# By Date/Control Number (Attendance Posting)

**Attendance > Maintenance > Student > Student Posting > By Date/Control Nbr**

This tab is mainly used by elementary campuses to post attendance for a particular date for a group of students who have the same control number (i.e., instructor ID). All students must have the same absence date, control number, track, and period(s). You can select a different posting code for each student, and/or overwrite existing posted attendance (an Overwrite Warning pop-up window will be displayed).

This page is also useful if campus staff needs to post attendance taken by a substitute teacher.

Attendance can only be posted for the current school year, and only for tracks that have a calendar set up for the campus.

**NOTE:** If you post or change a posting code, your user ID and the date-time stamp are saved in the attendance posting table, and an audit record is created in an audit table.

If you retrieve one period, any existing posting codes are displayed for that date, period, and control number. If you select more than one period, posting codes are not displayed.

- You can re-sort the grid (saved rows only) by clicking an underlined column heading.

**WARNINGS:**

Comments are not saved until you click **Save**.

If you enter comments, click **Apply Checked**, receive an Overwrite Warning message and click **OK**, and then click the "X" to close the window, the new comment does not overwrite the original comment until you click **Save** and the Saved Successful message is displayed.

If you entered comments for a posting code, and then clear the posting code, the comment is cleared without notification.

A student's comments can be viewed on [Attendance > Maintenance > Student > Student Inquiry > Attendance Audit](#).
