Document Attachments

This feature is not available in all districts.

Document Attachments allows you to upload and view documents by application, school year, folder, and document type.

If you are logged on as a user assigned to a Document Attachments-enabled role, the **Documents** button is displayed on various pages in the TxELS Student system. If you have read-only access, you can download existing files, but you cannot upload files.

If you are logged on with a role that does *not* have security access to Document Attachments, the button is *not* displayed on any pages.

If a document is attached, the Documents button displays a note icon.
