Computation

Grade Reporting > Maintenance > Tables > Campus Control Options > Computation

This tab allows you to enter grade average computation settings for the campus.

Update data:

Field	Description
Grading Concept	<p>Indicate how students are awarded credit for a course-section. The selection should be based on your district grading policy.</p> <p><i>Final</i> - Award credits based on the final grade. <i>Sem/Final</i> - Award credits based on a combination of semester and final grades. If used, the Credit Seq field on Maintenance > District Schedule is also considered when you run the Grade Computation and Credit Assignment utility and the Assign Pass Fail Indicators utility. <i>Semester</i> - Award credits based on the semester grade. The field is also used by the Assign Pass Fail Indicators utility.</p>
How will Avg be Computed	<p><i>Computer</i> - Semester averages are automatically calculated. This option must be selected if you are using the Grade Computation and Credit Assignment or Grade Computation Elementary utility.</p> <p><i>School</i> - Semester averages are manually calculated.</p>
Include Exam in Semester Average	<p>Select to include the semester exam grade when computing the semester average. The field is used by the Grade Computation and Credit Assignment utility.</p> <p>NOTE: Most elementary campuses do not use exam grades. However, for elementary campuses that want to include the exam grade in the semester average and display the Exam column in TeacherPortal, the Include Exam in Semester Average field must be selected.</p>
