

Accelerated Learning

Table of Contents

Accelerated Learning 1

Accelerated Learning

Graduation Plan > Maintenance > District > Tables > Accelerated Learning

This tab allows you to set up a district-level table of accelerated learning criteria. Accelerated learning is required for any student who has failed a standardized test.

Update data:

Existing accelerated learning codes are displayed in order by code.

Click **+Add** to add one blank row. A blank row is added to the grid. Or, click **+Add 10** to add ten blank rows to the grid.

3. In the Code field, type the code. The field must be two digits and cannot already exist in the table.

4. In the Description field, type the description of the accelerated learning code. The field can be up to 35 characters.

5. Click Save.

6. To update a description, type over the existing description, and then click Save.

Note: You can update the description for a code; however, you cannot change a code. You must delete and reenter the code and description.

7. To delete an accelerated learning code, click trashcan icon. The row is shaded red to indicate that it will be deleted when the record is saved.

- You can select multiple rows to be deleted at the same time.
- Click Save. A message is displayed asking you to confirm that you want to delete the row.
- Click Yes to continue. The selected rows are deleted. Otherwise, click No.

Note: You can save edits and delete records in the same step (i.e., the changes are all committed when the records are saved).
