"What is the web address for my district's ParentPortal?"

The web address is unique to your district.

- Check the websites for your district or campus; often the ParentPortal address will be provided there.
- If you cannot locate the link, contact your student's campus or district to obtain the correct web address.

ASCENDER ParentPortal does not require a separate app to be downloaded. The ParentPortal uses a responsive design that adjusts to whatever screen you are using (PC, tablet, or phone).

- Access ParentPortal using the browser on the device you are currently using.

Contact your student's campus or district for the web address.
