## By Date/Course (Attendance Posting)

#### Attendance > Maintenance > Student > Student Posting > By Date/Course

This tab allows you to post a group of students absent by date and course. All students must have the same absence date, instructor, course, section, semester, and track. You can select a different absence code for each student.

**NOTE:** If you post or change a posting code, your user ID and the date-time stamp are saved in the attendance posting table, and an audit record is created in an audit table.

### **Update data:**

Field	Description
As of Date	Type the absence date in the MMDDYYYY format, or click $\blacksquare$ to select the date from the calendar.
Teacher	Type or click to select the instructor of the course in which the students are enrolled.
Crs	Select the course for which to post attendance.
Sec	Select the section for which to post attendance.
Sem	Select the semester in which the course-section is taught.
Trk	Select the attendance track. Only tracks established for the campus in the Attendance application are listed.

Click **Retrieve**. A list of students enrolled in the course is displayed.

• The list can be re-sorted.

You can re-sort the grid by clicking on an underlined column heading. It will sort in ascending order. Click it again to sort in descending order.

A triangle next to the column heading indicates the column by which the grid is currently sorted and whether it is sorted in ascending  $\boxtimes$  or descending  $\boxtimes$  order.

If a course is scheduled for more than one period, the range of periods is displayed, and the absence is posted for all periods in the range. In this case, the posting code and comments are not displayed.

**Code** For each student who was absent or tardy, type or click to select the posting code.

Click **Save**.

### Other functions and features:

**Reset** Clear unsaved changes and start over.

### **Back Cover**
