SDS0300 - Bil/ESL Students in Discipline Settings

Discipline > Reports > Discipline > SDS0300 - Bil/ESL Students in Discipline Settings

The report lists students who are in a bilingual/ESL program and in a disciplinary setting. The report displays students with the specified official or actual length of the disciplinary assignment and an equivalent PEIMS code for the action. An error report can be printed for offense records that do not have corresponding action records.

Parameter	Description
Ending School Year (YYYY)	Type the four-digit ending school year.
Campus ID (Blank for All)	Type the three-digit campus ID, or click  to select the campus . Leave blank to select all campuses in the district. NOTE: If you select to create the report for all campuses, any campuses excluded from district reporting (i.e., campuses that have the Exclude from District Reporting field selected on Registration > Maintenance > Campus Profile > Campus Information Maintenance > Control Info) are not included in the report. However, you can generate the report for an individual excluded campus by entering the campus ID.
Attendance Track (Blank for All)	Type the two-digit attendance track. Leave blank to select all tracks.
Number of Official or Actual Days (001-099)	Type the number of days of the official or actual disciplinary assignment for which to run the report.
Active Code (1 = Active, 2 = Inactive, Blank for All)	1 - Select active students only. 2 - Select inactive students only. Blank - Select all students.
From Action Date (MMDDYYYY)	Type the date, or click  to select the date from a calendar. Leave blank to run the report for the entire year. The From and To Action Dates must both be blank or both contain values.
To Action Date (MMDDYYYY)	Type the date, or click  to select the date from a calendar. Leave blank to run the report for the entire year.

For **Report**, select one:

- **Bil/ESL Students in Discipline Settings** - Print only the Bil/ESL Students in Discipline Settings report.
- **Error Report** - Print only the error report.

Other functions and features:

Filter [Filter report data.](#)**Filter**

When you want to view only certain data, you may find it useful to filter the report data. You can use specific criteria to retrieve only the data that you want. Not all reports allow this option.

From the report window, click **Sort/Filter** to open the Sort/Filter window. By default, the **Sort Criteria** section is expanded. Click **Filter Criteria** to expand the **Filter Criteria** section.

If the report does not allow sorting, the **Filter** button is displayed instead of the **Sort/Filter** button, and sort criterion fields are not available.

Click **Add Criterion** to add new filter criteria. A blank row is added to the grid.

Column	Select a field by which to filter the data. The drop down lists the columns that appear on the report.
Operator	Select an operator. = Equals ≠ Not equals > Greater than ≥ Greater than or equal to < Less than ≤ Less than or equal to
Value	Type the value by which you want to filter. For example, if you selected a date in the Column field, type a date to view only data for a specific date. Note: When filtering report data by date, you must use the following formats: • If the date is displayed in the MM/DD/YYYY format, the filter value must be in the YYYYMMDD format. • If the date is displayed in the MM/YYYY format, the filter value must be in the YYYYMM format. • If the date is displayed in the MM/YY format, the filter value must be in the YMMM format.

Add Criterion	Add another row. Select the logical connector (AND or OR) in the Logical field. Continue adding rows as needed. The Logical field does not appear until you click Add Criterion to add an additional row. • Using the AND operator limits search results, because the program looks only for records that contain both criterion. • Using the OR operator expands search results, because the program looks for records that contain either one criterion or the other, or both.
Delete Selected	Delete selected row. Select the row, and then click the button. The row is deleted from the filter criteria.

Click **OK** to apply the selected filter criteria to the report.

Click **Cancel** to close the dialog box without applying a filter.

NOTE: Some applications allow you to filter by specific data:

In Test Scores, you can filter report data to include only students who are enrolled in special programs. When filtering report data for At Risk, PRS, and GT programs, you must select 1 (Yes) or 0 (No) in the **Value** field. For example, if you filter report data for the At Risk program by selecting *Equals* in the **Operator** field and Yes in the **Value** field, no data is displayed; however, if you select 1 in the **Value** field, the At Risk data is displayed.

Reset

[Reset report data.](#)

Click to restore the report to the original view, removing all sorting and filtering that has been applied.
