**Note the standard forms:**

# Table of Contents

This page allows you to create new forms, as well as delete and edit existing forms. Two types of forms can be created:

- **Static forms** can be created using the static documents you have already uploaded.
- **Dynamic forms** can be created using the fields you selected in previous steps.

**Standard forms** are predefined district-level forms that are common throughout Texas. The forms are included automatically and cannot be edited.

A form must be added to a group (or to the [Online Registration template](#)) in order to be accessible to parents. You will [add the form to a group](#) or to the [Online Registration template](#) in a subsequent step.

**Form Management**  
This is where you can add new forms or edit and delete existing forms.

### Available Forms (right)

Any existing forms are listed, including those that are added automatically.

Initially, only standard forms and “New Student” forms are included. These are included automatically and cannot be removed.

The grid displays the form name, type of form (i.e., standard, static, or dynamic), and the campus with which the form is associated (if applicable). If **Campus** is blank, the form is associated with all campuses in the district.

## Create a new form:

### 1. Create a new form using a static document.

If you uploaded any static documents, you must create a form with each document in order to make it accessible to parents.

**NOTE:** To create a Spanish version of a static form, you will need to set the **Current Language Context** for the form to *Spanish*. This will be done in a subsequent step using the Form Editor page once the static form is created.

To create a static form, do the following under **New Form**:

### Form Management

This is where you can add new forms or edit and delete existing forms.

The text box displays any text entered on the previous page. Modify the text if necessary, up to 2000 characters.

**Form Fields****Field Name**

Select the table-field you want to add to the form. The drop down lists all possible fields, including the field name, sequence number (if applicable), and table name.

Once you select a table-field, all subsequent fields that you add to the form must come from the same type of table (either vertical with multiple records, or single record). The drop-down list in the subsequent rows will filter out the tables that can no longer be selected based on the selection in the first row.

- A hyphen indicates a flat (single-record) table.
- An asterisk indicates a vertical (multi-record) table.

For vertical table, some fields are mandatory, and they will automatically be added to the form even if you do not select them.

**Mandatory fields:**

Table	Mandatory Fields
SR_PARENT	NAME_L NAME_F NAME_M
SR_HLTH_MED_COND	MED_COND_CD
SR_STU_RESTRICT	STU_RESTRICT_CD STU_RESTRICT_CATEG_CD (iTCCS only)
SR_DEMO	PAR1_NAME_L PAR1_NAME_F PAR1_NAME_M PAR2_NAME_L PAR2_NAME_F PAR2_NAME_M
SR_DEMO_CONTACT	NAME_L NAME_F NAME_M SEQ_NBR (iTCCS only)

**Form field edits:**

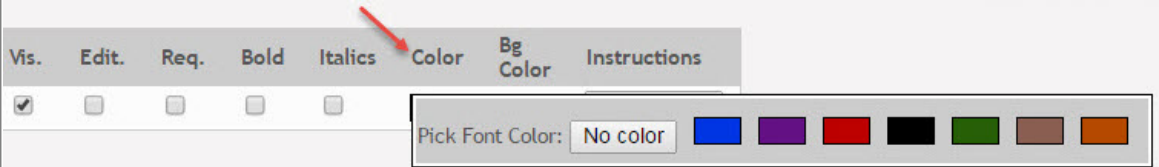

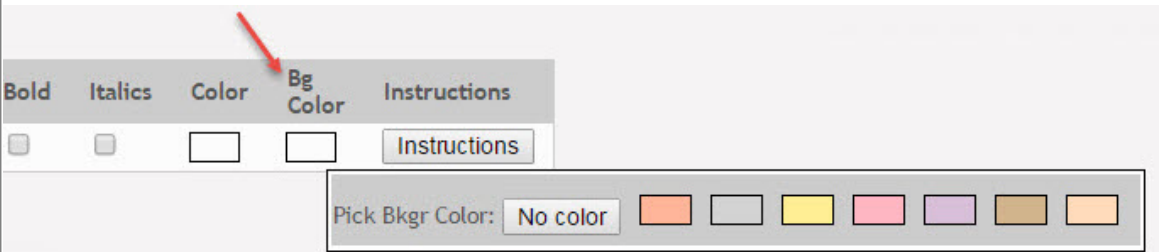

The following fields will have edits when used on a dynamic form:

- If a column has a DATA\_TYP of STATE in DR\_ORD\_OPT\_TYP, the entry will appear as a drop-down list with all of the US states, territories, and insular areas spelled out. When one is

selected, the standard two-character postal abbreviation is stored in the table.

- If a column has a DATA\_TYP of NUMERIC in DR\_ORD\_OPT\_TYP, the data entered by the user is checked to ensure that there are no invalid characters. It allows either all numbers or spaces. No alpha or special characters are allowed.
- If a column has a DATA\_TYP of DATE in DR\_ORD\_OPT\_TYP, the data is masked to force the format MM/DD/YYYY and checked to verify that it is a valid date. For example, 02/31/1995 is not a valid date, even though it is numeric and in the correct format.
- For a DATA\_TYP of AREACODE, the data is masked to force the format ###.
- For a DATA\_TYP of PHONENUM, the data is masked to force the format ###-####.
- For a DATA\_TYP of ZIP5, the data is masked to force the format #####.
- For a DATA\_TYP of ZIP4, the data is masked to force the format #####.
- For a DATA\_TYP of SSN, the data is masked to force the format ###-##-####.
- In any cases where there are special characters in the display mask on the page, the characters are removed before saving to the SR\_ORD table. Also, the date is reformatted to the format YYYYMMDD before saving.
- For a DATA\_TYP of EMAIL, the data is checked to ensure that it fits a standard email format. It must have at least one character before an "@" symbol, at least one character between the "@" and the final period, and at least two characters after the final period. For example, the smallest email address that would be considered valid is a@b.cd. There can be multiple periods in the address (e.g., first.last@email.net).
- If a column has an HTML\_TYP of DROPDOWN and includes the name of a lookup table, lookup ID, and value fields, the drop down is populated from that table.
- If a column has an HTML\_TYP of RADIO\_YN, it displays as ☐Y ☐N.
- If a column has an HTML\_TYP of TEXT, and a FLD\_LEN is given, the text entered into the field is limited to the number of characters specified in FLD\_LEN.

<b>Friendly Name</b>	The default friendly name is displayed. If you selected <i>Spanish</i> for <b>Current Language Context</b> , the default friendly names are Spanish. Modify the name as needed, up to 50 characters.
<b>Order</b>	Indicate the order in which you want the fields to be displayed on the form. For example, type 1 if you want to field to be displayed at the top of the form.

<b>Field Set</b>	<p>Use this column to group related fields together in the form. For example, you could type "Mailing Address" for all fields that are related to the student's mailing address.</p> <p>The fields that you want to physically group together should also be together as indicated by the <b>Order</b> field. The fields with the same <b>Field Set</b> are grouped together in a box, but only if they are adjacent in the order. The box is drawn around one or more sequential fields that have a <b>Field Set</b> specified.</p> <p>The field set should be typed in the language selected in <b>Current Language Context</b>. If a Spanish field set name is not provided, the English field set name will be displayed even if the parent is viewing txConnect in Spanish.</p>
<b>Vis</b>	Select if you want the field to be visible to parents on the form. Clear the check box if you do not want the field visible to parents. For example, you can hide the four-digit zip code extension. The setting of this field overrides all other visibility settings.
<b>Edit</b>	<p>Select to allow parents to update data in this field from the form.</p> <ul style="list-style-type: none"> <li>• If selected, the form field will be editable, but only if the field is also set to <b>Updateable=true</b> on the <a href="#">Form Field Management</a> page.</li> <li>• If <i>not</i> selected, this will override the other setting, and the form field will not be editable.</li> <li>• This setting does not apply to <i>New Student</i> forms.</li> </ul>
<b>Req</b>	Select if the field is required of the parents. If this field is selected, be sure <b>Edit</b> is also selected.
<b>Bold</b>	Select if you want the field to be displayed in a bold font.
<b>Italics</b>	Select if you want the field to be displayed in an italic font.
<b>Color</b>	<p>Click the box to select a color for the field text, if you prefer a color other than black. A pop-up window opens that provides seven color choices, as well as the option for no color (i.e., black).</p>  <p>Click a color to select it, and the window closes.</p>
<b>Bg Color</b>	<p>Click the box to select a background color for the field. A pop-up window opens that provides seven background color choices, as well as the option for no color.</p>  <p>Click a color to select it, and the window closes.</p> <p>The form is automatically shaded with an alternating (light/dark) gray background when displayed for parents in txConnect. If you do not select a color, or if you select <b>No Color</b>, the background will be gray.</p>

## Instructions
