Grade Reporting > Utilities > ParentPortal Interim Progress Report

This utility allows you to create and print Interim Progress Reports (IPRs) for students that will be available to parents/guardians electronically via ASCENDER ParentPortal. You can also view previously published IPRs.

Only one record is created per student, and it will always have the last posted data.

The screenshot shows a software interface with a blue header bar. The header bar contains the text "Utilities > ParentPortal Interim Progress Report". Below the header is a white content area with a blue border. Inside this border, the text "ParentPortal Interim Progress Report Options" is displayed in bold. Below this, there are two blue links: "Create IPR" and "View Published IPR".

Print data:

- Click **Create IPR**.

The following fields are displayed allowing you to specify criteria for generating and printing IPRs.
