# Table of Contents

## Attendance > Maintenance > Student > Student Posting with Comments > By Date and Code

This tab allows you to post attendance for a group of students who all have the same absence date, track, and period(s). You can specify one posting code that applies to all selected students, or you can select individual codes for each student. You can also overwrite existing posted attendance (an Overwrite Warning pop-up window will be displayed).

This tab allows you to quickly pre-post a school-related absence such as a field trip.

Attendance can only be posted for the current school year, and only for tracks that have a calendar set up for the campus.

To view previously entered posting codes and comments for a student, go to [Maintenance > Student > Student Inquiry > Attendance Audit](#).

<b>Date</b>	The current date is selected by default. Click <i>in</i> the field to select a valid absence date from the calendar. Or, type the date in the MMDDYYYY format. This is the date on which the student will be posted absent or tardy.	
<b>Code</b>	Select one:	
	<b>All</b>	If selected, the same posting code will be applied to <i>all</i> the students you add to the list.  Click  to <a href="#">select the posting code</a> that will be applied to all students.  The individual <b>Code</b> fields will be disabled.
	<b>Individual</b>	If selected, you can apply a different posting code for each student using the individual <b>Code</b> fields.
<b>Track</b>	Select the attendance track. Only tracks established for the campus in the Attendance application are listed. Attendance should be posted one track at a time, and you must save between tracks. Changing the track without saving will generate message warning you that you have unsaved changes.
