Campus Control 1

Campus Control

Scheduling > Maintenance > Master Schedule > Campus > Campus Control

This tab allows you to set up scheduling options for a campus. These options apply to the upcoming school year and must be set before you can access the campus master schedule. The Master Schedule > Campus tabs are disabled until these settings are saved.

Set options:

A warning message is displayed if campus control options have not been set. Click **OK**.

Field	Description
Max Sems Allowed	Select the number of semesters to be scheduled at the campus for the next school year.
Low Grade	Select the lowest grade level at the campus.
High Grade	Select the highest grade.
Schedule Withdrawn Students	Select if students who withdraw from the campus in the current school year should be scheduled for next year.
Period Begin	Type the first class period that can be scheduled using two digits.
Period End	Type the last class period that can be scheduled using two digits.
Norm Prd Cntrl	The normal period control for the campus is displayed, which is usually equal to number of periods in the school day multiplied by the number of semesters. For example, at a two-semester campus that has 8 periods per day, the normal period control is 16. This number is used to flag students whose course requests vary from what is expected.

Field	Description		
Scheduling Sequence	Indicate the order in which grade levels should be scheduled: <input type="checkbox"/> Click +Add to add a grade level to the scheduling sequence. A row is displayed in the Scheduling Sequence grid.		
	<table border="1"> <tr> <td data-bbox="371 344 496 427">Priority</td> <td data-bbox="496 344 1481 427">The order in which the grade levels are scheduled is displayed in order from highest (i.e., 1) to lowest priority.</td> </tr> </table>	Priority	The order in which the grade levels are scheduled is displayed in order from highest (i.e., 1) to lowest priority.
	Priority	The order in which the grade levels are scheduled is displayed in order from highest (i.e., 1) to lowest priority.	
	<table border="1"> <tr> <td data-bbox="371 427 496 645">Grade</td> <td data-bbox="496 427 1481 645"> Select the grade level that should be scheduled according to the corresponding Priority field. For example, if you want to schedule 12th grade students first, the Priority field should be set to 1, and the Grade field should be set to 12. All grade levels must be listed. </td> </tr> </table>	Grade	Select the grade level that should be scheduled according to the corresponding Priority field. For example, if you want to schedule 12th grade students first, the Priority field should be set to 1, and the Grade field should be set to 12. All grade levels must be listed.
Grade	Select the grade level that should be scheduled according to the corresponding Priority field. For example, if you want to schedule 12th grade students first, the Priority field should be set to 1, and the Grade field should be set to 12. All grade levels must be listed.
