online Registration > New Student Enrollment***.

Registration > Maintenance > Online Registration > New Student Enrollment > Register Student

This page allows you to enroll a new student using the information that was entered by the student's parent in ParentPortal.

This initial data serves as the basis for a complete student record.

NOTE: Verify whether **Auto Assign Student ID** is set to automatic or manual assignment of student ID numbers on ***Registration Maintenance > District Profile > District Information > Control Info***.

Student ID	Verify whether student IDs are automatically or manually assigned, as indicated in the **Auto Assign Student ID** field on ***Registration > Maintenance > District Profile > District Information > Control Info***. • If student IDs are manually assigned, type a student ID. Leading zeros are not required. • If student IDs are automatically assigned, leave the field blank, and the system will assign the next available student ID when the record is saved.
Student Key	The enrollment key assigned to the student's enrollment record in ParentPortal is displayed.

☐ Under **Demographic Information**:

Grade	Select the student's grade level for the current school year.

Entry Dt	Type the student's enrollment date, which is the first date the student attended the campus. For students enrolling in the next school year, **Entry Dt** should be the last day of school in the current school year. When Annual Student Data Rollover (ASDR) occurs, this date will be converted to the first day of school in the upcoming school year.
Track	Select the attendance track in which to enroll the student.
Elig Code	Select the student's ADA eligibility code.
Next Year Student	Select if the student is enrolling for the next school year. If selected, the student's record will be saved with a record status 5 (i.e., *not currently in district will attend next year*). Since ASDR does not promote these students to the next grade level, **Grade** should be set to the next year grade level for any status 5 students.
