# Country Codes

## Registration > Maintenance > District Profile > Tables > Country Codes

This tab allows the district to maintain a table of country codes. These countries populate the **Birth Country** drop-down field on [Maintenance > Student Enrollment > Demo2](#).

### Update data:

Existing country codes are displayed in order by code.

Click **+Add**. A blank row is added to the grid.

Field	Description
<b>Code</b>	Type a two-character code for the country.
<b>Name</b>	Type the name of the country, up to 25 characters.

Click **Save**.

To update a country name, type over the existing name and save.

You can only update the country name; you cannot update a code. To change a code, you must delete and re-enter the code and description.
