Local Use Codes 1

Local Use Codes

Registration > Maintenance > District Profile > Tables > Local Use Codes

This tab allows you to maintain a table of district-specific labels (i.e., field descriptions) for the **Local Use** and **User Defined** fields that are displayed on the Maintenance > Student Enrollment > Demo2 and At Risk tabs. Additionally, you can designate specific fields as required.

- The At Risk tab has five fields that can be named and defined by the district. Two of the fields allow user to enter one character. Two of the fields allow users to enter up to three characters, and one field allows up to eight characters. The fields are displayed under the heading **Non PEIMS District Codes**.
- The Demo2 tab has seven **Local Use** fields that can be named and defined by the district. All are one-character fields.
