## ASCENDER ParentPortal Admin > Admin Menu > Form Settings

This page is only available to users who log on to ASCENDER ParentPortal with a district- or campus-level security administrator user name.

This page allows you to enter district-level settings for Student Enrollment and Online Registration, and view form data.

### Student Enrollment Versus Online Registration:

- **Student Enrollment** refers to the one-time process of enrolling a new student in the district. Only forms in the *New Student Enrollment* group, and static printable forms, are used for new student enrollment.
- **Online Registration** refers to the annual maintenance of records for existing students (i.e., students already enrolled in the district), such as demographic data updates and form acknowledgement.
- **Student Data Updates** refers to the ongoing maintenance of records for existing students, such as changes to contact information.

## Access Control:

### Online Registration

These fields enable annual Online Registration:
