## Campus: Accept Student & Issue ParentPortal ID

These steps are completed in TxEIS Registration.

As students are enrolled in the district via ASCENDER ParentPortal, administrators must review and accept each enrollment request, monitor forms and documents submitted by parents, complete the student's enrollment and assign a student ID, and provide each student's parent with a ParentPortal ID.

### Campus: Accept Student & Issue ID

(PDF) (prints separately)

#### Prerequisites:

- The steps in this guide must be completed in Registration by a user who has access to those pages. Basic knowledge of the Registration application is assumed.
- Students must be enrolled in the district via New Student Enrollment in ParentPortal. See [Parent: Enroll New Student](#).

#### 1. [Review enrollment request and assign ID.](#)

### **Registration > Maintenance > Online Registration > New Student Enrollment**

This page allows you to review pending new student enrollment requests received from ParentPortal.

As students are enrolled online in ParentPortal, an administrator must review each enrollment request and create a record for each registered student.

A list of new student enrollment requests received from ParentPortal is displayed.

- [The list can be re-sorted.](#)

**IMPORTANT:** Before accepting new students, campus staff should verify that the student has not been enrolled before. Go to **Registration > Maintenance > Student Enrollment** and click **Hist Directory** to access the Historical Directory, and search for the student.

It is possible that a student was enrolled with a different ID before. For example, the student may have been enrolled previously with a state-assigned ID, but has now been enrolled with a social security number. Check each student carefully to avoid creating duplicate enrollment records.

- To search for a new student enrollment record, do one of the following:

<b>Search by Name</b>	Type the student's first and last name.
<b>Search by Key</b>	Type the student's key. This number is generated by ParentPortal when the parent proceeds through the new student enrollment steps.

As you begin typing the name or key, a drop-down list displays records that match the characters you have typed. From the drop-down list you can select the record.

- Click  to view the details of a pending enrollment request.

The student's enrollment record is displayed on **Registration > Maintenance > Online Registration > New Student Enrollment**.

---

**Registration > Maintenance > Online Registration > New Student Enrollment > Register Student**

This page allows you to enroll a new student using the information that was entered by the student's parent in ParentPortal.

This initial data serves as the basis for a complete student record.

**NOTE:** Verify whether **Auto Assign Student ID** is set to automatic or manual assignment of student ID numbers on **Registration Maintenance > District Profile > District Information > Control Info**.

With a valid ParentPortal ID, a parent can add a student to his ASCENDER ParentPortal account.

- If the district has enabled parents to complete online registration and/or update a student's current year data, a parent can complete registration and make changes to his student's data using forms available via ParentPortal.
  - See [Parent: Add/Register Student](#).
- As parents update data for their students, an administrator must review and approve each change.
