Computation

Grade Reporting > Maintenance > Tables > Campus Control Options > Computation

This tab allows you to enter grade average computation settings for the campus.

Update data:

Grading Concept	Indicate how students are awarded credit for a course-section. The selection should be based on your district grading policy. <i>Final</i> - Award credits based on the final grade. <i>Sem/Final</i> - Award credits based on a combination of semester and final grades. If used, the Credit Seq field on Maintenance > District Schedule is also considered when you run the Grade Computation and Credit Assignment utility and the Assign Pass Fail Indicators utility . <i>Semester</i> - Award credits based on the semester grade. The field is also used by the Assign Pass Fail Indicators utility .
How will Avg be Computed	<i>Computer</i> - Semester averages are automatically calculated. This option must be selected if you are using the Grade Computation and Credit Assignment or Grade Computation Elementary utility. <i>School</i> - Semester averages are manually calculated.
Include Exam in Semester Average	Select to include the semester exam grade when computing the semester average. The field is used by the Grade Computation and Credit Assignment utility . NOTE: Most elementary campuses do not use exam grades. However, for elementary campuses that want to include the exam grade in the semester average and display the Exam column in TeacherPortal, the Include Exam in Semester Average field must be selected.

Allow Recomputation	<p>If selected, all grades and credits are recalculated according to the settings of the Compute Sem Avg, Compute Final Grades, and Award Credits fields when running the Grade Computation and Credit Assignment or Grade Computation - Elementary utility.</p> <p>If not selected, only students with blank semester grades, blank final grades, or blank or zero credits are updated, depending on the options selected when running the grade computation utilities.</p> <table border="1" data-bbox="382 406 1468 1089"> <thead> <tr> <th data-bbox="382 406 632 541">Allow Recomputation</th><th data-bbox="632 406 917 541">Blank out Semester/Final on Grade Change</th><th data-bbox="917 406 1076 541">Remove Credit on Grade Change</th><th data-bbox="1076 406 1468 541">What happens?</th></tr> </thead> <tbody> <tr> <td data-bbox="382 541 632 720">Blank</td><td data-bbox="632 541 917 720">Selected</td><td data-bbox="917 541 1076 720">Selected</td><td data-bbox="1076 541 1468 720">This allows the grade computation utilities (secondary or elementary) to recalculate <u>only blank grades</u>.</td></tr> <tr> <td data-bbox="382 720 632 833">Selected</td><td data-bbox="632 720 917 833">Blank</td><td data-bbox="917 720 1076 833">Blank</td><td data-bbox="1076 720 1468 833">This allows the grade computation utilities to recalculate <u>all grades</u>.</td></tr> <tr> <td data-bbox="382 833 632 1012">Blank</td><td data-bbox="632 833 917 1012">Blank</td><td data-bbox="917 833 1076 1012">Blank</td><td data-bbox="1076 833 1468 1012">This allows the grade computation utilities (secondary or elementary) to recalculate <u>only blank grades</u>.</td></tr> <tr> <td data-bbox="382 1012 632 1089">Selected</td><td data-bbox="632 1012 917 1089">Selected</td><td data-bbox="917 1012 1076 1089">Selected</td><td data-bbox="1076 1012 1468 1089">Not recommended.</td></tr> </tbody> </table>	Allow Recomputation	Blank out Semester/Final on Grade Change	Remove Credit on Grade Change	What happens?	Blank	Selected	Selected	This allows the grade computation utilities (secondary or elementary) to recalculate <u>only blank grades</u> .	Selected	Blank	Blank	This allows the grade computation utilities to recalculate <u>all grades</u> .	Blank	Blank	Blank	This allows the grade computation utilities (secondary or elementary) to recalculate <u>only blank grades</u> .	Selected	Selected	Selected	Not recommended.
Allow Recomputation	Blank out Semester/Final on Grade Change	Remove Credit on Grade Change	What happens?																		
Blank	Selected	Selected	This allows the grade computation utilities (secondary or elementary) to recalculate <u>only blank grades</u> .																		
Selected	Blank	Blank	This allows the grade computation utilities to recalculate <u>all grades</u> .																		
Blank	Blank	Blank	This allows the grade computation utilities (secondary or elementary) to recalculate <u>only blank grades</u> .																		
Selected	Selected	Selected	Not recommended.																		
Blank out Semester/Final on Grade Change	<p>Select to clear the Sem and Final grades on Grade Reporting > Maintenance > Student > Individual Maint > Grd Update upon saving when a cycle or exam grade is changed. When manually updating Sem and Final grade fields, you must first save the cycle or exam grade change to prevent them from being cleared by the initial save.</p> <p>The Sem and Final grades will be populated next time the Grade Computation and Credit Assignment utility is run.</p>																				
Remove Credit on Grade Change	<p>Select to clear the Credit field on Grade Reporting > Maintenance > Student > Individual Maint > Grd Update upon saving when a cycle or exam grade is changed. When manually updating Credit field, you must first save the cycle or exam grade change to prevent the field from being cleared by the initial save.</p> <p>The Credit field will be populated next time the Grade Computation and Credit Assignment utility is run.</p>																				
Don't Allow Credit If Failed Last Sem	<p>Select if students who failed the last semester of a course will not receive credit.</p> <p>If selected, and a student fails the last semester of a course, the student will not receive credit for the course. This field overrides courses set up to allow partial credit.</p> <p>For the Grade Computation and Credit Assignment utility, the field is considered only if the Grading Concept field is set to <i>Semester</i>. It is not used with the <i>Final</i> or <i>Sem/Final</i> grading concepts.</p>
