## Grade Reporting > Utilities > Grade Computation Elementary

This utility calculates and assigns semester grades and final (year-to-date cumulative) grades for elementary grade levels. Both alpha and numeric grades are calculated.

### NOTE:

- If at least one of the cycle grades is N/G, the final grade is N/G.
- The final grade is not calculated if at least one of the cycle grades is alpha (other than I or N/G) and cannot be converted; an error is written to error report.
- Exempt exams are denoted with X.

Click Execute.

If the campus is using txGradebook, the Allow Recomputation field on the Maintenance

Tables > Campus Control Options > Computation tab cannot be selected. If the field

is selected, a message is displayed when you click Execute indicating that you must clear the Allow Recomputation field. Click OK.

You must clear the Allow Recomputation field to continue.

If the campus is not using txGradebook, the Allow Recomputation field on the Maintenance

Tables > Campus Control Options > Computation tab can be selected; however, a message

is displayed when you click Execute prompting you to confirm that you want to continue. Click Yes to recalculate all grades, or click No to stop the process.

If errors are encountered, the Preview Errors button is displayed. Click Preview Errors to view the report. The report opens in a new window. Review, save, or print the report.
