# By Group (Grad Plan Assignment)

## Graduation Plan > Utilities > Grad Plan Assignment > By Group

This utility assigns or changes the graduation plan for a group of students by grade level, and updates each student's **Graduation Type** field on [Registration > Maintenance > Student Enrollment > Demo3](#). From the group, you can select to assign the plan to all or some students. When a student's plan is changed, the credit summary and credit detail calculations are compared against the district-level graduation plan requirements for the new graduation plan.

- No graduation plan courses are added, changed, or deleted for students who currently have a graduation plan assigned.
- No default courses for previous grade levels are assigned to the student. Default courses are only added if they are offered at the campus and not already in progress or requested by the student.
- Graduation plan courses in progress, requested/scheduled, or completed are not assigned.
- If a student has at least one scheduling record, graduation plan courses for the scheduling grade level are not assigned.
