• The **Previous Grad Plan** field displays the code for the previous graduation plan, if it exists. Otherwise, the field displays "none."

• The **New Grad Plan** field displays the code for the new graduation plan.

• If any courses were added, they are listed, including the course number, course title, credits, and service ID. Otherwise, assignment exceptions will indicate why courses were not added.

• When you change a student's graduation plan, the course subject areas (i.e., grad plan use codes) are automatically reassigned in the student's graduation plan. Any courses the student has already taken, is currently taking, or is scheduled to take next year will have the grad plan use code adjusted if necessary so courses appear under the correct subject area on the graduation plan. (**NOTE:** If a course is already set to at least one applicable subject area in the new graduation plan, the course's subject area will not be changed.)
