Update data:

Screening Date	Type the date on which the screening test was administered in the MMDDYYYY format. Or, click to select the date from the calendar.
-----------------------	---

Select the group of students:

Grade	Select the grade level. If blank, you must select an instructor.
Instructor	Select the instructor. If blank, you must select a grade level.
Course	If an instructor is selected, the instructor's courses are listed by period. If you select a period for which there are multiple course-sections, all students in all sections are selected.
Show Already Screened	Select to display students who meet the selected criteria and already have vision screening data added for the screening date. By default, screened students are not displayed.

Click **Retrieve**.

The students who meet the selected criteria are displayed.

- If there are multiple pages, [page through the list](#).

Default Values	Select the default values for the screening:	
	Select Page	Select to apply the default values to all students displayed on the page. Do not select all students unless they <i>all</i> have the same exam type, pass/fail/rescreen, glasses, and eye results settings.
	Exam Type	Select the type of vision test administered.
	Pass/Fail/Rescreen	Select the overall result of the vision test.
	Glasses	Select if all students in the group were wearing glasses when tested.
	Both Right Left	Type the three-digit number indicating the test results for both eyes, the right eye, and the left eye.
Screener	Type the screener's first name (up to 9 characters), middle initial, and last name (up to 14 characters).	

If you did *not* select **Select Page**, select the individual students who meet the criteria specified under **Default Values**.

As you select students, the **Default Values** are displayed for the student in the grid.

If there are multiple pages of students, you cannot save multiple changes at one time. You must save the page before going to the next page.

Click **Save** to save the information for the students displayed on the page.

- The selected students remain displayed on the page, but they appear dimmed and cannot be selected.
- You can select different default values for the remaining students.

Show Already Screened	To re-display screened students (i.e., students for whom data was previously entered and saved), select Show Already Screened and click Retrieve . The students are displayed, but the data cannot be updated.
