Prior Year Leaver Tracking

Registration > Maintenance > Prior Year Leaver Tracking

This page provides the master list for prior year leaver students. This data is initially created when you run the **Create Leaver Tracking Records** utility. Leaver records cannot be deleted.

Leaver data is sent submitted to TEA via API for all students who withdrew during the school year. The data is extracted from the student demographic and enrollment tables during ASDR and saved to a leaver tracking table. In the fall of each school year, prior year leaver data is submitted to PEIMS along with No Show leaver data for the current school year.

If a student was excluded from leaver tracking by mistake, the Prior Year Leaver Tracking page can be used add the student. **Use this page carefully.**

NOTE: No Show leaver data, which is current year data, must be updated on [Maintenance > Student Enrollment > W/R Enroll](#).

Prior Year Leaver and Graduate data, which is prior year data, must be updated in prior year or current year leaver tracking depending on the element.
