Select a code:

- The list [can be re-sorted](#).

You can re-sort the grid by clicking on an underlined column heading. It will sort in ascending order. Click it again to sort in descending order.

A triangle next to the column heading indicates the column by which the grid is currently sorted and whether it is sorted in ascending  or descending  order.

- When you locate the code you want to retrieve, click the code. The lookup closes, and the parameter is populated with the code.
- Click **Cancel** to close the lookup without selecting a code.
