Before You Begin

Before you begin

The following information will assist you in implementing txConnect New Student Enrollment, Online Registration, and student data updates in your district.

Accessing the Tools & Assigning Staff

Determine who will be responsible for managing the tasks:

- The txConnect Forms Management setup steps must be completed by a user with a district admin login for txConnect. These setup steps cover New Student Enrollment, Online Registration, and student data updates.
- Campus tasks such as enrolling students and accepting data changes must be completed by a user with access to the applicable pages in TxEIS Registration. This user must have a role ID with appropriate access to necessary campuses and the following TxEIS Registration pages:

New Student Enrollment:

- Registration > Maintenance > Online Registration > New Student Enrollment
- Registration > Maintenance > Parent Portal > Letters > Print > Letter Criteria
- Registration > Maintenance > Parent Portal > Letters > Print > Print Letters
- Registration > Maintenance > Student Enrollment > Forms (Be sure this tab is enabled in Security Admin.)

Online Registration and student data updates:

- Registration > Maintenance > Student Enrollment > Forms (Be sure this tab is enabled in Security Admin.)
- Registration > Maintenance > Online Registration > Register Student
- Registration > Maintenance > Online Registration > Pending Updates
- Registration > Reports > Registration Reports > Student > SRG0700 - Student Missing Forms
- Registration > Reports > Registration Reports > Student > SRG0710 - Standard Forms (Home Language Survey)
- Registration > Reports > Registration Reports > Student > SRG0720 - Online Registration Forms Related Reports
- Registration > Reports > Registration Reports > Student > SRG0730 - Percentage of Forms Submitted per Campus

Planning Ahead

- During the planning phase, contact your regional service center for assistance in developing your forms.
- Discuss how your campus and district will implement New Student Enrollment (method and

location).

- What method will you be using (CAPTCHA or email verification)?
- Where will you be hosting the enrollment event (campus, home, during a Kinder Roundup event or open house, etc.)

Determine who will be responsible for completing the forms management setup and ongoing maintenance. It is recommended that 1 or 2 staff persons set up and maintain online forms.

Review all of the district's current registration documents, and compare them to the standard forms.

- Determine whether static forms are needed, and which built-in dynamic and standard forms will be used.
- Make changes to built-in forms as needed.
- Contact your service center consultant for assistance with individual situations.

Develop a plan to explain how the online registration process will work.

It is recommended that you communicate in advance to parents that they need to verify that their txConnect account and email address are current. Recommendations:

- Send a letter to parents (or use messaging system) to notify them that Online Registration will be available on xx/xx/xxx (or during a particular event). Example: The letter can be created from TxEIS Registration > Reports > Create Registration Report. Select the student contact fields, create the report, and then filter the report by email and populate a mail merge with an electronic form template.
- Enable online student data updates before the Online Registration event. This will give parents an opportunity and a reason to log on to txConnect, which may assist districts in reconciling txConnect account issues.

Consider whether you need to have translators available for any enrollment events.

Troubleshooting Tools

The **Guardian Verified** field on Registration > Maintenance > Student Enrollment > Contacts can be used to allow verification of txConnect accounts for parents who do not have access to a valid email address.

If **Guardian Verified** is selected, the contact's email address can immediately be matched to the email address entered by the parent when registering for a txConnect account. If the two addresses match, the contact can complete online registration and update the student's data. This allows you to bypass the normal email verification process for short-term situations where the normal email address verification process cannot be completed.

Terminology

Be sure you are familiar with the following terminology:

- **New Student Enrollment** - The one-time process of enrolling a new student in the district.
- **Online Student Registration** - The annual review and updates to student records for existing students (i.e., students already enrolled in the district), such as demographic data updates and standard forms.
- **Student Data Updates** - The ongoing maintenance of records for existing students, such as changes to contact information.

Form types:

- **Static forms** cannot be updated online by parents; they can be viewed, printed, completed by hand, and returned to the campus. Static forms will vary by campus and district, and can be delivered in various formats, such as Microsoft Word, PDF, spreadsheet, etc. Calendars are an example of static documents. **Any static forms you upload should be ADA compliant.**
 - [screen shot:](#)

- **Dynamic forms** are presented online and can be completed and submitted online. These forms may include student online registration and demographic updates, as well as document attachment fields and uploads. Dynamic forms are built from a list of available fields.

The forms cannot be edited, but you can determine whether or not they are available to parents by including (or excluding) them from groups. Most forms are submitted annually; the Home Language Survey only needs to be submitted once during the student's lifetime enrollment in the district.

School district staff and parents or guardians of students enrolling in school are requested to provide this information. If you decline to provide this information, please be aware that the USDE requires school districts to use observer identification as a last resort for collecting the data for federal reporting.

- [FERPA and Directory Information Notice:](#)

Mockingbird ISD

**NOTICE OF PARENT AND STUDENT RIGHTS
FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)
and DIRECTORY INFORMATION**

Mockingbird ISD maintains general education records which are available to the parent, guardian, or person standing in lawful control of the student under a court order. Both parents/guardians have access to the records unless the school is in possession of a court order limiting access.

Federal law provides that student "educational records" are confidential. School records are defined as being directly related to a student and maintained by the school including, but not limited to: attendance, grades, discipline, test scores, health and immunization, and psychological or counseling records. Directory information **is not** confidential under FERPA.

Certain information about district students is considered directory information and will be released to anyone who follows the procedures for requesting the information unless the parent or guardian objects to the release of the directory information about the student. If you do not want Mockingbird ISD to disclose directory information from your child's education records without your prior written consent, you must notify the district in writing by the tenth (10th) day of the school year.

Mockingbird ISD has designated the following information as directory information: student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, degrees, honors and awards received, dates of attendance, grade level, most recent educational institution attended, participation in officially recognized activities and sports, and weight and height of members of athletic teams.

- 1. Student directory information is available to the public unless the parent/guardian restricts the release of the information.** According to the Texas Public Information Act (TPIA), Mockingbird ISD must release directory information promptly upon request and may not ask requestors the reason for the requested information. Parents/guardians have the right to restrict the release of directory information, but must do so in writing within the first ten (10) days of the school year or enrollment or see number 4 below.
2. Parents/guardians may alter their choice regarding directory information at any time by completing and submitting the Student Directory Release form found in the list on the left of this webpage to their child's school. Decisions regarding directory information will remain until a subsequent written request is made to alter the previous decision.
3. Parents with a Parent Portal account may review their child's privacy status and make changes if wanted. Privacy codes may also be changed any time by completing a Student Directory Information Release form (found in the list on the left of this webpage) and submitting it to their child's school.
4. Schools must notify parents and eligible students of their FERPA rights annually. In addition to this form, FERPA information is found in the Student/Parent Handbook available in both English and Spanish online at the district website or a paper copy, by request, from your child's school.

- [Food Allergy Disclosure:](#)

Before you begin

Mockingbird ISD **Food Allergy Disclosure**

Dear Parents,

The Mockingbird ISD is required to request, at the time of enrollment, that the parent or guardian of each student attending a Mockingbird ISD school disclose the student's food allergies. This form will satisfy this requirement.

This form allows you to disclose whether your child has a food allergy or severe food allergy that you believe should be disclosed to the Mockingbird ISD in order to enable Mockingbird ISD to take necessary precautions for your child's safety.

"Severe food allergy" means a dangerous or life-threatening reaction of the human body to a food-borne allergen introduced by inhalation, ingestion, or skin contact that requires immediate medical attention.

Please list any foods to which your child is allergic or severely allergic, as well as the nature of your child's allergic reaction to the food. The nurse will contact you for a note from your physician if your child has food allergies. The school must have an EpiPen prescribed for student in the event of an emergency.

FOOD:

Nature of allergic reaction to the food:

Mockingbird ISD will maintain the confidentiality of this form and the information provided above and may disclose the information to teachers, school counselors, school nurses, and other appropriate school personnel only within the limitations of the Family Educational Rights and Privacy Act and district Policy. - [FERPA and Directory Information Notice:](#)

Mockingbird ISD

***NOTICE OF PARENT AND STUDENT RIGHTS
FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)
and DIRECTORY INFORMATION***

Mockingbird ISD maintains general education records which are available to the parent, guardian, or person standing in lawful control of the student under a court order. Both parents/guardians have access to the records unless the school is in possession of a court order limiting access.

Federal law provides that student "educational records" are confidential. School records are defined as being directly related to a student and maintained by the school including, but not limited to: attendance, grades, discipline, test scores, health and immunization, and psychological or counseling records. Directory information **is not** confidential under FERPA.

Certain information about district students is considered directory information and will be released to anyone who follows the procedures for requesting the information unless the parent or guardian objects to the release of the directory information about the student. If you do not want Mockingbird ISD to disclose directory information from your child's education records without your prior written consent, you must notify the district in writing by the tenth (10th) day of the school year.

Mockingbird ISD has designated the following information as directory information: student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, degrees, honors and awards received, dates of attendance, grade level, most recent educational institution attended, participation in officially recognized activities and sports, and weight and height of members of athletic teams.

- 1. Student directory information is available to the public unless the parent/guardian restricts the release of the information.** According to the Texas Public Information Act (TPIA), Mockingbird ISD must release directory information promptly upon request and may not ask requestors the reason for the requested information. Parents/guardians have the right to restrict the release of directory information, but must do so in writing within the first ten (10) days of the school year or enrollment or see number 4 below.
2. Parents/guardians may alter their choice regarding directory information at any time by completing and submitting the Student Directory Release form found in the list on the left of this webpage to their child's school. Decisions regarding directory information will remain until a subsequent written request is made to alter the previous decision.
3. Parents with a Parent Portal account may review their child's privacy status and make changes if wanted. Privacy codes may also be changed any time by completing a Student Directory Information Release form (found in the list on the left of this webpage) and submitting it to their child's school.
4. Schools must notify parents and eligible students of their FERPA rights annually. In addition to this form, FERPA information is found in the Student/Parent Handbook available in both English and Spanish online at the district website or a paper copy, by request, from your child's school.

2. [Upload static documents.](#)

[txConnect Admin](#) > [Administrator Options](#) > [Settings](#) > [Forms Management](#) > [Static Documents](#)

This page allows you to maintain a pool of read-only forms that parents can view and print as needed. Static forms are documents that cannot be updated online; they can be viewed, printed, completed by hand, and returned to the campus. These forms will vary by district and campus and may include documents such as campus and district calendars, school supply lists, acknowledgement forms, or surveys.

From the Static Documents page, you can upload forms from your PC to the txConnect server. Parents will be able to access these forms from txConnect for new student enrollment, annual student registration, and ongoing student data maintenance.

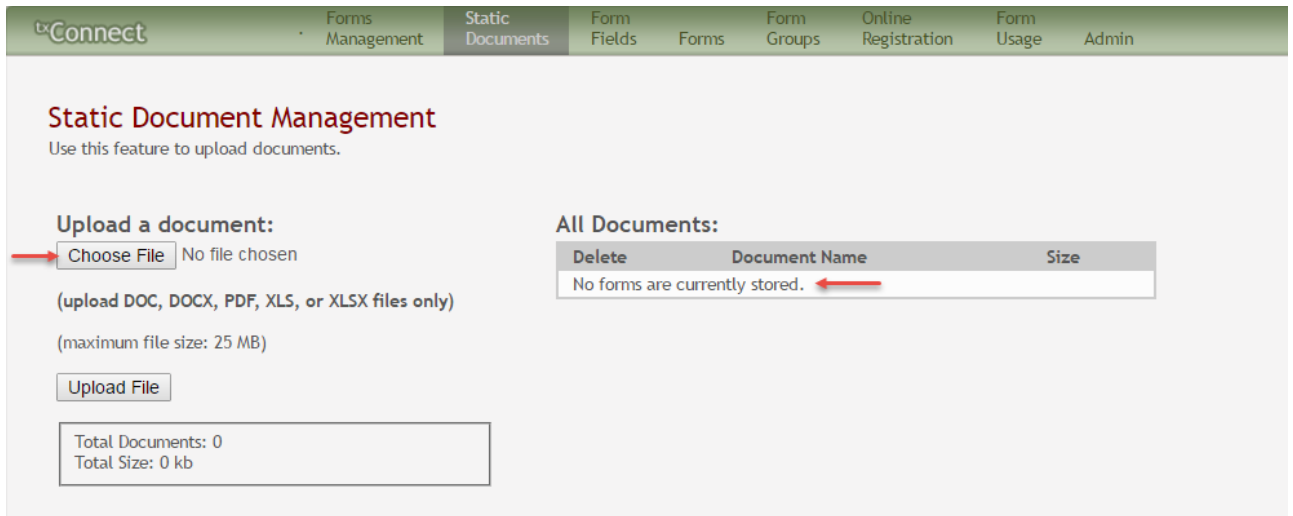

Your static forms should be ADA compliant.

You can upload documents in the following formats:

- .doc or .docx (Microsoft Word)
- .pdf (Adobe Acrobat)
- .xls or .xlsx (Microsoft Excel)

- On this page, you will only upload the documents. You will create a form for each document in a subsequent step using the [Form Management](#) page.
- If you will be creating English and Spanish versions of static forms, you must

upload an English and Spanish version of each form.

Upload a document to the txConnect server:

Upload a document Click **Choose File**.

Locate and select the form you want to upload. The file name is displayed.

Click **Upload File** to upload the selected file to the txConnect server.

All Documents (right grid) Once uploaded, the file name and file size are displayed.

Upload additional files as needed. They are listed alphabetically.

You are prompted to confirm that you want to delete the file. Click **OK**.

You cannot delete a document if it is in use (i.e., added to a form).

3. [Edit student data fields.](#)

[txConnect Admin](#) > [Administrator Options](#) > [Settings](#) > [Forms Management](#) > [Form Fields](#)

This page allows you to set options for the fields that will be used for student enrollment, registration, and data update forms. Examples of fields are first name, last name, middle name, and birth date.

The list of **Available Fields** is added automatically. For each field, you indicate if the field is visible and add any instructions. By default, all fields are visible and no action is required; however you can hide a field globally and/or add default instructions as needed.

Some districts allow you to select document storage (DOCSTOR_) fields which allow parents to upload supporting registration forms (immunization record, birth certificate, etc.).

[Available Fields:](#)

NOTES:

- Default friendly names are initially provided in the program, but they can be changed by administrators as needed. This list reflects the names initially provided.
- Field names that begin with DOCSTOR_ can be added to a form to allow parents to upload these documents. If the txConnect-provided standard forms are used in your district, it may not be necessary to use DOCSTOR_ fields for these particular forms.
- Field names that begin with MOCK_ are reserved for New Student Enrollment forms and cannot be selected for any other dynamic forms.

[txConnect Admin](#) > [Administrator Options](#) > [Settings](#) > [Forms Management](#) > [Forms](#)

This page allows you to create new forms, as well as delete and edit existing forms. Two types of forms can be created:

- **Static forms** can be created using the static documents you have already uploaded.
- **Dynamic forms** can be created using the fields you selected in previous steps.

Standard forms are predefined district-level forms that are common throughout Texas. The forms are included automatically and cannot be edited.

A form must be added to a group (or to the [Online Registration template](#)) in order to be accessible to parents. You will [add the form to a group](#) or to the [Online Registration template](#) in a subsequent step.

Form Fields

Add the fields to the form. You must add at least one field to a form for the form to be valid.

Click either **Add** button to add a new column to the form.

A row is displayed in the grid.

Field Name

Select the table-field you want to add to the form. The drop down lists all possible fields, including the field name, sequence number (if applicable), and table name.

Once you select a table-field, all subsequent fields that you add to the form must come from the same type of table (either vertical with multiple records, or single record). The drop-down list in the subsequent rows will filter out the tables that can no longer be selected based on the selection in the first row.

- A hyphen indicates a flat (single-record) table.
- An asterisk indicates a vertical (multi-record) table.

For vertical table, some fields are mandatory, and they will automatically be added

to the form even if you do not select them.

Mandatory fields:

Table	Mandatory Fields
SR_PARENT	NAME_L NAME_F NAME_M
SR_HLTH_MED_COND	MED_COND_CD
SR_STU_RESTRICT	STU_RESTRICT_CD STU_RESTRICT_CATEG_CD (iCCCS only)

SR_DEMO_CONTACT	NAME_L NAME_F NAME_M SEQ_NBR (iCCCS only)

Form field edits:

The following fields will have edits when used on a dynamic form:

- If a column has a DATA_TYP of STATE in DR_ORD_OPT_TYP, the entry will appear as a drop-down list with all of the US states, territories, and insular areas spelled out. When one is selected, the standard two-character postal abbreviation is stored in the table.
- If a column has a DATA_TYP of NUMERIC in DR_ORD_OPT_TYP, the data entered by the user is checked to ensure that there are no invalid characters. It allows either all numbers or spaces. No alpha or special characters are allowed.
- If a column has a DATA_TYP of DATE in DR_ORD_OPT_TYP, the data is masked to force the format MM/DD/YYYY and checked to verify that it is a valid date. For example, 02/31/1995 is not a valid date, even though it is numeric and in the correct format.
- For a DATA_TYP of AREACODE, the data is masked to force the format ###.
- For a DATA_TYP of PHONENUM, the data is masked to force the format ###-####.
- For a DATA_TYP of ZIP5, the data is masked to force the format #####.
- For a DATA_TYP of ZIP4, the data is masked to force the format ####.
- For a DATA_TYP of SSN, the data is masked to force the format ###-##-####.

- In any cases where there are special characters in the display mask on the page, the characters are removed before saving to the SR_ORD table. Also, the date is reformatted to the format YYYYMMDD before saving.
- For a DATA_TYP of EMAIL, the data is checked to ensure that it fits a standard email format. It must have at least one character before an “@” symbol, at least one character between the “@” and the final period, and at least two characters after the final period. For example, the smallest email address that would be considered valid is a@b.cd. There can be multiple periods in the address (e.g., first.last@email.net).
- If a column has an HTML_TYP of DROPDOWN and includes the name of a lookup table, lookup ID, and value fields, the drop down is populated from that table.
- If a column has an HTML_TYP of RADIO_YN, it displays as Y N.
- If a column has an HTML_TYP of TEXT, and a FLD_LEN is given, the text entered into the field is limited to the number of characters specified in FLD_LEN.

8. [Set up Online Registration.](#)

[txConnect Admin > Administrator Options > Settings > Forms Management > Online Registration](#)

This page allows district-level users to create a template (i.e., set of forms) for student online registration.

Online Registration refers to forms required annually for students, which is not the same as New Student Enrollment.

When Online Registration is enabled at the district, these forms will be displayed to parents when they are logged on to txConnect, and will have notifications indicating which forms are completed and which still require the parent’s attention.

Initially no forms are listed on the right side of the page.

Available Forms (left)

The list includes all existing district-level forms (created on the [Form Management](#) page), excluding campus-level forms and forms that are specifically for New Student Enrollment.

Stc. = Static form

Dym. = Dynamic form

Std. = Standard form

By default, the *Registration* form is included, which contains all possible fields a parent may need to review annually.

TIP: It is recommended that districts create a customized registration form (using the [Form Management](#) page) for annual online registration that includes only the fields that districts want parents to review annually.

Also, the *Home Language Survey* standard form, which is required for new student enrollment, is only required once when the student enrolls in the district. This form is not listed for Online Registration.

To add a form to the Online Registration template, click the blue arrow  next to the form you want to add.

The screenshot shows the 'Available Forms' list on the left with three items: 'EMERGENCY CONTACTS' (Dynamic form), 'ETHNICITY AND RACE DATA QUESTIONNAIRE' (Standard form), and 'FALSIFICATION OF DOCUMENTS & IDENTITY' (Standard form). The 'EMERGENCY CONTACTS' form has a blue arrow icon next to it, which is circled in red. To the right, the 'Online Registration Date Range' configuration is shown, with fields for 'Beginning on: 3/26/2018', 'Ending on: 5/11/2018', and 'School Year:'. Below this, a blue arrow points left towards the text 'To start creating an Online Registration template select'.

The form moves to the right.

The screenshot shows the 'Step 1: Emergency Contacts' configuration screen. The 'Available Forms' list on the left now includes 'ETHNICITY AND RACE DATA QUESTIONNAIRE', 'FALSIFICATION OF DOCUMENTS & IDENTITY VERIFICATION', 'FERPA AND DIRECTORY INFORMATION NOTICE', 'FOOD ALLERGY DISCLOSURE', and 'HISTORY OF'. The 'EMERGENCY CONTACTS' form is now listed as 'Step 1' in the 'Available Forms' list. The 'Online Registration Date Range' configuration is shown with 'Beginning on: 3/26/2018', 'Ending on: 5/11/2018', and 'School Year: 2019'. Below this, the 'Step 1: Emergency Contacts' configuration is shown, with a 'Dynamic' form type, a 'Remove Step' button, and 'Move Up' and 'Move Down' buttons. The text 'Please update Emergency Contact information.' is displayed in a text area.

The first form you add is listed as **Step 1**. The next form you add is **Step 2**, and so on.

Review enrollment requests:

As students are enrolled online in txConnect, an administrator must review each enrollment request, create a record for each registered student, and assign a Student Portal ID to each student.

See the following guides:

- [txConnect Parent: New Student Enrollment](#)
- [TxEIS Registration: Enroll a New Student from txConnect](#)

Review student demographic change requests and form submission:

As parents update data for their students and/or complete online registration, campus staff must

review and approve each data change. As parents submit data and forms from txConnect, the campus staff can monitor the status and identify students who are missing required forms. These tasks are handled in the Student (iTCCS or TxEIS) Registration application.

See the following guides:

View form usage:

The [Form Usage](#) page in txConnect Forms Management provides the following access:

- **Usage Statistics** - Displays statistical information about form usage by parent and form.
- **Individual Form Information** - Allows you to view the number of acceptance records for a specific form by district, campus, or parent.

TxEIS Registration: Enroll a New Student from txConnect

As students are enrolled in the district via the New Student Enrollment wizard in txConnect, administrators must review and accept each enrollment request, monitor forms and documents submitted by parents, complete the student's enrollment and assign a student ID, and provide each student's parent with a Student Portal ID. These steps must be completed in TxEIS Registration.

Prerequisites:

- The steps in this guide must be completed in TxEIS Registration by a user who has access to those pages. Basic knowledge of the TxEIS Registration application is assumed.
- Students must be enrolled according to the process described in the [txConnect Parent: New Student Enrollment guide](#).

1. [Review enrollment request and assign ID.](#)

[Registration](#) > [Maintenance](#) > [Online Registration](#) > [New Student Enrollment](#)

This page allows you to review pending new student enrollment requests received from the txConnect parent portal.

As students are enrolled online in txConnect, an administrator must review each enrollment request and create a record for each registered student.

Search By Name: Search By Key: [Delete](#)

Delete	Details	Dt Registered	Student Name(Last, First Middle)	Gen	DOB	S
		02/07/2018	Holland, Barry Gibb		01-19-2004	Cp3re
		02/02/2018	J, Prasanthi		08-23-2002	Ds9Qj
		02/02/2018	I, Privanka		07-25-2003	i9v5fr

A list of new student enrollment requests received from txConnect is displayed.

- [The list can be re-sorted.](#)

IMPORTANT: Before accepting new students, campus staff should verify that the student has not been enrolled before. Go to the [Student Enrollment](#) page and click **Hist Directory** to access the Historical Directory, and search for the student.

It is possible that a student was enrolled with a different ID before. For example, the student may have been enrolled previously with a state-assigned ID, but has now been enrolled with a social security number. Check each student carefully to avoid creating duplicate enrollment records.

To search for a new student enrollment record, do one of the following:

Search by Name	Type the student's first and last name.
Search by Key	Type the student's key. This number is generated by txConnect when the parent proceeds through the new student enrollment steps.

As you begin typing the name or key, a drop-down list displays records that match the characters you have typed. From the drop-down list you can select the record.

 Click  to view the details of a pending enrollment request. The student's enrollment record is displayed on the [Register Student](#) page.

[Registration > Maintenance > Online Registration > New Student Enrollment > Register Student](#)

This page allows you to enroll a new student using the information that was entered by the student's parent/guardian in the txConnect parent portal.

This initial data serves as the basis for a complete student record.

NOTE: Verify whether **Auto Assign Student ID** is set to automatic or manual assignment of student ID numbers on [Maintenance > District Profile > District Information > Control Info](#).

What Happens Next?

With a valid Student Portal ID, a parent can add a student to his txConnect account.

If the district has enabled parents to complete online registration and/or update a student's current year data, a parent can complete online registration and make changes to his student's data using forms available via txConnect.

- See the [txConnect Parent: Registration and Data updates](#) guide.

As parents update data for their students, an administrator must review and approve each change.

txConnect Parent: Registration and Data Updates

txConnect allows parents to complete annual Online Registration for students enrolled in the district. Parents can also update data for the current year, such as an address or telephone number change.

Prerequisites:

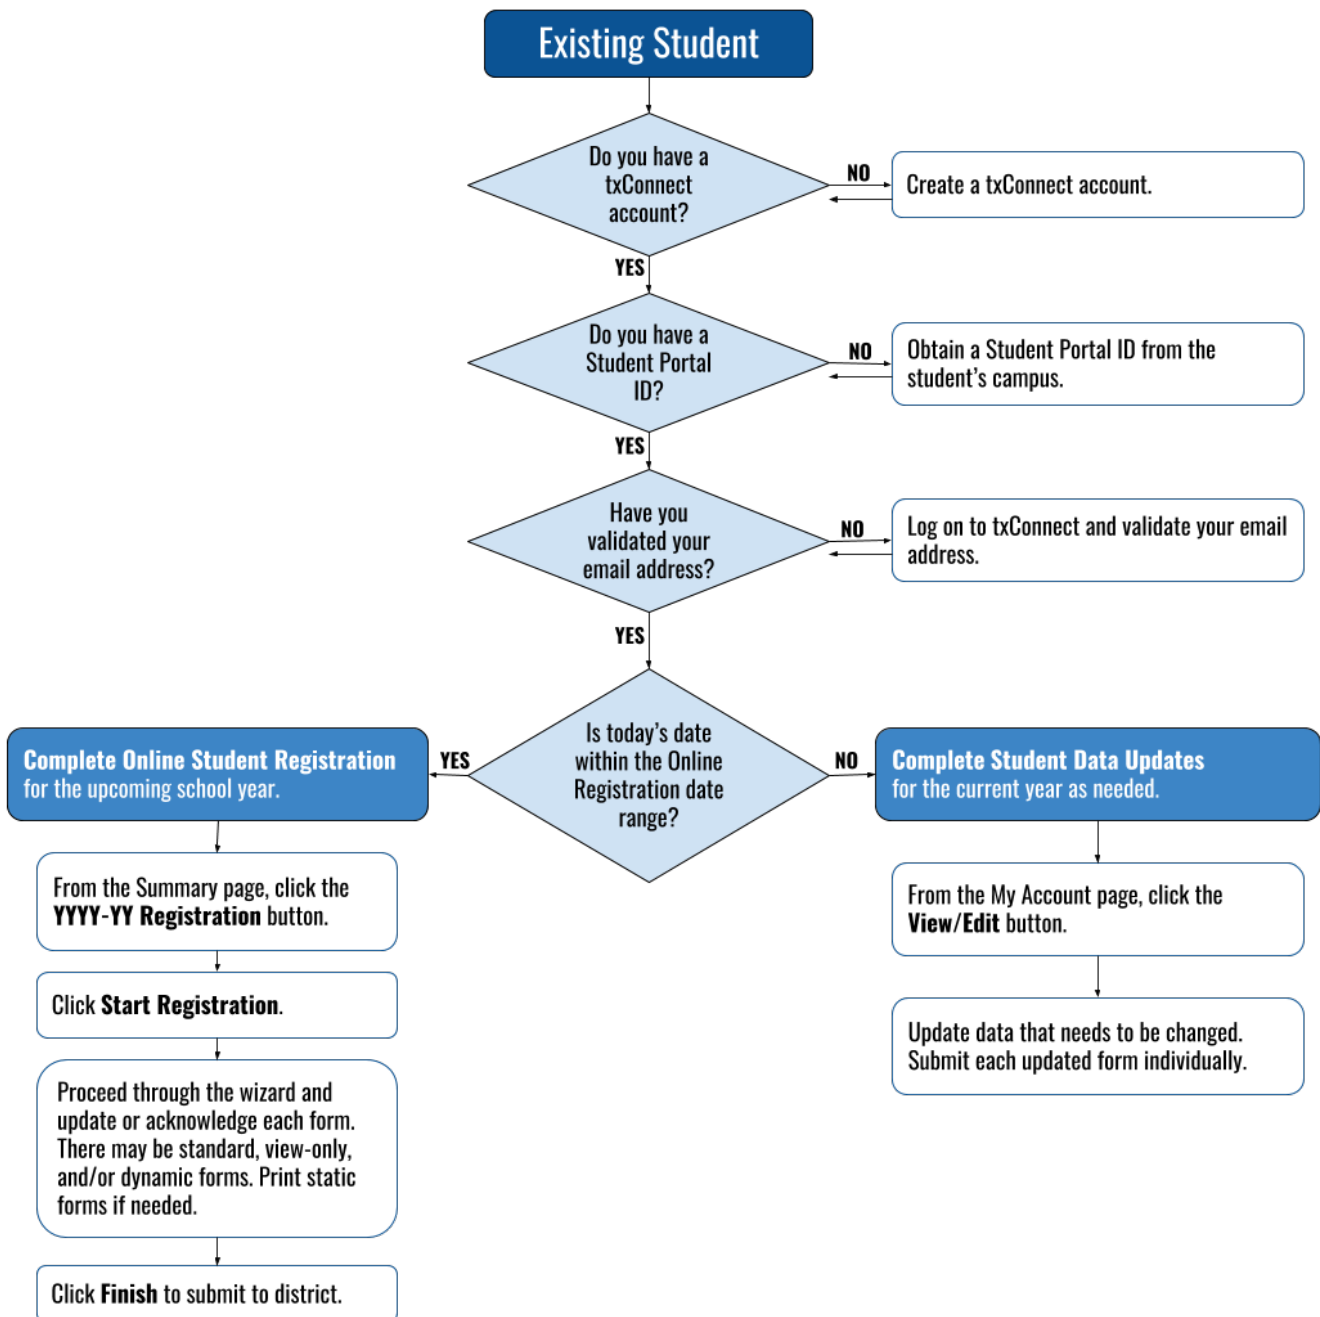

- This guide assumes that:
 - The student is enrolled in the district.
 - The parent's email address for the student is verified via txConnect. *
 - The student has been added to the parent's txConnect account.
- This guide assumes that several required steps have already been performed by the district to enable online registration and/or data updates at the campus. See [txConnect Admin: Manage Forms for Enrollment, Registration, and Data Updates](#).
- These steps can only be performed using the *full* txConnect website. **The mobile version of txConnect should not be used, because some features may not work.**

* A parent must have already created a txConnect account AND verified his/her email address. (Verifying the email address can be done during the creation of a new account or for an existing account on txConnect > My Account (**Email Address**)). **NOTE:** The parent's email address **MUST** match the **E-mail** field on TxEIS Registration > Maintenance > Student Enrollment > Contact for a contact selected as **Parent/Guardian**.

* If **Guardian Verified** is selected on TxEIS Registration > Maintenance > Student Enrollment > Contacts, and the email address for the txConnect account matches the email address for that guardian on the Contacts tab, the parent can complete online registration and student data updates. This workaround allows parents access even if they do not have a valid email address.

Online Registration, & Data Updates Parent Steps

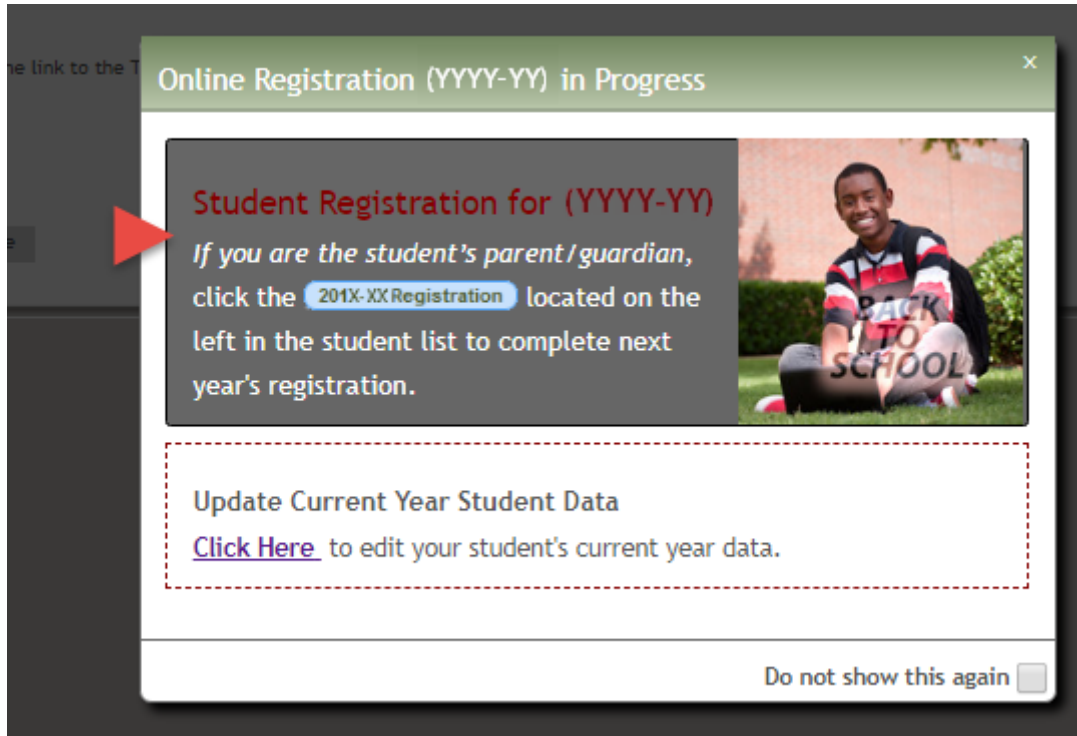

1. Complete annual Online Registration for the upcoming school year.

[txConnect > Summary](#)

Campuses typically require enrolled students to re-register each year for the upcoming school year and to complete forms that are required annually. Online registration typically occurs during a range of dates according to district requirements.

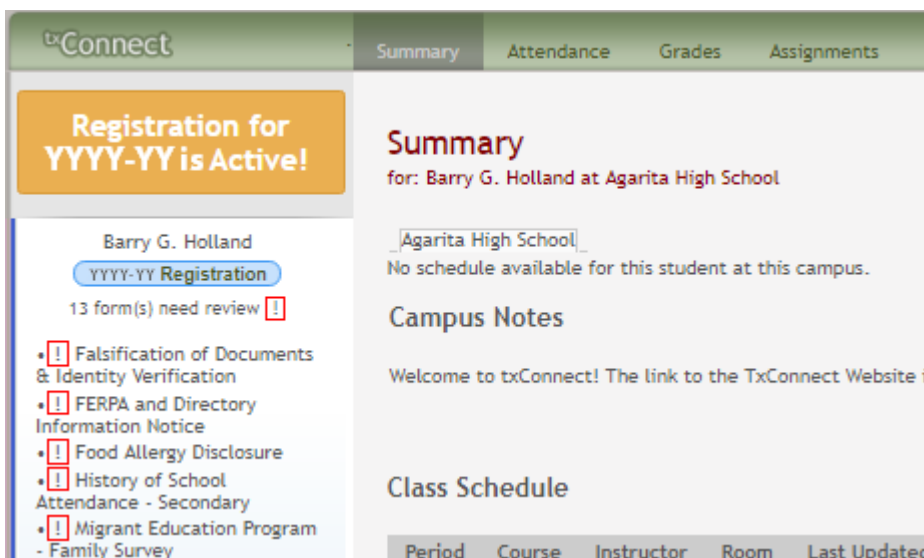

Log on to txConnect. The Summary page opens. From the Summary page, you can access all of your student's required registration forms.

If you have logged on during the active online registration period, a pop-up window opens. Click X to close the window.

You can select **Do not show this again** to disable the pop-up windows.

The district tracks the required registration forms to ensure that they are submitted for all students. Icons are displayed next to the forms to indicate the status of each required form for your student(s):

- The red exclamation mark  is displayed if the parent has not yet submitted the form. The count of forms requiring the parent’s attention is also displayed.
- The green check mark  is displayed if the form has been submitted.

To begin:

Click the **YYYY-YY Registration** button to access the registration forms. (**YYYY-YY** reflects the upcoming school year.) This button is only displayed when the district has enabled online registration for the upcoming school year.

The online registration wizard opens.

The required forms are listed on the left.

- “(Pending)” is displayed if the form requires your attention.
- “(Completed)” is displayed once you have updated and/or confirmed data on the form.

Click **Start Registration**. The first form in the list opens on the right side of the page.

- For a standard form, the form is accepted or rejected as a whole.

If campus staff rejects a submitted change, you will be notified by email. The email message should inform you why a particular change was rejected and what to do. Contact the student's campus for more information.

TxEIS Registration: Approve Student Registration & Data Changes and Monitor Forms from txConnect

This guide relates to online student registration data, which is set up and accessed via the parent portal, txConnect.

Once a parent has a valid Student Portal ID for an enrolled student, he can add a student to his txConnect account and access the student's attendance, grades, and more. If the district has enabled parents to update a student's registration data, a parent can complete annual online registration for the upcoming school year, as well as submit changes to his student's current year data from txConnect, such as address and telephone number changes.

As parents update data for their students, campus staff must review and approve each change. These steps must be completed in TxEIS Registration.

The parent can also review, complete, and submit forms via txConnect. As parents review and submit forms from txConnect, the campus staff can monitor the status and identify students who are missing required forms.

Follow these steps to monitor and approve data changes, and identify students who are missing forms.

Prerequisites:

- The steps in this guide must be completed in TxEIS Registration by a user who has access to the pages described in these steps. Basic knowledge of the TxEIS Registration application is assumed.
- For online registration changes, the district must have enabled parents to update student registration data online for the upcoming school year (i.e., the **Active Online Registration From** and **To** date fields must be set to allow parents a window of time in which to register.)
- For updates to a student's current year records, the district must have enabled parents to update student data online (i.e., the **Allow parents access to Student Data forms** field must be set to Yes.)

See the [txConnect Admin: Manage Forms for Enrollment, Registration, and Data Updates](#) guide.

1. [Review submitted changes.](#)

[Registration](#) > [Maintenance](#) > [Online Registration](#) > [Pending Updates](#)

The Pending Updates page allows you to review and approve or reject a student's pending updates received from txConnect. The list includes changes submitted for online registration, as well as student data change requests for the current year.

On the Registration landing page, the number of students with pending data updates is displayed.

2. [Monitor student form submission.](#)

[Registration](#) > [Maintenance](#) > [Student Enrollment](#) > [Forms](#)

The Forms tab allows you to view the status of a student's forms and maintain submission dates for hand-delivered forms.

Form information is displayed differently on this tab depending on the form type.

Some forms may only require the parent to acknowledge that he has reviewed the form. Other forms require the parent to input data. Some data input by parents must be approved by campus staff in order for the change to be made to the student's record. These settings are established in txConnect Admin on the Forms Management pages.

- If a parent acknowledges the form via txConnect, you can view the form data and submission date.
- If a parent submits a form change via txConnect, you can view the form data and status.
- If a parent submits a hard copy of a form to the campus staff, you can manually record the date on which the form was delivered.

The Forms tab is not available until you retrieve a student on the [Student Enrollment](#) page. For a new student, you must enter and save all required data on [Demo1](#) before proceeding to this tab.

The screenshot shows the 'Forms' tab in the txConnect interface. At the top, there is a student profile for '200016 : Holland, Barry Gibb' with a 'Retrieve' button. Below this is a navigation bar with tabs for 'Demo1' through 'Forms'. The 'Forms' tab is active, displaying a table of forms for the selected student. The table has columns for 'Sch Yr', 'Form Name', 'Submit Date', 'Submitter ID', 'Approval Date', 'Approver ID', and 'Required Form'. The table lists various forms such as 'Contacts', 'Emergency Contacts', 'Physical Exam', 'Registration', 'School Supply List', 'School Uniform Guidelines', 'Sports Emergency Contact List', and several 2018 forms including 'Diversity and Race Data Questionnaire', 'Falsification of Documents & Identity Verification', 'FERPA and Directory Information Notice', 'Food Allergy Disclosure', 'History of School Attendance - Secondary', 'Migrant Education Program - Family Survey', 'Military Connected Student Data', 'Registration', 'Statement of Special Education Services', 'Student Directory Information Release', 'Student Media Release', and 'Student Residency Questionnaire'.

All current and next year forms are listed.

- Unsubmitted forms are listed first, according to the selected school year.
- External forms are not listed.
- The list [can be re-sorted](#).
