Scheduling > Maintenance > Master Schedule > Campus > Selection

This tab allows you to select district course records to be added to the campus master schedule.

The campus master schedule contains all the courses and sections offered at the campus. The campus course records are built by selecting district courses; the information from the district course record is automatically copied to the campus course record.

You must establish the campus course records before you can create campus section records.

Add or remove courses:

If more courses are retrieved than can be displayed in the grid at one time, you can [page through the list](#).

Notes:

Only courses that do not have course sections or enrolled students can be removed from the Campus Courses to Delete list. You cannot delete a course that is requested by a student as an alternate.

Courses that have been requested by a student at the campus, either as a request or as an alternate request, are displayed in red. You must remove the requests before the courses can be removed from the Campus Courses to Delete list.

You cannot delete a course from the campus courses if it is part of a district graduation plan, and at least one student at the campus is assigned to the graduation plan. The program will look in the crosswalk table when identifying courses that are part of a graduation plan with students assigned to it when the course number length has been changed on the [Maintenance > Master Schedule > District > District Control](#) tab.

If the course is part of a district graduation plan, but no students are assigned to the graduation plan, the course can be deleted from the campus courses, but you will first be prompted to confirm that you want to delete the course.

Click Reset to revert to the original course lists before saving.

Note: The reset function does not reset courses once the lists have been saved.

Click **Save**.
